HELP !

HELP !

HELP !!

HELP !!

panic button

PANIC BUTTON

Please don't
let us have to
press it.

festival stall

HELP is sorely needed to run the Hot Drinks CND stall at the Green Festival. Help with mashing; serving; water carrying; water boiling and help with the loan of water carrying and boiling equipment.

Last year the first few hours were very slow, but, by gum, the last couple of hours were hectic. This year the festival begins an hour earlier and ends an hour later, therefore more help is needed.

This is a plea from the heart and verily we say unto you, that ye who help shall be twice blessed. Haloes on request.

Peggy

Between preparing the last bulletin and this one Peggy Westaway has been whisked into hospital for surgery and is now home again. Peggy remains cheerful, but she faces weeks of radio & chemo therapy. We know that the entire membership, which Peggy has edited with a gentle but firm hand for thirteen years, will wish her a complete recovery.

Our thanks and gratitude to Anne Mitchell who, literally at a moments notice, agreed to keep the membership system working.

Hiroshima Day

The Hiroshima Day Memorial Service had the best attendance for many years. Unfortunately Barbara Lacey, for family reasons, was unable to attend but Anne Mitchell and Jane Goldsmith gave excellent readings of poems by Siegfried Sassoon. The plaintive notes of the pipes, as played by Bronwen gave poignancy to the service and the singing of the Clarion Choir was of the high standard that we have now come to take for granted, with the entire attendance joining in the chorus of the last song 'Down by the Riverside'. The evening was mild and bright, but a slight wind blowing from the lake blowing out the candles and sending the crane rafts back to the launching steps. A pity but this did not detract from the sincerity of the occasion. Next year will be the fiftyth anniversary, of the dropping of the ultimate horror of man's ingenuity. We would welcome any ideas to give added point to the service.

National demo.

We consider it essential to make a good presence at the National Demo. on Oct. 29th. so that the powers-that-be remain aware that there is still a strong body against the use of nuclear weapons. There are other issues of great importance, but the nuclear threat is still the prime one for the preservation of the earth for future generations. We shall be drawing on our reserves - mainly the Dorothy Green bequest - to subsidize a coach to London at the following prices for members:-

Full waged £5 Low waged £3 unwaged £1. Friends £10 and £5.

As this demonstration revolves around Trafalgar Square, having stalls, street theatre etc in addition to speakers, there should be many places to rest weary limbs, if necessary.

conference

Nottm.C.N.D. will pay the expenses of a representative to Conference, conditional upon a written report being submitted for the bulletin. Any takers?

National Conference is to held on Saturday & Sunday, December 3rd & 4th 1994. Venue - University of London Union.

fancy that

A study of the chocolate cravings of 45 students by psychologists at the University of Pennsylvania has concluded that people like it because it tastes good.
