LETTERS

Dear Sir,

I must protest about your disgustingly flippant rag - I can hardly dignify it with the name 'newspaper' - South London Stress. You're nothing but a bunch of commie rat anarcho extremists trying to stir up trouble and discontent in the unions and incite our members to riot just when our boys out there in the Falklands need them most. I've got a good mind to report you to the Director of Public Prosecutions. I know all about you and your goings on. There should be laws against your kind you paedophiles, you self abusers you participators in orgys you. I'm going to do something about you, I'll put a stop to your putrid activities, you rancid pustules on a stray dog's genital area. You'll be sorry that you ever learned to write let alone press a few knobs on a printing press - non unionised I should think - when I've dragged you through every Court and Legal process in the country. This is a serious letter. Be warned.

Frank Chappal E.E.P.
E.E.P.T.U. Leader

Dear Aunt Annie,

I really liked your practical suggestions to overcome some survival problems. But what about the emotional traumas which plague some of us...I am in a group of serious young @s but have been expelled at the moment for failing to take them seriously I got sick of the pub and music scene and yearn for some more interesting action that does not revolve around meetings. Perhaps it is my celibacy and when I have some real sexual and sensual and depraved times the rigid tension will begin to dissolve?

Northern @

Dear lonely,

yes its a danger to divide the personal and political When you wank don't fell guilty about your friends, if they won't fuck you then fuck hedgehogs instead.

Dear S.L.S.,

I enclose to you £100 for a subscription for life to South London Stress. SLS is very good and educational to boot. Even better than the Financial Times.

A. Stockbroker.

Dear Editors,

Enough is enough! Our parents warned us about people like you. Its never too late to leave bad company and learn a better way. We just had to get out of that place. Too many glue-sniffing wankers.

Good-bye!

K & P

Editors note: These two undesirables had to be thrown out of our serious group because they were the only two not secret police provocateurs.

Other editor's note: all joking aside, seriously now folks thanks a lot for all your creative efforts.

My Dear Aunt Annie,

When I was 16 I used to go to Discoes. This got to be boring. So I became a punk to reject the system. Now I am not anymore in the punk scene because I find more interesting things to do. Some of my friends from the scene don't like this they just want to consume and be seen to be a star on the scene. I got fed up with hanging around talking about drugs, new albums and parties or pretending to be stoned. Now I find out its not how long or short or what colour you hair but what you do to resist, everyday

repression. We are all minorities, lets gang up and fight back!

Aunt Annie: How long did you put up with this my sleeping beauty? Its never too late to hate the State!

Roller-skate gangs in blitz on stores

By JOHN KAYPER

TEENAGERS are skating away with a fortune in a steals-on-wheels blitz on Britain's shops.

Gangs of kids on roller skates whizz into stores knocking shoppers and security staff to the ground.

Then they grab goods from shelves and counters on their high-speed way out.

Mr Norman Reed, security chief of the giant Woolworth chain, said

yesterday: "They are in and out of the store in less than a minute.

"They cause absolute havoc, are extremely agile — and know exactly what they want."

Woolworth's stores in Liverpool and Brixton, London, have been the chief target of the roller-skate shoplifters.

But Mr Reed added: "It is happening all over the country." Stores are so worried by the rise in all forms of shoplifting by youngsters that they have formed the Association for the Prevention of Theft in Shops.

Association director Baroness Phillips told the House of Lords in a law and order debate yesterday that teenage shoplifting gangs use "downright intimidation."

