**NOT TO MENTION IT**

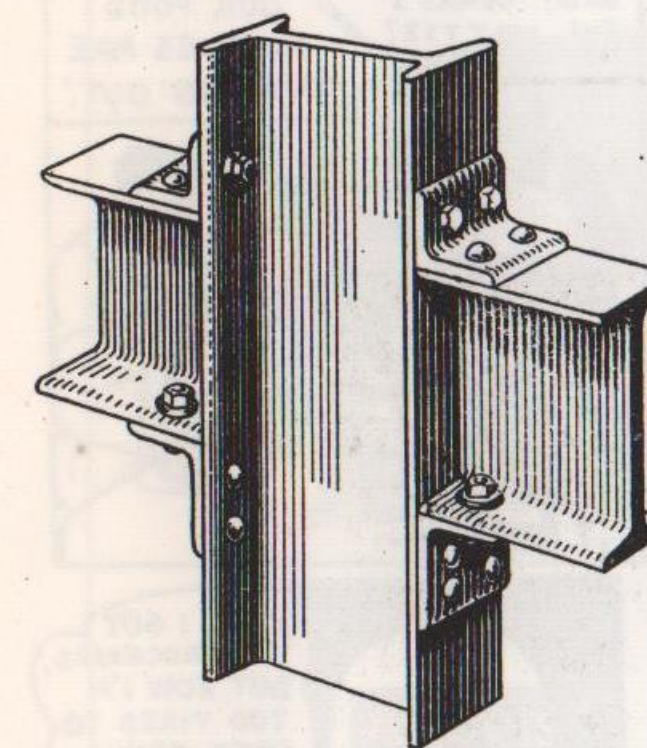

THE JOY of religion is the exhilarating feeling of believing in a well defined deity, which makes our blood tingle and our feet tap on the floor (but discreetly), and urges us to respond by moving in rhythm.

Religion brings boys and girls together in a unique way. It helps to make friends. There is no language barrier — in fact, religion is an international language. And a good believer is always popular. Perhaps you are not the best looking person around, but if you know the creed you will have fun in the place of worship. But you must practise to become efficient.

First you should be able to identify the different religions, — Christian, Buddhist, Jewish, Muslim, Hindu and even Rasta and Moonies.

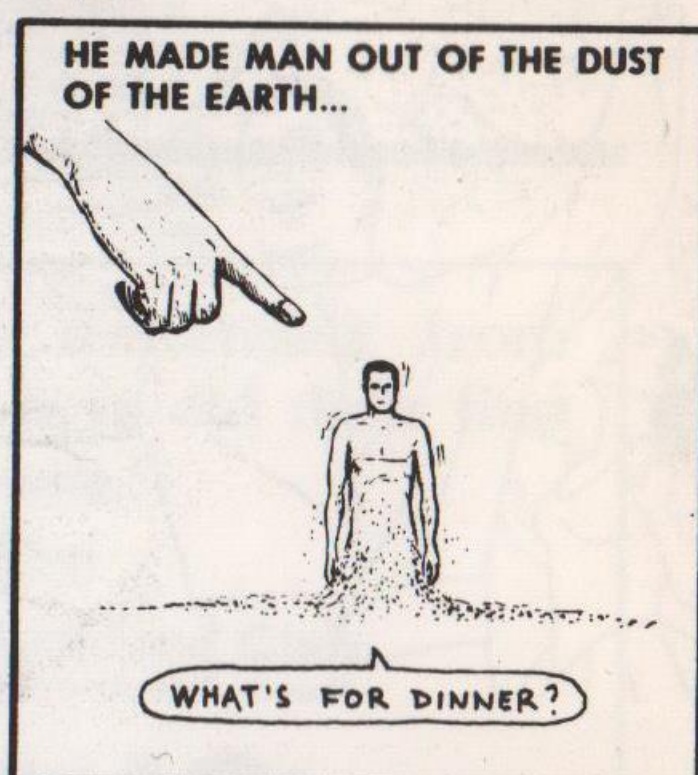

Having identified the religion you need to know the accompanying rituals, how to approach the girl of your choice (if you are a boy) and ask her to pray with you, and how to start the prayer with ease and confidence so that you both enjoy it.

The girl can only wait and hope to be asked, but must know how to accept gracefully and with a smile, and how to follow her partner.

# GOD MURDERED

again

Police searched a ten-acre wood, inch by inch, for clues

## Popular

he wanted to be a nurse but had decided first to take a domestic science course at a technical college, where he was a popular student.

God walked on... and vanished. The next five weeks were agony for The family, as a huge search spread across the snow-sprinkled countryside. Police, helped by men from Territorial Army units, swarmed everywhere.

## Heavy

The killer had left a note pinned to the naked corpse with a nail hammered through the heart! The message read: "I'm not a murderer. I'm working for the good people of society. I'm trying to cleanse the world."

## Home-made

The killing still ranks as one of the most bizarre and macabre of unsolved murders.
