Anarchy is the only form of political thought that does not seek to control the individual through the use of force. Right wing and left wing politics are concerned with the control of people through the use of power, state control. Under both left and right wing governments, people are secondary to the state, they are seen as nothing more than the machinery of the state and they are expected to live, and if need be, die for the state. Anarchy is the rejection of that state and its control and represents a demand by the individual for a life of PERSONAL CHOICE not one of POLITICAL MANIPULATION. Anarchy is the first demand made by those seeking a life of personal responsibility, by refusing to be controlled by the state you take your life into your own hands and that is, rather than the popular and ignorant idea of anarchy as chaos, the first step towards true PERSONAL ORDER. The people who talk about anarchy and chaos are talking rubbish, stupid little heroes who can't see that the world IS IN CHAOS ALREADY. The world is a mess and the idiots who advocate chaos simply want to add to that mess. Anarchy is a state of mind not another government, you can't vote anarchist YOU CAN ONLY BE ONE. This is a matter of hard work and hard thought, it's a matter of learning to trust your own judgement and learning to live your own life. If you trust yourself to live your own life you become more able to let others live theirs. If you are able to make your own choices in life you are more able to let others make theirs. The state of anarchy is anywhere that individuals live with other individuals in trust and mutual respect and NOT a chaotic bedlam where everyone is out for themselves. Chaos is already the structure of this system, mindless, self interested and destructive, what's the future in that?

People ask "what if there were no government, or police or army? what if there were no laws? wouldn't a state of anarchy just mean chaos?" NO anarchy isn't about imposed control, it's about self control, it's about people not politics it's about people living, loving and learning together. If there were a state of complete anarchy (which there probably won't ever be) everyone would be HELPING each other BECAUSE THAT'S WHAT ANARCHY IS ALL ABOUT, not hindering with competitive and self grabbing natures that we are taught is the right way to be. You wouldn't NEED laws and controls because people would WANT to help each other, that is what anarchy seeks to do, it believes that we are capable of living together without aggression, it believes that we are basically good, not the evil that our system would have us believe we are. People would want to help because of the sense of their own responsibility that we are never permitted to develop in our oppressive society. It is because of this sense of responsibility that very few anarchists advocate physical violence and revolution. If force is used to achieve political ends, it means that someone has had to accept something against their will and that can only lead to resentment and the desire to fight back, which is the never ending circle of violence that you can read about in any history book, so how can real peace be achieved through violent means? Peace can only exist where there is a real desire for it, a recognition of the rights of individuals to live their OWN life, free of restriction and free of oppression. It is a matter of personal choice, a matter of personal responsibility and through realising that it is a responsibility to work towards a world of harmony and mutual respect.

No regime, be it communist, fascist, tory, labour etc. etc. will ever achieve anything of real value because regimes seek to control and manipulate people into FORCED responsibility and that is a CONTRADICTION of terms. Nationalism, socialism or whatever are all imposed ideas, all ways of saying that the STATE is more important than the INDIVIDUAL. Anarchy quite simply says that the INDIVIDUAL is more important than the STATE. Responsibility and coexistence can only be achieved through FREE CHOICE, it can't be forced on people, it is an act of faith, NOT A POLITICAL DOCTRINAIRE. As with pacifism, anarchy is a personal choice, an act of commitment, a decision in your own head to pursue a life that is ENTIRELY your own, free of restriction, free of fear, free of intimidation.

O.K., so you wan't change the world tomorrow by becoming an anarchist today, but it's a start; everything has to start somewhere, where better than in yourself? ANARCHY AND PEACE ARE ONE AND THE SAME THING, the complete state of anarchy would be PEACE in the way that NO OTHER way of life could be, because as long as people are forced into accepting things that they don't want to accept, there can be no peace. On a social level perhaps it's all a dream, but on a personal level it can be a reality. It's stupid to say "Oh I won't do that, there's not enough people to make it work"; that's sheep-like - it can ONLY work if you are prepared to stand alone and MAKE it work - it can only work if you are prepared to make it work on your OWN. Other kinds of political thought can easily do without your help because people don't matter in party politics, they're just numbers. It doesn't matter what you think if there's a fascist government in power, because, like it or not, you're going to have to accept it,; the same applies to ALL GOVERNMENT, you have to tow the party line, or, at best, suffer it. PEOPLE DON'T MATTER TO SYSTEMS, THEY NEVER HAVE AND THEY NEVER WILL. ANARCHY HAS NO PARTY, NO LINE TO TOW, IT'S YOU, YOU ALONE. Anarchy and peace are internal, personal facts, decisions made in your own head to live your own life. Stop blaming others for the mess you're in and get on with making your own life. YOU'VE ONLY GOT ONE, USE IT.