Violence

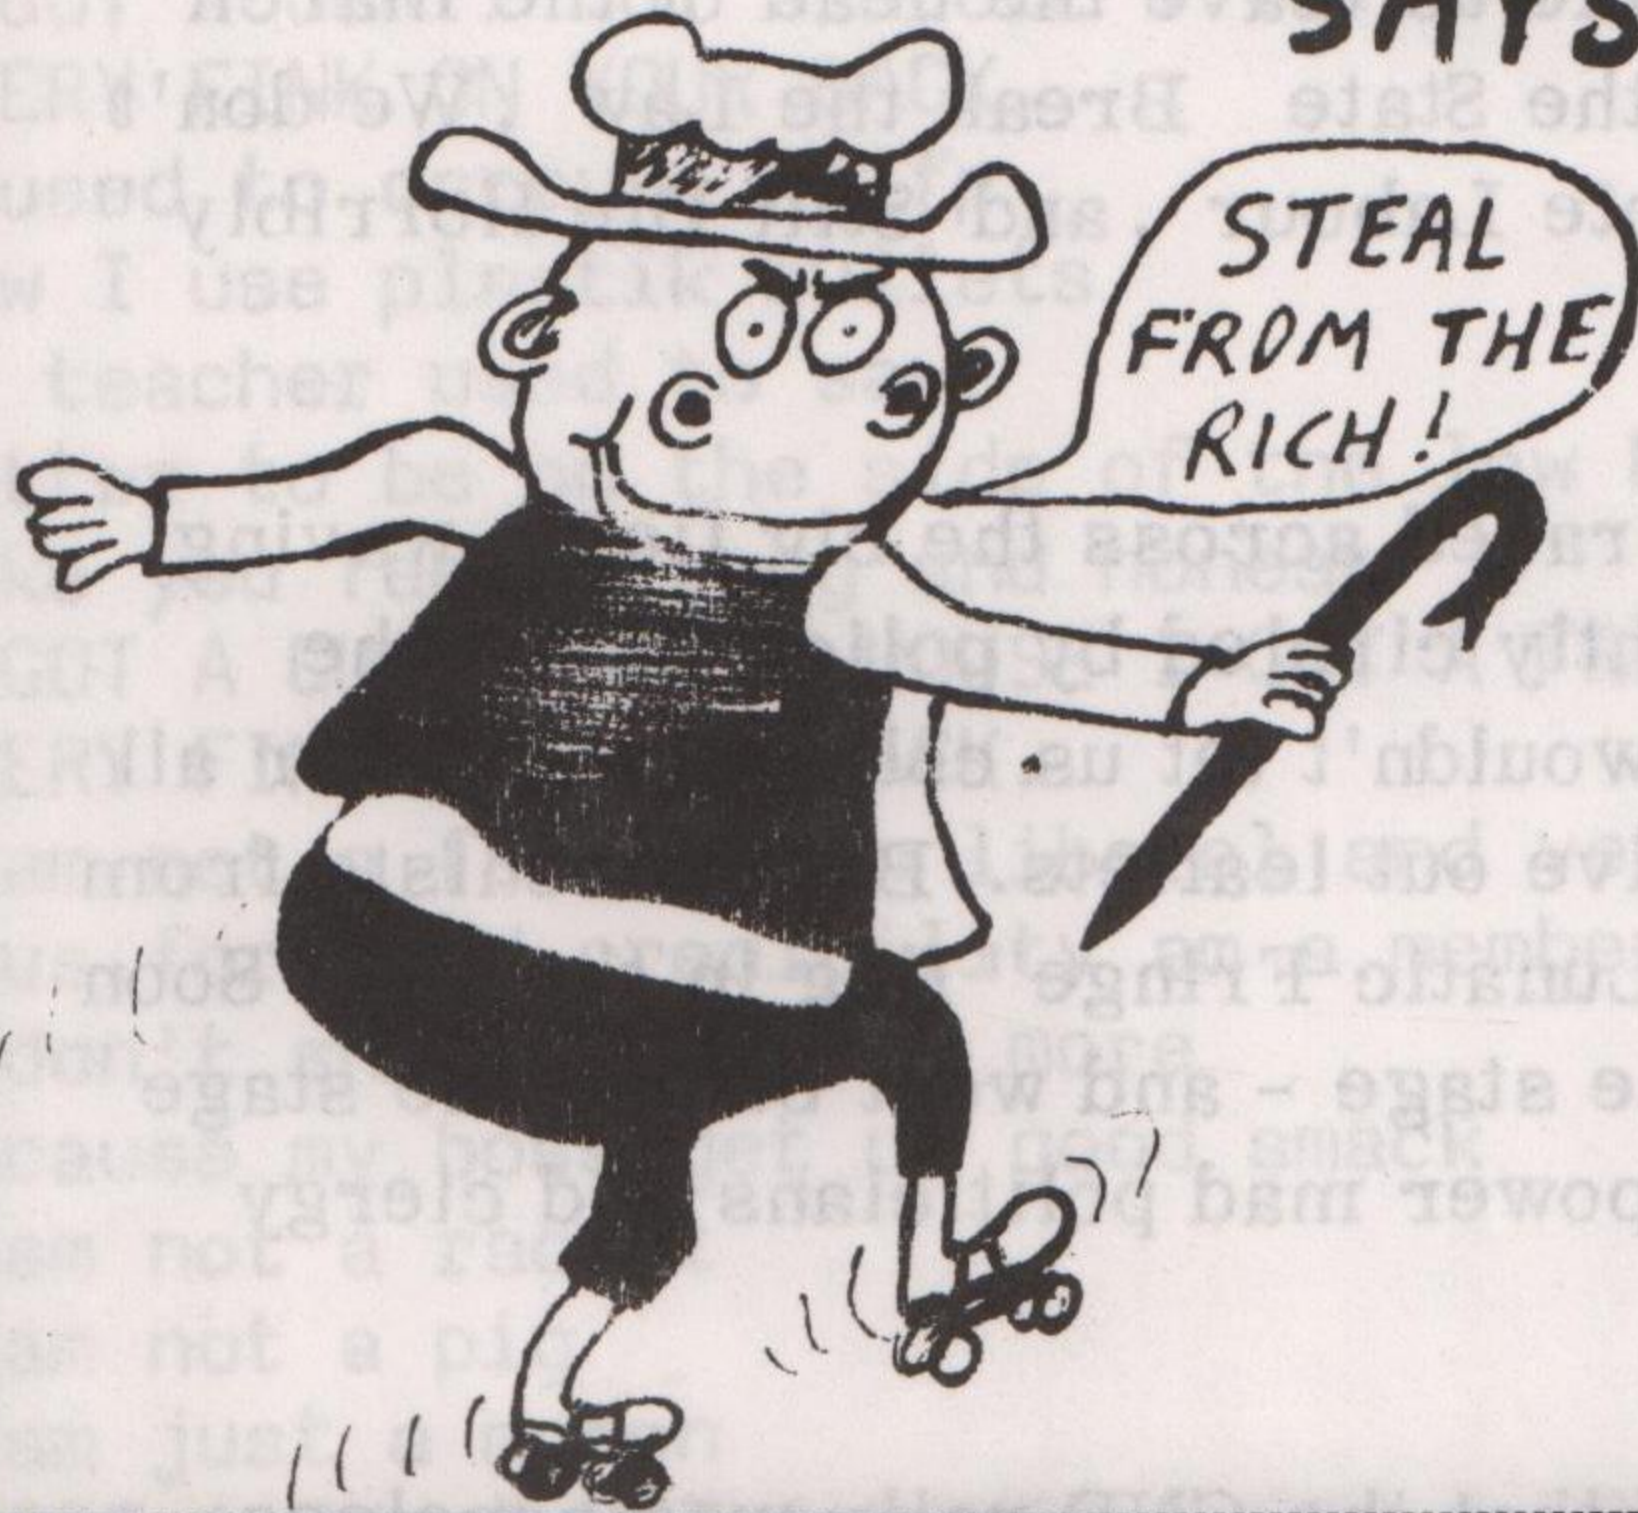

Shop assistants are sometimes threatened with violence if they try to stop open stealing.

Other teeny-terrors start fights to cause a diversion while their pals fill dustbin liners with blatant thefts.

Mr Harry Shepherd, director of London's Oxford Street Association, said: "The biggest growth in shoplifting is in the under-17 age group."

He claimed courts were too lenient with offenders.

"BABYFACE" FINLAYSON SAYS:

Experts study riot pamphlet

by John Stevens

A PAMPHLET giving advice on how to riot has come into the possession of Scotland Yard.

The pamphlet, hand-written and headed Riot Advice, was found in Southwark. Copies have been sent to district commanders throughout the Metropolitan Police area and detectives are trying to discover who produced it.

It gives advice on:
How to make petrol bombs — "only to be used against the police";

How to make it difficult for policemen to see through their riot shields or helmet visors;

How to cut power cables leading to "establishment buildings";

How to break Government telephone lines and make them difficult to repair.

How to wear your hair if it is long to "prevent the police from pulling you by it in attempted arrest."

And it contains five "handy hints" for immobilising and causing serious damage to police vehicles.

The anonymous author signs off: "Good luck!"

The pamphlet, written in block capitals, has been examined by Scotland Yard fingerprint experts and forensic scientists.

THE LUNATIC FRINGE - ALL THE NEWS NOT FIT TO PRINT

Sunday 6th June

-500 Anarchists march down Oxford Street SPG attack

-48 arrests fights injuries snatch squads

- In all the media not one word Anarchists arrested and beaten up by police thugs is not news Repeat NOT NEWS

The first Court Case of those arrested is on the 23rd June. 10 am at Marylebone Court, Marylebone Rd. Tube: Baker Street.

