

## GROUPS

Name of your group:

Contact address:

Contact phone number (if applicable):

Any Fax/E. Mail/Web site address (do you want these publicised):

What sort of things you are campaigning around/ fighting against/ demanding?

What area do you cover (eg a local area, village, county etc). This is mainly in case we get people wanting details of groups in their area.

Do you have any leaflets/newsletters/magazines people could get from you? If so what address should they write to and what sort of money (if any) do you want for them?

## INDIVIDUALS

Are there any campaigns/ groups/ collections of people in your area which might be useful for other people in your area to know about/ If so can you give us details, including addresses.

What sort of issues are you interested in/ fighting for/against?

IF people contact us, would you be into talking to other people in your area about the possibility of starting up some sort of group in your area?

Would you be prepared for us to give a contact address to other people in your area who wanted to get involved/ start something up? If so, what name and contact address would you want us to give?

If you do not want your details given out, would you want us to pass on details of other people in your area to you so you could contact them?

## IF YOU DON'T WANT TO GIVE US INFORMATION

Could you let us know why not.

We would need to know your name so we know where this info is coming from but we would not pass any details on.

Do you still want to receive these mailing from us?

Thanks for any help

# DIRECTORY OF AUTONOMOUS NON-HIERARCHICAL GROUPS IN THE UK

WE DON'T JUST WANT A BIGGER SLICE OF THE CAKE...

...WE WANT THE WHOLE BAKERY!

## WHERE ARE YOU & WHAT ARE YOU DOING?

# So You Want to Change the World?

## You are not alone!

This directory, created by people from Counter Information, Haringey Solidarity Group & the Anarchist Distribution Service, contains details of autonomous non-hierarchical, libertarian activist groups. This is only the first draft - the list is not complete. Details have been provided by the groups themselves - we have not vetted them.

We have created this directory as a way of encouraging information sharing, solidarity and networking between groups and individuals who are actively involved in the struggle against the oppressive and exploitative society we live in. Groups and individuals who are agitating for a society based on freedom, equality, co-operation, self organisation, and mutual aid. People are often ground down by isolation, disillusionment, hardship, alienation and repression. We want to be part of creating a culture of resistance, encouraging people to organise reclaiming their lives. We can change society by the way we act, live and relate to one another. We think better communication and the sharing of ideas and experiences is a step in the right direction to recognising our collective strength and to stimulating active struggle for social justice.

The idea is that you can use the directory to get in touch with other activists in your local areas and get involved. It's there to enable similar groups around the country to swap skills, information and anything else - it's up to you. It's there so we realise we are not alone doing what we are doing. Finally it's there for whatever you need it for - it's our movement and we want to see it grow and become f\*\*king unstoppable. If there is no group listed in your area contact us and we may know of other groups near where you live or work, who, are not in the directory yet. We may also be able to put you in touch with other individuals in your area - with everyone's consent of course, as individuals details are obviously kept confidential.

Counter Information, HSG and ADS already mail out to lots of groups and individuals, sharing news, leaflets and information and also try to put people in contact with others in order to promote local agitation.

This booklet can only work properly with your support. Let us know of groups, papers, distro services, bookshops, publishers, etc etc in your area who support what we are trying to do. All we ask is that they agree with the view something along the lines of "Our aim is to promote solidarity, mutual aid and linking working class struggles. we can't rely on politicians or leaders to do things for us - we've got to organise and do it ourselves".

There is a sheet at the back of this booklet - we need as many responses as possible, from both groups and isolated individuals. If your group has changed its details or gone into hibernation can you keep us informed. There are bloody 100's if not 1000's of us doing stuff to change the conditions we live in - unfortunately very few of us know anybody else outside our small circle of mates. It's about time we got both proud and positive about what we believe in and start linking up with all others trying to do likewise.

**Lets get organised, get active and go change the world -  
rather than just talking or dreaming about it !**