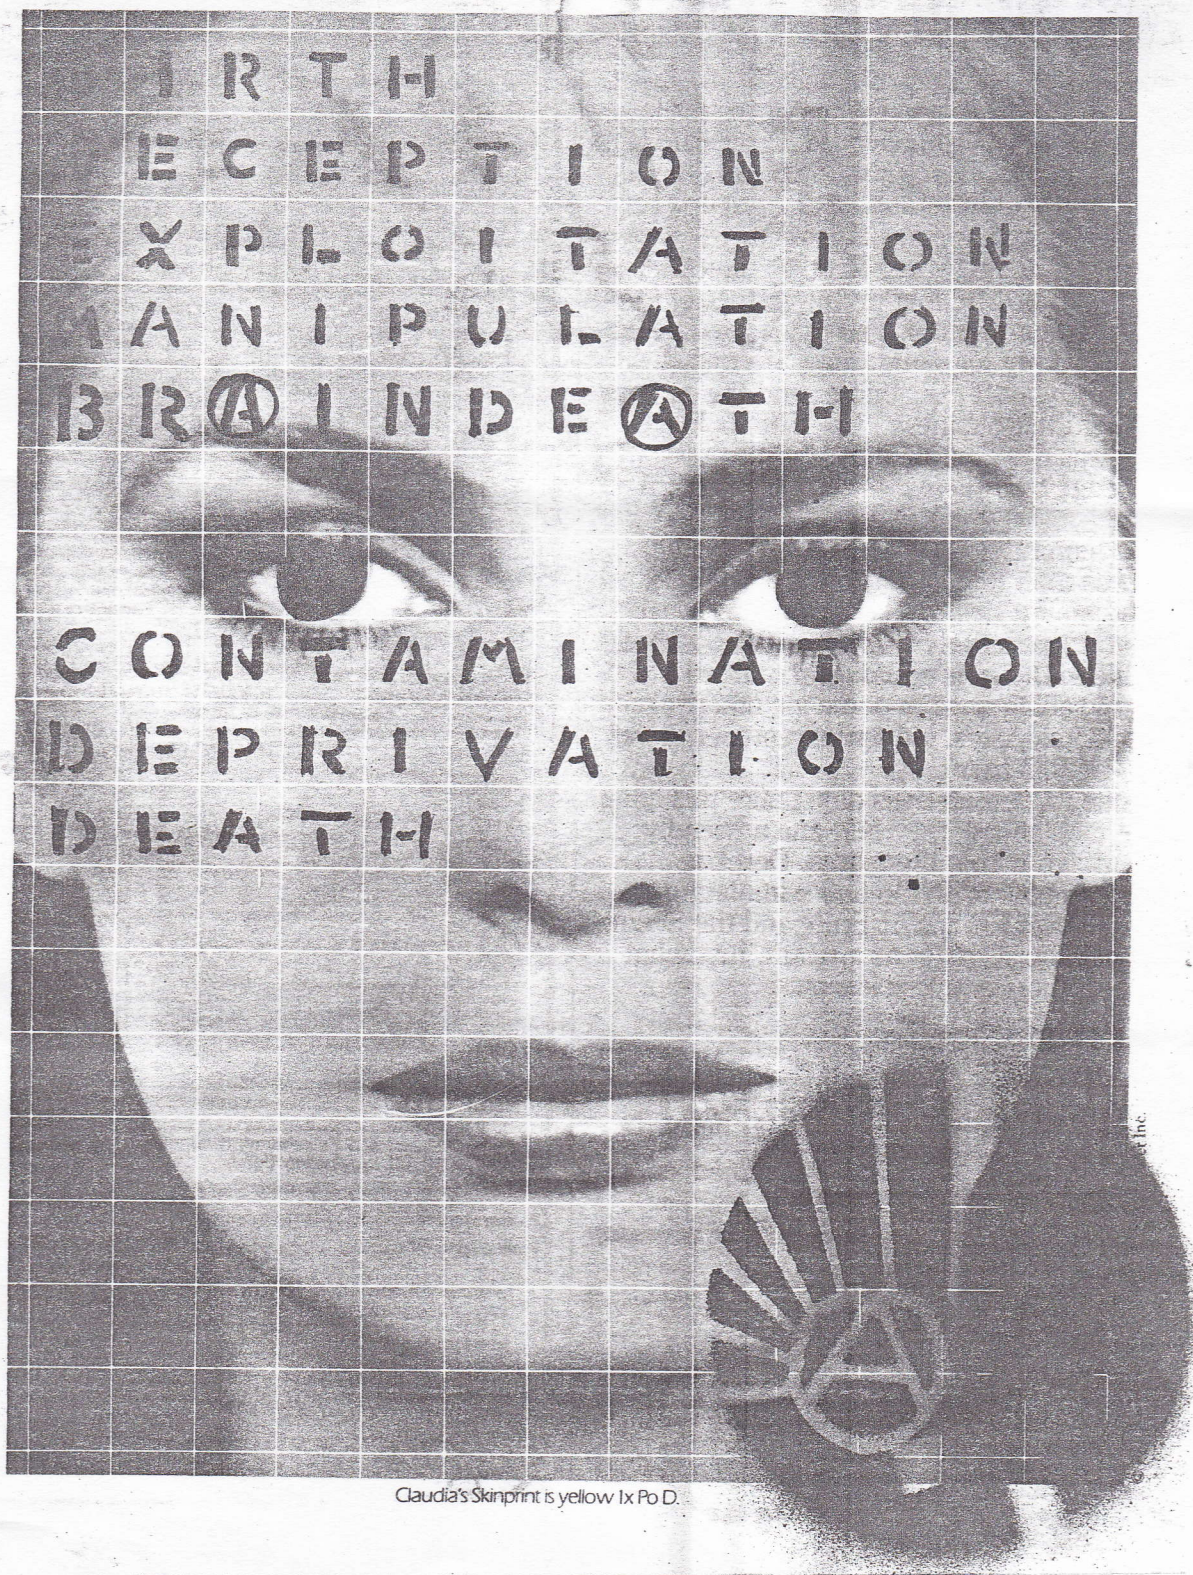

IF YOU'RE NOT LOOKING FOR THE ANSWER YOU'RE PART OF THE PROBLEM

Marxism, Maoism, Fascism, this ism and that ism can only give you books and words and words and books and books and words and books.

ANARCHY GIVES YOU YOURSELF. ANARCHY IS YOU.....GET ON WITH IT.

BEFORE and AFTER the Bomb

Planning for survival

Stay at Home

Your own local authority will best be able to help you in war. If you move away – unless you have a place of your own to go to or intend to live with relatives – the authority in your new area will not help you with accommodation or food or other essentials. If you leave, your local authority may need to take your empty house for others to use. So stay at home.

What this means is that if you are in your home you won't be in the way of the police and army who will be happily shooting looters and dissenters. In other words shut up, go away and die in your own home.

Challenge to survival

This makes it sound like we are about to be faced by some kind of natural disaster like an earthquake or a flood or a boy scout initiative test, when actually it's the culmination of man's hate and greed.

Everything within a certain distance of a nuclear explosion will be totally destroyed. Even people living outside this area will be in danger from –

This small sentence tells us that most people in every large city in Britain

could be slaughtered if a nuclear weapon hit that city. This then means that because they are dead, the rest of the book is useless and the rest of the book is concerned only with protection from fallout.

Flats

If you live in a block of flats there are other factors to consider.