Waterloo March

The day began at Waterloo for our group of about 50 Threading our way through the lefty paper sellers and middle class liberals to the front of the CND march Waving our red and black flags and beating our drums. The march proceeded orderly between police lines as we were jostled by CND stewards and police trying to make us leave the head of the march We roared our slogans above the pacifist songs "Smash the State Break the Law . We don't want your fucking WAR " and raised our placards "Vote Labour . and Still Die Horribly "

Anarchists surrounded

When we reached Hyde Park we broke from the demo and raced across the big field waving our flags and banners Then standing under the stage tightly circled by police lines the lefties and pacifists basking in the sun outside The cops wouldn't let us collect money for all those charged in Anti-War actions wouldn't even let us give out leaflets. But anarchists from all over could see our flags waving especially the huge "Lunatic Fringe" flag in the sun Soon we left the police with their cameras - filming us from the stage - and went behind the stage where we had our own meeting away from the ranting of power mad politicians and clergy

Our Meeting

Various people spoke over the megaphone and all agreed that the CND rally was hopeless pointless useless So we should break out Do something else So we did Our flags travelled in a long line making a circle through the crowds gathering smaller groups of anarchists When we reached Hyde Park Corner we were 500 strong A brief pause and we took to the streets while the cops urgently radioed for reinforcements Shouting yelling singing chanting we could hardly believe it . The mood was joyful release this was the biggest anarchist demonstration in this town for 10 years Amass of people - momentarily free - multi-coloured punks and Anarch-Syndicalist banners Oxford STREET was ours !!!

