Stick yer ~~class~~ up yer ass!!

GHANDI IS A WANKER.

Ghandi was just a tool for the ruling class, how many shit-filled Durexs did he ever throw at the rich scum? He was a traitor to the working class, blinding them with his ideas of puffy pacifism and therefore stopping any attempts by the working class to throw a brick at the state. Well fuck off Ghandi we don't need you, get back to Greenham where all the rest of the women are you stupid black bastard. But then we're all sexist

and racist in some way. Aren't we ???

GOD BLESS YOU THE QUEEN.

God bless you the Queen,
You are so obscene,
I'd like to kick you in the legs
So you'd have to have metal pins
Just like Barry Sheen.

God bless you, you scum,
I'd like to kick you up the bum,
To do that would be amazing,
You'd look like Larry Grayson.

God bless you ma'am,
You remind me of a squashed banana,
In fact the only thing I hate more
than you is Robert Deniro by
Bananarama. **LIVING LEGEND.**

BASH the buses

In this photo we can clearly see a copper getting on a number 97 bus. Well no longer are we at risk on the streets but now we are also to be harassed on buses. So next time you don't pay the full fare because your anarchist be carefull or the rich scum might have you behind bars.

We are the workers who made this country, all the rich scum ever did was exploit the working class. Well we are on the dole and once we've taken over our places of work and have seized all the states institutions like the post offices, telephone boxes etc and from their we'll distribute them all between the poor and we'll kill the rich bastards by hanging from their Rolls Royces and their caviar, then we'll have control, yes US the working class, yeah and you can fuck your Right to work marches trendy lefties you big middle class wankers 'coz we don't want to work. So be prepared to take over your work place tomorrow and be ready to trash any one with a T reg car 'coz their obviously wealthy. Yeah right on, bring out the black flags and class hatred and Class War papers to sell... THIS IS THE CLASS WAR!!!!

TYPICAL CLASS WAR ANARCHIST ABOUT TO HIT THE BATTLE FIELD IN THE STREETS TO FIGHT A PITCH RUNNING BATTLE WITH THE POLICE IN ORDER TO SELL HIS CLASS WAR.

Class-hatred is portrayed on the face of this prime example of the working class youth.

FUCK OFF SCABS

The rich and their servant lackeys through the TV and media try and make out the working class to be just stupid obedient servants who'll do their dirty work for them. Well the working class don't like it and our class hatred is boiling up in the grids, in the classroom and on the toilet. Out on the streets the working class will be avenged, not with a gun, but with our burning hatred let loose through our fists and with a bundle of CLASS WAR to sell in the other hand. Oh yes rich scum we'll do it

PULL DOWN THE BARRIERS.