Like the whole block might have just been blown away while you were having your dinner. If this doesn't happen you've got no garden or cellar to dig or hide in, nowhere to go.

Bungalows

Bungalows and similar single-storey homes will not give much protection. Arrange to shelter with someone close by if you can do so.

Do you live in a bungalow? If you do who will you stay with, after all the whole of the estate could be made up of bungalows. Imagine 300 bungalow owners all in a state of panic, with nowhere to hide.

Caravans

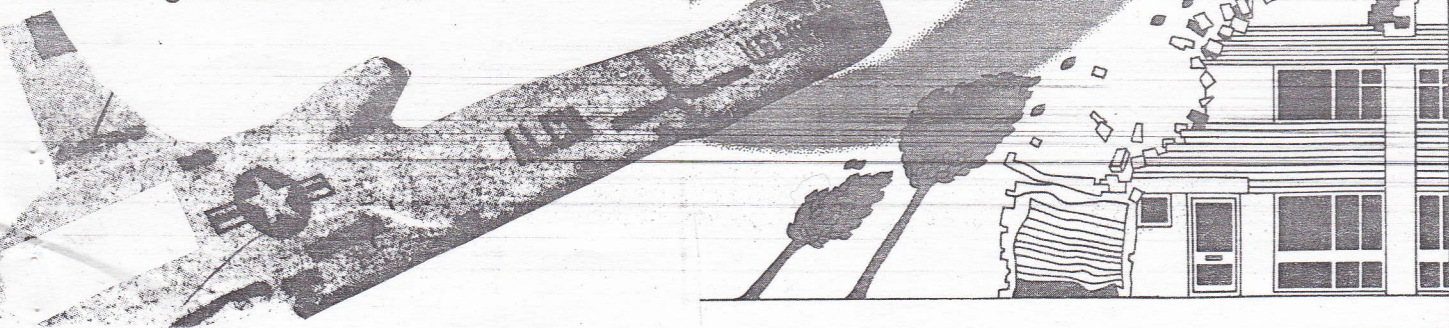

If you live in a caravan or other similar accommodation which provides very little protection against fall-out your local authority will be able to advise you on what to do.

The local authorities haven't got a bloody clue what to do with caravan owners. All they can suggest is that you build a simple shelter in the ground. Could you live in a hole for 48 days?

Heat and Blast

The heat and blast are so severe that they can kill, and destroy buildings, for up to five miles from the explosion. Beyond that, there can be severe damage.

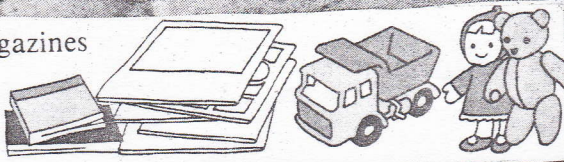

Well so far we've got a possible list of casualties which includes everybody within seven miles of a major city, everybody in flats bungalows and caravans. What about just out walking or in the town or in a car or plane or train... the list goes on and on.

First - Know the Warning Sounds:

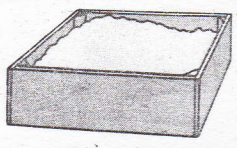

O.K,se who knows what an attack warning sounds like, or a fallout warning for that matter.Recently an attack warning was sounded by accident,but did anybody do anything?no,of course not,they didnt know what it was!

16. Toys and magazines

Toys and magazines.Lorry for the boys and dolls for the girls and porno mags for daddy,of course even in nuclear war,mummy is kept busy doing the cleaning and cooking.

13. Box of dry sand, cloths or tissues for wiping plates and utensils

REMEMBER:

To listen to your radio.

Top of the pops,mike reed on the breakfast show?????

Well it looks pretty bad either youre blown to bits or hideously irradiated,trying to shit in front of your family in the hole in the back garden(remember,48 days to go)or youre crouching in the shelter that 'Protect and Survive' told you to build,eating the remains of your pet dog.
However,in nuclear war everybody will lose(see ever page)

What you have read so far tells you how to prepare to face a nuclear explosion.