Brutal Police Attacks

At the front people were consulting urgently we decided to turn off at the next small street It was almost too late as police and SPG vans were closing in around us Just as the front of the march began veering across the street 3 vans of police pulled across us and the pigs were jumping out batons drawn Only the first 20 people or so made it into the side street the rest were all cut off and driven back scattering as more police vans unloaded In the side street those grabbed by police were quickly released by friends as most cops were attacking the mass of anarchists in Oxford St Our demo was over the punks fought back briefly then it was more arrests snatch squads covering the Tubes grabbing people and dragging them away as the anarchists (mainly punks) tried to blend into the moronic CND'ers

Mindless Media

As for the Media they knew all about it but didn't report it As they don't report 'street disturbances' (Riots) as they don't report Northern Ireland as they don't report the mass killings of Argentine conscripts . as they slavishly obey their commercial political and military bosses.

- RACE & DIET -

By the author of Der Furer Vas Und Goot Guy (a work which set out to prove that not only was Adolf Hitler unaware that the concentration camps existed but that Herr Hitler was also unaware that he was the Fuhrer of the Third Reich).

Fellow Nazionalists if the NordicAryan WhiteBlondEuropean race is to flourish it must first sort out certain tactical und organisational problems. The first problem is diet, yes diet. For example our Stormtroopers can't march into power if they have a bad attack of the shitz (in that case they would be Stormpooopers-- joke... sorry), did the SS suffer from the shitz? Of course not, they had diet all figured out. Did Herr Hitler get the fartz at hiz Nurembourg Ralliez? Of course not. But the French were a pushover because of the food they eat. How could they ztand up to the power of the 3rd Reich after eating frogz legz, that ztinking cheeze, ridiculouz long bread and that awful cheap plonk? They fell. Below I zet out a typical diet for all good Naziz to follow. When we march through Europe we will not tolerate diarrhea or conztipation. The crap muzt be of the correct zize and conziztency. Breakfast: good old Nordic Branflakes. Lunch: raw staek dripping with blood yo to make us ztrong, greenz to make us

shit and carrodz to make uz zee in the dark. You will notice that we are not panzy vegetarians (panzys no panzers yes--joke sorry last one) real men must eat real food.

Dinner: more of the zame. Alzo we cannot eat curry, thiz culinary crime is a weapon of the JudaicAsianMarxist hordes to corrupt our purity of race. It also givez you the shitz.

Some more guidlines: we will not tolerate brown bread. brown sugar or brown rice. We will only eat pure white bread, white sugar and white rice, we know where we stand.

Gutten Tag und zee you at zee next BM/NF rally und mind your shitz.

FLASH FROM THE PAST
21st September 1980

Dear Mr Freeman,

Thank you for your recent letter which I was very pleased to receive. You are quite right when you speak of anarchy as being dangerous. However, anarchists will always be with us and I would not wish to see them driven underground

driven under-cover; far better that they surface and may not only be identified, but also be counted!.....

Yours sincerely,

TO ALL LAMBETH SQUATTERS... JUNE '82

Following the changes in Lambeth Council we expect more evictions and harrassment of squatters.

SUPPORT NETWORK

Our group of Brixton squatters has organised a support network to contact each other and resist evictions or any other attack.

The idea is that any resistance to evictions (even standing in front of the door, or barricading, or whatever) will make them more difficult, troublesome and more expensive -- AND THEREFORE LESS COMMON --.

By organising ourselves a little we could all increase our security, and make our houses (or flats) last longer.

ALARM LIST

What we are making is an alarm list, which is simply a telephone (and address) tree. So when something happens you ring, or run to a neighbour, the alarm goes out from there, and all the neighbouring squatters come quickly to your door.