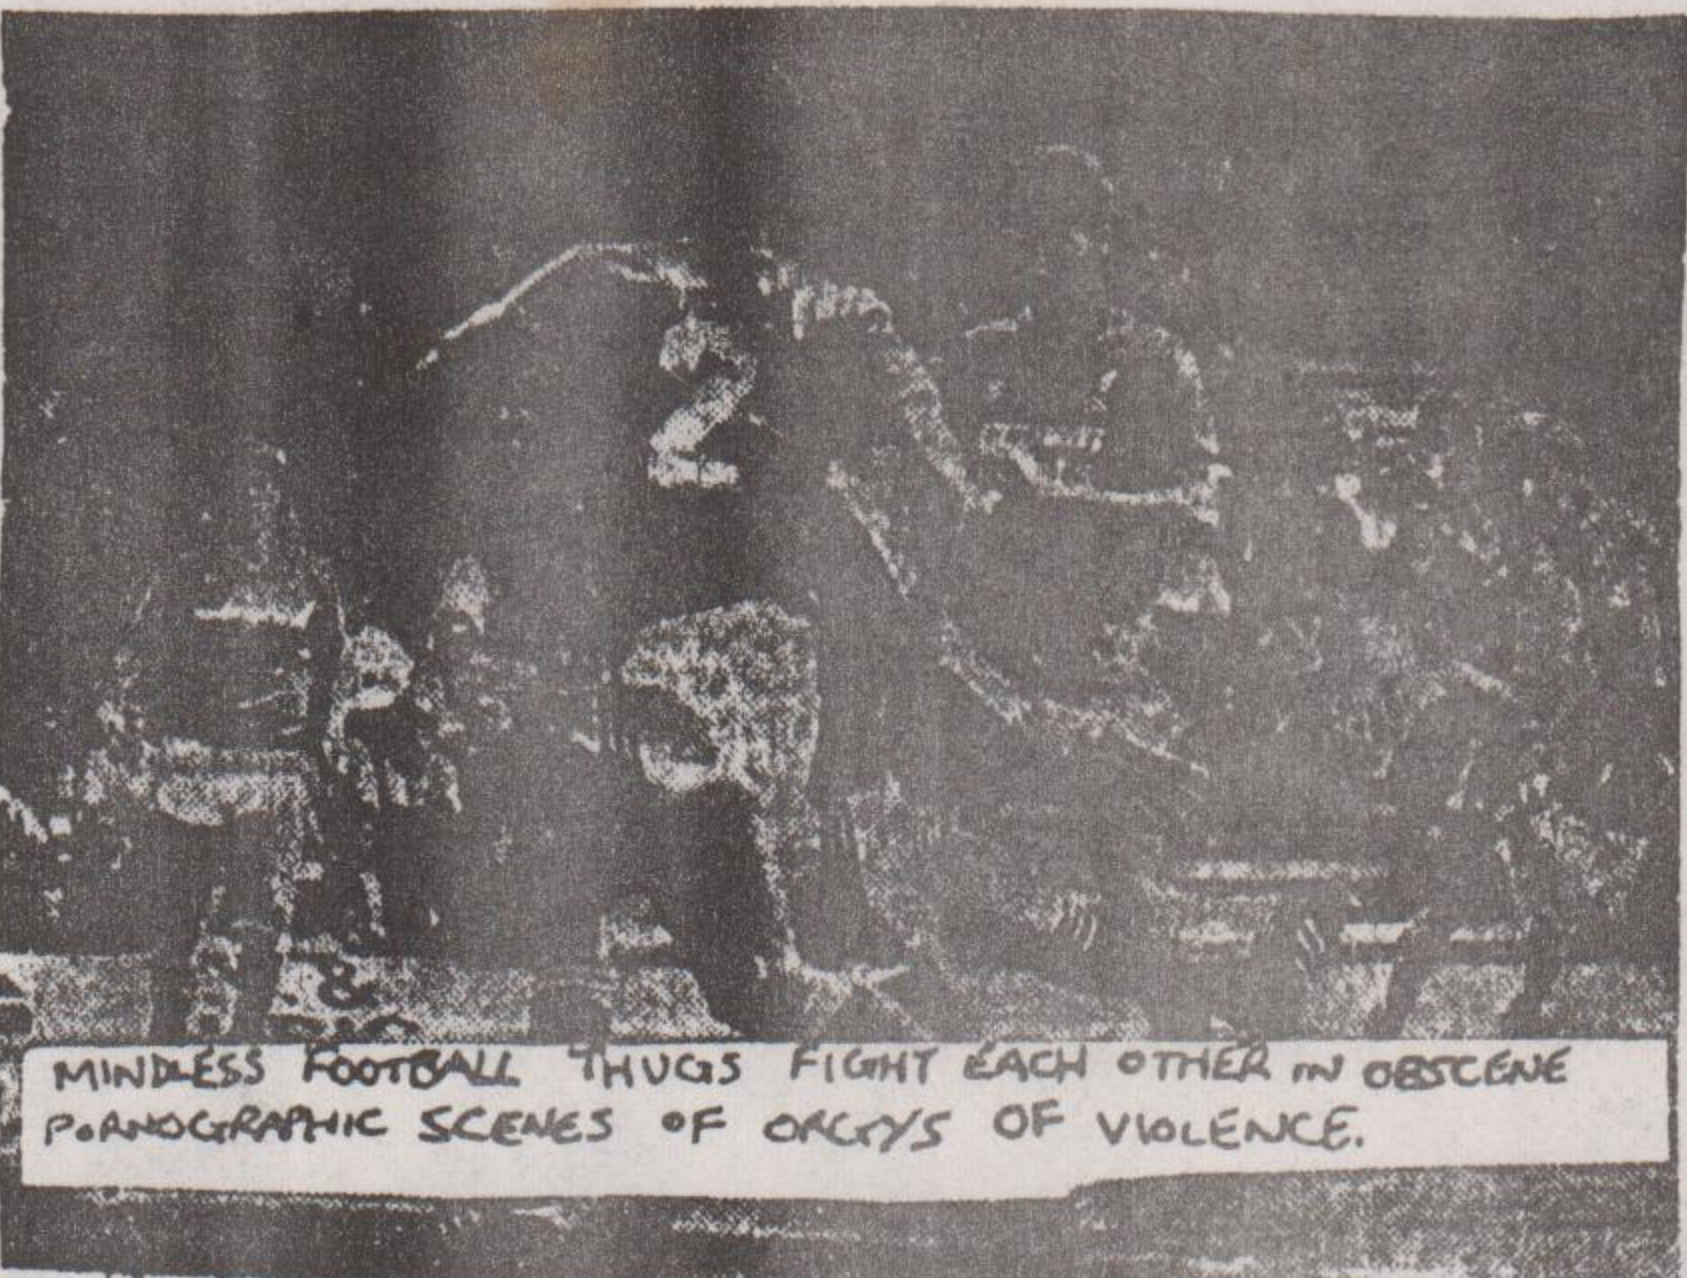

Okay. The peace camps have been around for a few years now, but with what effect? Did lying down in front of police men stop Cruise? Did chaining yourself to a police car stop the city? We must realise that the only way to bring down the barriers at Greenham and Molesworth is to erect our barriers made out of burning hatred and burning cars. The only way to peace is through war-Class War. So throw away your chains, stand up and throw a brick and sell your Class War. MAN THE BARRICADES!!!!!!!

We all know that football violence is not what the rich scum try and make it out to be. The working class are on the terraces fighting the same common enemy-the filth and the state. By discrediting the working class the rich hope to quell any attempt by them to overthrow the state. Oh yes the media would have us believe that these people are mindless thugs looking for fights with rival supporters. Just think of all that working class hatred all concentrated on the terraces-the rich know they have the whole of the working class on their hands and so try and discredit us. Well we know this and this is not going to stop us.

FOOTBALL VIOLENCE:

FAIR PLAY . . . OR FOUL?

And it's not only the working class who are using violence. Recently we've seen the use of indiscriminate violence by rich swanky footballers who are turning on the poor working family who can only afford to go to the matches once a year. These thugs are mindlessly attacking anyone even babies and the police lackeys don't even stop them. Remember Brussels? A riot caused by rampaging football players caused the death of 38 members of the working class. Remember the Bradford tragedy where 55 class war readers and members of the working class were burnt alive after a football player deliberately threw a lit cigarette onto a shack where the poor are forced to watch the football in poverty conditions. How about the Manchester aircrash. Again caused by a gang of mindless football players who threw a football into one of the engines of a working class plane. The rich fly in jumbo jets whilst the poor fly in poverty. WELL CLASS HATRED IS GATHERING ON THE FOOTBALL TERRACES AND THE RICH SCUM WILL PAY FOR THE DEATHS. PUT ON YOUR DMS-THIS IS CLASS WAR!!!!!!