So we reach the end of the book and suddenly that nasty word DEATH appears for the first time,how upsetting, there we were thinking we'd be safe and now they tell us that we might actually die in a nuclear war!

It has been suggested that you put bodies outside your door to be collected, just think you can put dad and your brother out to be collected like empty milk bottles.

If a death occurs while you are confined to the fall-out room place the body in another room and cover it as securely as possible. Attach an identification.

You should receive radio instructions on what to do next. If no instructions have been given within five days, you should temporarily bury the body as soon as it is safe to go out, and mark the spot.

OK SO YOUVE HEARD IT ALL BEFORE, "BAN THE BOMB" CND ETC ETC BUT WHAT HAVE YOU DONE ABOUT IT, DO YOU THINK THAT ITS JUST NOT IMPORTANT, OR FAR TOO 'SERIOUS' FOR YOUR SUPERFICIAL LIFE. I DONT THINK THAT ANYTHING MATTERS MORE TO THE HUMAN RACE, AT THE MOMENT, THAN THE TERRORS OF AN ARMS RACE AND ITS POSSIBLE CONSEQUENCES. THIS DOESNT MEAN THAT YOU SHOULD DEVOTE YOURSELF 'MONK LIKE' TO THE CAUSE OF DISARMAMENT REGARDLESS OF ANYTHING ELSE, BUT THE HORRORS OF WARFARE, PARTICULARLY NUCLEAR WARFARE SHOULD NOT BE PUSHED TO THE BACK OF THE MIND. IF YOU SWEEP THE DUST UNDER THE CARPET IT WONT GO AWAY, IF YOU BLIND YOURSELF TO THE REALITIES OF WAR THEY WONT GO AWAY EITHER.

NUCLEAR WEAPONS ARE TARGETED ON FOREIGN COUNTRIES TO PROTECT YOUR INTERESTS AND PROPERTY, BUT DO YOU THINK ABOUT IT, DO YOU REALLY WANT TO THREATEN THE SO CALLED 'ENEMY' WITH DEATH, DONT YOU REALISE THAT ALL COUNTRIES MUST HAVE AN ENEMY TO SHOW A BAD ALTERNATIVE TO THEIR GOOD VALUES AND STANDARDS, TO JUSTIFY THEIR CRIMES AND TO SHOW HOW BAD OTHER COUNTRIES CAN BE. OF COURSE THINGS ARE BAD IN RUSSIA BUT THIS COUNTRY IS FAR FROM PERFECT. IT SHOULD BE REALISED THAT WARS ARE FOUGHT BETWEEN THE IDEAS OF THE LEADERS OF EACH COUNTRY WITHIN THAT WAR AND IT HAS NOTHING TO DO WITH THE ORDINARY PEOPLE, THEY ARE JUST THE 'PAWNS' WHO HAVE TO DIE SO THAT ONE OF THE GROUPS OF LEADERS CAN SAY THAT THEY HAVE 'WON'. EVERYBODY SHOULD REFUSE TO FIGHT, WE ARE ALL FLESH AND BLOOD, DONT LET PEOPLE TELL YOU WHO YOUR ENEMIES ARE, THERE ARE NO IDEAS WORTH KILLING OR DYING FOR. I'D RATHER BE ANYTHING THAN DEAD! SO IF I THINK WARFARE, ESPECIALLY NUCLEAR WARFARE, ISNT WORTH THINKING ABOUT YOU BETTER SAY GOODBYE TO YOUR FRIENDS AS WELL AS YOUR 'ENEMIES'.

"The potential victims of a nuclear war have not yet been brought into the debate."