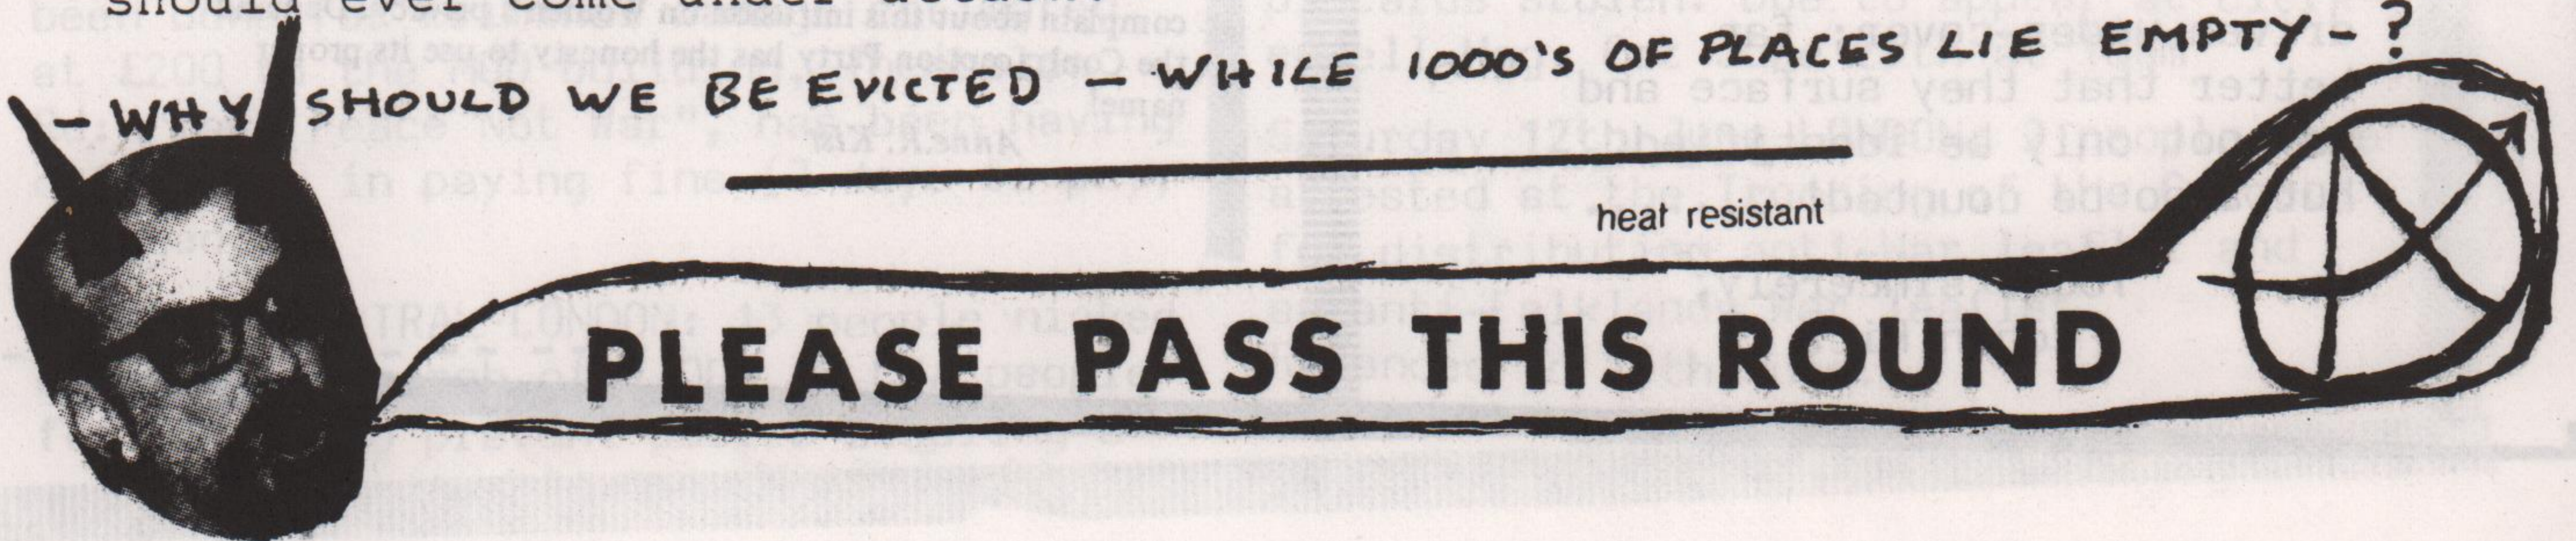

Even the existence of the Alarm List will make them think twice.

MUTUAL AID

If you, or your house, wants to be in our Support Network- Contact us (above address) soon to get on the first list. We are going round door to door but we may miss you. We specially need people with phones. On the list we will use first names only. We also welcome any help, advice, lists of empty property, etc. To us this is just Mutual Aid ...it works both ways!

If you want to be in it, we'll bring round a copy of the Alarm List, which will have the nearest address or best phone no. to ring, if you should ever come under attack.

Frustration . . . Foul air . . . Endless queues . . . Fury!
It was just after 2.00 pm when one more man walked into Brixton Unemployed Benefit Office and joined the queue .

When he was finally refused payment he ran out through the crowd, found a container, stole petrol from Heron's filling station, and ran back in again.

He proceeded to pour petrol over the files and then over the parquet floor. The crowd just watched, no one did anything

Then the man struck a match!

Everyone ran out the door and stood across the street while 3 SPG vanloads, 6 fire engines, ambulances and a helicopter dealt with the situation.

