

STOP PRESS

SUBSCRIBE - SUBSCRIBE - SUBSCRIBE - SUBSCRIBE - SUBSCRIBE

As you'll have read on the front, Citywise has financial problems, each issue to date costs us about £50 more to produce than we can recoup in sales. During the autumn there will be a big promotional campaign to win enough new readers to stop crises like these happening again. In October there's also a benefit 'gig' to raise money. An alternative press depends on the hard work of a few and there might be no way round that (would you like to join the few?). What is possible is that those who value an alternative press put up some money. Straight donations are required, subscriptions are next best. Do what you can. The next issue goes up in price to 30p and will be on sale wherever you picked this up and at most city centre news-agents.

Return this form or write to: Citywise, Box B, Mushroom Bookshop, 10 Heathcote St., Nottingham. Thanks.

I enclose a donation of _____

I'd like to subscribe (eight issues for £3.25).

Please send me some back copies (the last 4 for £1)

CITYWISE is Nottingham's Alternative Paper - normally the issues are typeset and professionally printed. There's no paper for September quite simply because Citywise doesn't have the money to pay the printer. This Listings supplement has been brought out by one of the Citywise collective as many groups have sent in details of their events to the paper for our normal Listings columns - and for many groups publicity in an alternative paper is one of the few ways of contacting a potentially interested public outside of their own membership. Listings like these are also a valuable reference point for new people to town. Citywise, hopefully, will be back on schedule for October so please keep sending in your news, comment and forthcoming events.

HOUSING IS THEFT, HOUSING IS FREEDOM

That's the title of a pamphlet just published by the new Nottm. publishers Old Hammond Press, jointly with Mushroom Bookshop. The pamphlet, written by Colin Ward, outlines an anarchist alternative to current housing policy. The pamphlet equally criticizes the role of Labour councils in perpetuating dependency and resentment from their tenants, and the current governmet for doing little to alleviate the current housing problem. Colin Ward argues in favour of dweller control and gives examples of self-help housing groups. £1 from Mushroom Bookshop, Heathcote St.