MINDLESS FOOTBALL THUGS FIGHT EACH OTHER IN OBSCENE PANORAMIC SCENES OF ORGYS OF VIOLENCE.

If you've enjoyed this and you wish to find out more then you'd better go and see a doctor.

PULL DOWN THE UNDERWEAR

No longer are we going to tolerate the exploitation of women in the media. Just because we are anarchists does not mean crispy sausages are not vegan and therefore we can no longer think of porn as natural. Everywhere you look you can see a bare bosomed woman parading in her bare feet. Look at the girl on the left, this obscene picture came under the heading of "Thermal Underwear Only £3.99" can't you see the blatant exploitation? There was no need to show a woman's body, it is just the male dominated advertising after a good ogle. And as for this young girl she was merely put in the paper because she was being discussed in an article. See, any excuse to get a woman in her underwear. How many hunky males with bronze chests have you ever seen in the papers? I've only seen seven (not including the inconvenience pants advert). Well we're sickened by this exploitation and we won't rest until this sexism is out of advertising forever.

Maggie.

WE KNOW WHY...

Well after all these accidents which have only affected the working class like the Abystead disaster, the Bradford bombing and the Brighton football tragedy another disaster has occurred-the Manchester air disaster where 37 lives were claimed. Why is it that it's only the working class who suffer we ask ourselves, well the answer is simple the ruling class are trying to undermine the class struggle by killing the working class off. Oh yes it sounds a bit far fetched doesn't it but isn't it a bit of a coincidence that it has always been working people who have died? And don't you think that it's a bit strange that the numbers of who have died have always been greater than 3? There's the proof the ruling class are out to get us. And now in the light of the Manchester disaster we find out the cause, they tell us it was the engines, well i'm telling you the accident was caused by 3 coppers who had been shuffled up one of the engines, don't you think it was strange the way the filth arrived so early? It's 'cos they'd been hiding in the engine. Now you know the truth what are you going to do? WE ARE ANGRY.