Everyone began drinking beer and milling about. One Dole Clerk was heard to say, "We have been waiting for this for years. . . Pity the poor fucker botched the job."

Indeed the Office was not totally destroyed but damage was severe and people didn't have to sign on for two weeks .

The story was sent around all the press but not even Shitty Limits would touch it, only Sth London Press gave it a few lines .

We don't even know who the man was. . . But we reckon he deserves a medal, not long prison, for his brave act.

As i type this the news peak talks of peace, 250 Brit dead and 700 plus Argentinians. The Port Stanley population lost at least 2 during a Brit bombing - casualties on all sides mounting soon will surpass the original population of 1800 people on the Falklands? A grim scene of body 'bags' in a grave with forlorn troops encircling. . . . meanwhile the Israeli's surround Beirut and the Palestinians ghetto begins to look like the Warsaw ghetto of the second world war. The ghastly irony of the Jews participating in a pogrom cannot escape me. . . . AAAAEEEEGGGGHHHHHH!!!!

NF ATTACKS AGAIN

"See Red", a collective of women coonected with "Women in Print", who produce feminist posters, have had their workshop damaged by NF thugs.

Their premises near Elephant & Castle was first attacked 6 weeks ago. The cretins broke in, spread paint everywhere, damaging machines and took keys to other premises with them.

Since then, there have been windows smashed, sometimes every weekend, and the specially reinforced glass which was installed has been smashed with a hammer and chisel.

The cops suggest it could be a "disgruntled ex-employee" (ha ha) but the NF graffiti disproves their theory.

Everyone knows that Elephant & Castle is a bad area ofr NF attacks but does that mean people will be forced to move out of the area, as the "See Red" women are considering?

Union Place, Race Today, Villa Road and other places in South London have also been attacked. The New Cross Fire is still "unexplained". Worse still is Thornton Heath, where the NF headquarters was relocated and many racist attacks have begun. The death of Terry May came out of a situation where local black youth staged a reprisal attack on a pub where local NF drink. Similar groups of locals have no doubt formed to fight back in other areas. A defence network linking troubled areas is very necessary but the problem of manipulation by politicians will also have to be overcome.

Back in Brit land the same Arms manufacturers and dealers who sold their 'goods' to the Argentinian State will be having an Arms Bazaar in Aldershot where the families of those Brits who died and have arrived back are burying their dead. Some protests are planned to greet these Merchants of Death, maybe some of the friends and families of those now gone will join in. The casualties should be among Generals, politicians, Newspaper editors, Religius Leaders and these bloody businessmen!

MUGGINGS . . PRISONS . . MURDER

Recently n London Weekend Television the series SKIN looked at the situation of young offenders in Borstals . They predict that in ten years , if present trends continue , over 50% of young blacks in Sth London will have been in prison . The reasons were given as homelessness , unemployment , and lack of alternatives to imprisonment .

It was also pointed out that most ex prisoners go back to prison again . Inside the first offender becomes part of the crim world , learns their techniques etc., and once out meets up with those who want to do a "job" , and if caught is back inside again .

The young unemployed soon follows the image of the successful crim , with good clothes and a flash car . We are forced into crime , even to survive . But the biggest crime of all is that of excessive private wealth , held by the rich and powerful , who have the Law the State and the police to protect their privilege .

Inside prison the oppressive System is mirrored and encouraged by the Screws . Prisoners are actually taxed by the most ruthless gang... divide and rule by the most vicious and nasty . The State would like even more imprisonment though prison only encourages crime (specially violent crime like muggings of women and gays) . The Courts , Police , Prisons etc . are now one of our biggest industries , brutalising and destroying the people , especially working class youth . The Alternatives of Community Sentencing etc are just a way of extending the tentacles of prison out into the society .

Prison creates prisoners , just asschool creates failures and the army creates killers

Prisons are universities of Crime . The State makes divisions to rule its wage slaves . Most crimes , certainly those against Property , are in fact political . The mistake of most Crims is that they merely reproduce the same system . Little gangs mirroring the ruling class , their thuggery is not unlike police brutality . The most deviant rob banks (for who is the greater criminal the robber or the founder of a bank ?) or go after the rich... break into their houses and vaults , steal their cars , use counterfeit or defraud Social Security . The most disgusting are those illegal busin essmen , the pimps who sell women or men or lethal addictive drugs or goods robbed from the houses of other workers or unemployed . the Grassers and their Lawyers and the corrupt parasitic scum - Police Magistrates and Judges . The politics of these petty capitalists is almost always misogynist(anti-women) , racist and reactionary .

As Anarchists we see the best Crime to be that of stealing back your life from the State . . We are trying out co-operative solutions which avoid the excesses of powerlessness and poverty . To live we need to create a new world , first in our hearts and brains , then in the streets . New worlds do not need old diseases . racism sexism gangsters etc The anarchist vehicle for prison reform is a bulldozer ; not more State worship .