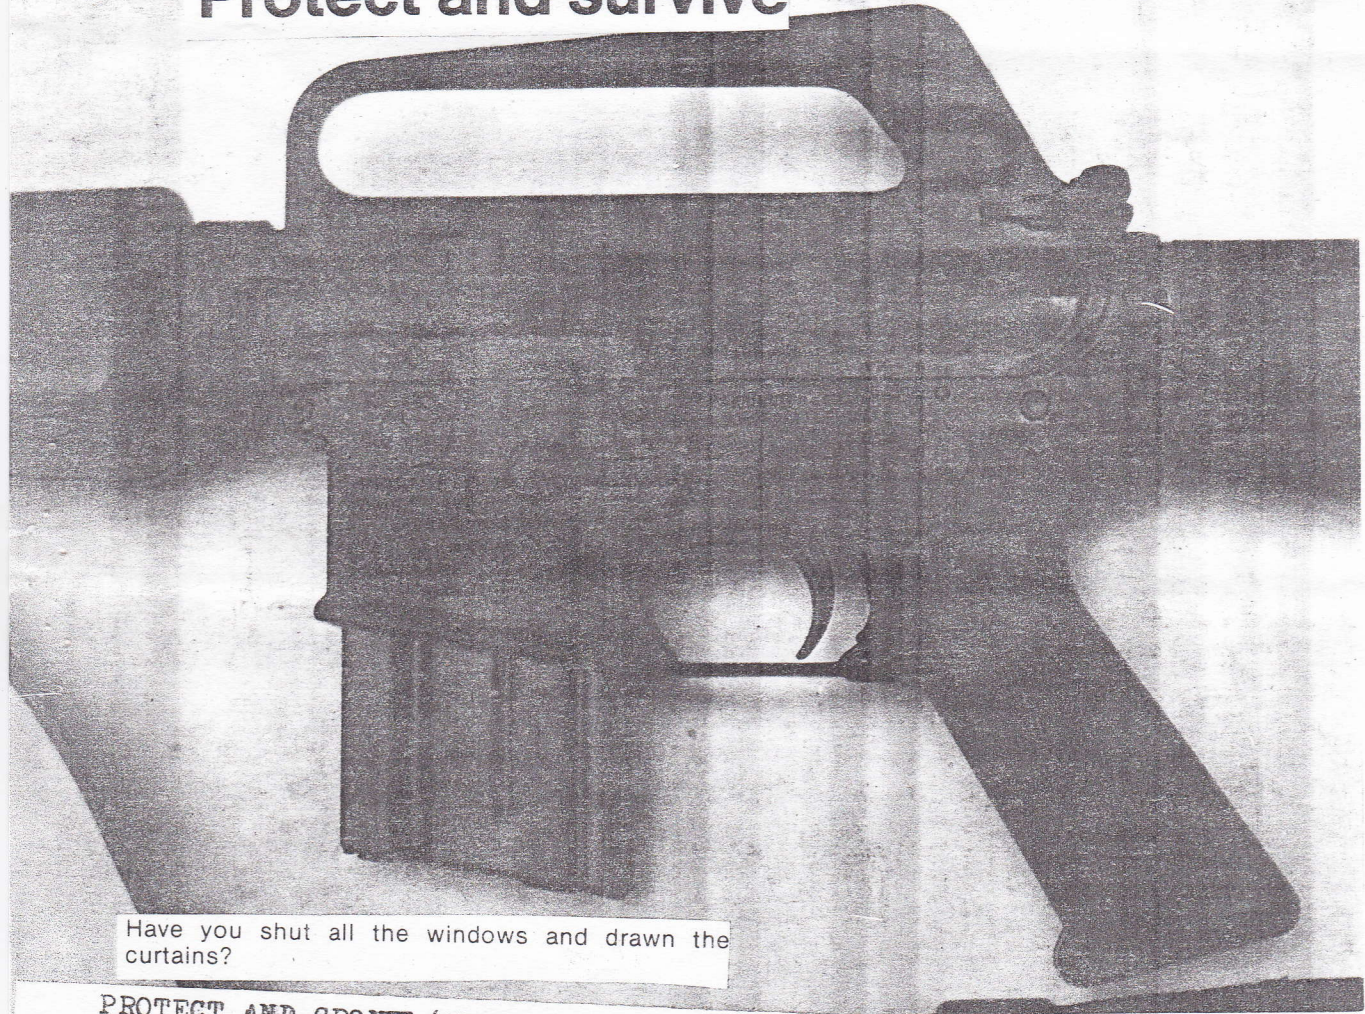

"and it's about time we brought them in. I mean the average person."