NOT LONG...

Tyldesley Class War Mob

Once again the government through it's media is attempting to discredit the working class by showing us all as stupid, racist, sexist and as West Ham supporters. Well we're not stupid, I know the word 'survive' has a silent e in it. How much longer are we going to tolerate this garbage on the television? Well I'll tell you, not long.

ANDY CLASS

HANSWORTH: THE TRUTH

We all saw the scenes on television, rioting, looting, throwing projectiles, burning cars, smoking cigarettes and spitting all the tell tale signs that there was a riot taking place and for some reason people were not very happy. All the signs of 1982 were there, poverty, police harassment and of course class hatred lying dormant in the Hansworth ghetto. We were told by the media that the cause was discontent with the drugs problem. We know the real cause, the riot was the working class hitting back at the rich bastards who keep them in the poverty. Throughout the trouble we were told of youths attacking firemen with no motive, except to knock the funny yellow hats off their heads. We know it was the working class opening up the front line in the class war. I'll tell you what really happened at Handsworth.

7.45pm Class War mob sets fire to Bingo hall in order to destroy it so the rich bastard who owns it won't be able to exploit their Grans, and not be able to sell Lyons Maid ice lollies at the extortionate price of 42p when you can get them at Bob's Newsagents for 22p.

8.00pm Traitors to the working class arrive, (firemen), and try to put out fire but before doing so start throwing mojo wrappers at our heros.

8.05pm Class Warriors retaliate with half-knackers.

8.15pm The filth arrive and start throwing concrete posts and truncheons at them.

9.00pm Class anger is at boiling point and the working class explodes, cars are overturned by the filth in order to throw at the working class.

9.03pm Journalists arrive and start throwing lighted matches at shops.

10.00pm The filth seeing that they can't destroy class hatred start rioting, overturning cars, burning shops, kicking empty cans about, throwing litter and using bad language.

11.00pm A van load of wimpy green anarchists arrive and engage in lying down in the road and chaining themselves to railings and policemen.

11.00pm A van load of wimpy green anarchists stand up and unchain themselves, get in their van and leave.

12.00am Police smash into a Post Office and plant two bodies of people whom had died in police custody.

1.00am local chemist is raided by class warriors.

1.05am Salvo of shit bombs start to fall on police lines.

2.00am Police start to syfen off petrol from peoples cars and put it in milk bottles.

3.00am Working class start to show that they mean business and start throwing lit matches at the scum.

3.02am Copper catches match, puts it in bottle and throws it at a shop.

4.00am Hansworth is burning and it isn't just class anger.

6.00am Working class go home to bed.

6.30am first newspapers appear full of lies about what happened.

By reading the eye witnessed account given above you can see how the media twisted the events and made out that the working class destroyed it's own ghetto when it was really the filth. It's time to fight back, to stop crawling and wearing our jeans out at the knees and getting told off for it off our mums. We've got to go into the rich ghettos and destroy them, not let our own communities be destroyed by the lackeys of the state. We must be strong and let the rich's mansions burn like our hatred. It's time to stop eating shit and start eating the rich, we've got to knock on their door because we're taking no more. It's the war which we must win even if it means missing Coronation Street and finding out what Simon Groome's up to in the Blue Peter Garden besides mud. THIS IS THE CLASS WAR.

THE WORKING CLASS STRIKES BACK!

MEET: 6.30 AM - PALL MALL. MARCH TO BUCKINGHAM PALACE.

No longer are we going to let our class-hatred boil up inside us, it's time we vented that anger in the ghetto's of the rich. Tired of being treated like soggy cornflakes that stick to the bottom of the bowl, we are going to hit the streets and we're going to show our anger. Where better to show our hatred than in front of Buckingham palace, the ultimate symbol of class-oppression? Well, we're going to show 'Lizzy babes just how we feel - very angry. So on Saturday put on your DMs, grab some spam butties and meet at Pall Mall. From there we'll march to the palace with our hatred soaring like the flags we'll be carrying. We'll teach her to torment us with boring speeches at 3.00pm on Christmas day. We'll show the rich bastards that the workers will not be treated like '4 pairs for a pound' socks. Once at the palace we'll all act aggressive, and spit, and swear. We'll chant and we'll make the queen shake in her boots. No doubt the filth will be out in numbers, so come prepared with your flip-flops. BE THERE OR ELSE!