PRACTICAL NOTES ON SOCIAL WORK

The next sub-group of poor unfortunate confused young working class people that all concerned Social Workers will come across is the skinhead . For those of you unfamiliar with these poor youngsters here is a picture of a skinhead:

Horrible isn't it? But as dedicated Social Workers we must steel ourselves against the horrors of everyday life which we've heard about or read of.

Many young skin'eads (remember to drop the h) are very violent and destructive . But with lots of help from us , lots of love and care , these young psychopaths will soon become responsible members of society and subscribe to City Limits .

The word ANARCHY does not mean chaos, it means without ruler . ANARCHISM then, is a social revolution where the workers take control of their own lives in a free society based on mutual aid and voluntary organisation . Without compulsion and brainwashing . Without police , jails , bureaucracy and injustice . A federation of local communities holding their property in common . In an ANARCHIST SOCIETY all work would be shared production and all goods would be distributed according to need . No one is good enough to be someone else's master .

ANOTHER CARING - SHARING FOOD CO-OPERATIVE

A food co-op has been opened in the 121 Centre Railton Road. With a small amount of money some wholefoods have been bought in bulk (no mars bars or plastic pot noodles).

Apart from the peanut butter none of the foods have been processed or preservatives. A 17% mark up has been added to compensate for losses through spillage and theft and also to allow for buying more goods in the next order, adding some new items (at present 8).

The co-op is trying to service our community by providing cheaper food, not to make money.

It is run by a fluctuating group of individuals, who are attempting at a practical protest/comment about the way health (wealth) food shops ridiculously over price their goods in the Brixton area.

Spanish Anarchists face 288 years

In Spain 17 Anarcho-Syndicalists will shortly hear the judge's verdict against them. They are being tried under the new Anti-Terrorist Law for allegedly robbing 17 banks in four months. The prosecution is demanding a total of 288 years!

They have smuggled out a declaration saying

the ATL has been introduced "To terrorise the people themselves and prepare for a new police state."

The law has indeed been used in Spain to hold people for 10 days (several have died under interrogation) without charge or lawyer and effectively to intern

indefinitely on suspicion.

The declaration of the 17 prisoners goes on "There is developing now a solid defensive organisation in the rising social revolution. It is happening amongst us again, the Anarchist movement, in its total vision, its reasoning and its established history."

SS "STOP ILLEGAL EVICTIONS" SPG PIGS OUT!

There have already been at least three illegal evictions in Brixton since the Tories/SDP took Lambeth Council. This is their story.....

POLICE SUPPORT LANDLORD'S THUGS

The first case happened at 13 Josephine Avenue, a large private house, left empty like hundreds of others in the area. The house was taken by 8 first time squatters.

A week later, without warning, a bunch of thugs broke down the back door. Most of the squatters were still in bed when confronted with violent club wielding men, ordering them to leave.

Someone managed to call the police, who arrived in force, but illegally took the side of the thugs, searching the squatters and their rooms, throwing their belongings about etc, and giving them 24 hours to leave...OR ELSE.

The squatters did move out, and managed to find another house...but they should never have been evicted, and hopefully we will be able to resist this kind of intimidation through the 'Support Network'.

The second eviction happened when a couple were thrown out of a flat in Lambeth Walk by heavies, they had thought it was a Council flat.

The squatters are treated as criminals, but the real criminals are the big landlords and speculators who make money out of leaving perfectly good houses empty.

SPG ATTACK & EVICT COUNCIL SQUATTERS

The third illegal eviction was at 51 Arlingford Road, a leaky old boarded up Council property, without water, gas or electricity. A small homeless group took the house on Sat evening, 5th June, by prising open the plywood door. Four nails were pulled loose. There was no damage.

An hour later two vanloads of police and SPG arrived, nearly broke the door down, were let in, abused and threatened the squatters, and forced them to take off their lock and put all their luggage and furniture on the street.

Half an hour later, and friends had arrived, to help move belongings. Angry squatters and neighbours were gathering, talking in the street. 'They're doing it again' was the word, 'Smashing up people's houses'.

Then the police arrived, in vanloads,

and cleared the street. The squatters decided to take another place, an even worse place.

Later that evening some joker broke in to the newly boarded no, 51, and upstairs put in candles, curtains, and the sign.. 'Stop Illegal Evictions..SPG Pigs Out', and spread the word.

Back in the pub people thought this a great idea, and as it was closing time a crowd of squatters went up to the house, and stood in front of the door..Baiting the Piggies. Soon there were about 40 of us, supporters and onlookers, chatting in the street.

The point was not to fight the police, but to show them that the squatters have both the numbers and support to resist illegal evictions, and that a Riot Situation could easily develop, after all it was last year's Brixton Riot which sparked countrywide violence.

Sure enough the police arrived, first one vanload, then another and another and another. Police everywhere, blocking off the streets, breaking into no.51.....and finding it empty. People ran into the park or just walked away. Cops everywhere, confusion, and the neighbours and a local blues party getting angrier and angrier.

Somewhere some boss-Pig gave the order, and the SPG had to withdraw, without even beating or arresting a few people. Leaving the door of no 51 wide open, and the sign still in the window...'Stop Illegal Evictions..SPG PIGS OUT !'.

MASS EVICTIONS..MASS EVICTIONS..

At least 15 flats are at present being evicted in Deauville Mansions, off Elm Road in Clapham, and this will be followed by more evictions in Deauville Courts.

The squatters are disgusted, having put a lot of time, money and energy into making the places liveable in. They have not been offered other housing, but most are moving into other squats and, though they are organised, there has been no move yet to resist the evictions.

The Council insists on evicting squatters while leaving 1000's of flats empty, wrecked and vandalised.

LOUGHBOROUGH ESTATE.

43 Flats are due for eviction in July,

More Bread Love & Struggle

1977 in Italy was the natural 'high' of 10 years of political struggle that, only for a few days, had created a situation of guerrillas. This explosion of rage had however missed the bus to the popular insurrection. In the same year there were other ways to do political matters, the past experience based on the organised forms with fixed and hierarchical structures (for eg. Aut. Op.* & L. C.*) wasn't anymore able to face the reality: hard state repression, the cultural growth of the movement, united research about political/individual, new qualifying steps and debate with the evolving armed struggle. During the same time the anarchist movement went on to produce counterinformation, started a campaign, started a campaign of antimilitarism and against State torture. Torture today in Italy is practised by the police. The arrested, or people suspected of being members of the clandestine organisations, are beaten, burnt with cigarettes or fire, traumatised by electricity, held in no noise isolation cells with the light always switched on. Some tortured people made a public denunciation during a court case, so the mass media had to report it. An inquiry was started and a few officers were arrested and charged. Amnesty International collected a petition at the same time as a campaign about the civil rights and defence of political prisoners. More than 2,000 political people are now in prison, a lot of magazines and reviews are closed, special 'terrorist' laws have been passed in Parliament (without opposition from the Communist Party). Hundreds of hundred-year prison sentences have been given by the courts. The social control has been extended through the restructured guild of the police with the use of new specific special groups.

The last four years gave birth to another manner of political life saving the individuality inside this reality. In this way the oppositional forms are walking through new groups, meeting around music, living theatre and creative vandalism applied to real contact with daily local reality in every town. The places where there exists an exchange of information are not only national meetings or conferences, but the concerts where it's possible to find fanzines about the several local struggles now happening in Italy, records made independently, with lyrics opposing the moral imperative to "work, consume die" and for autonomy. This kind of oppositional fight is still at an embryonic level, is seeing lots of people who don't come from the traditional experiences involved in a refusal of the status quo reality. The sense of this movement is to give value to the life of every comrade; the emotions, the needs, the refusal of this reality in every aspect, to compare continuously and fight the system in every instant of our day.

THE WILL TO EXPRESS YOURSELF IS THE ROOT OF THIS NEW POLITICAL WAY. THROUGH DIRECT ACTION YOU CAN CHECK ON YOURSELF FROM THE REACTION MADE INSIDE DAILY REALITY. THIS IS BECAUSE WE WANT TO REMAIN HUMAN AND SENSITIVE, WE DON'T WANT TO BECOME "ROBOTS". WE WANT TO BUILD A WORLD FULL OF LOVE AND RESPECT.

NEWS FROM THE FRONTLINE

Easter weekend - the riots anniversary but no repeat occurrence. The cops did their best to provoke but everyone seemed to have it sussed out - get them when they least expect it on our terms in our time and when we are ready, Friday night and the rest of the weekend was quiet. Railton Road after 11pm was like a ghost town - the word had obviously gone out - don't give the pigs an excuse. The main target if there was any trouble would be the dope houses on the Frontline. The hustlers obviously had their heads screwed on and apart from a couple of look-outs holding the fort business was temporarily wound-up. Saturday night had possibilities with an anniversary bop at the Abeng Centre (just down from the cop shop) We thought something might happen - radios were tuned. But nothing. On the Monday everyone at last let their hair down - after all for some (not many) it was the last day before going back to being a wage-slave. So there was a sound system at Dexter Road in the kids playground. This bought back memories of the 'celebration' (Brixton-style) of the Royal Wedding last year - when everyone took to the streets around the Frontline - plenty of ganja and not a cop to be seen.

The weekend was not totally devoid of incident. Several raids were made. First the dope houses then a house a few yards down from the "121 Bookshop". The pigs were in control - and they knew it - but they also knew that this was because we had decided it that way. We don't play by their rules.
