# BOW BRUISER!

The Official Circular Off Bow And Peplar. Community Resistance.

To hell with the "HAT" Scheme,

The local-council has good intentions with its HAT proposals.It intends to improve housing in the Borough or so it claims.....;.... The real intention is to drive us out of our homes and yuppify the area .Already Yuppies have arrived,the Bryant and May Factory conversion is a classic example-these wealthy outsiders have invaded our community and stolen the homes that belong to the local working-class community and driven up the prices inthe area making life im possible for many locals surviving on a miserable pittance of a pension or dole handouts.

When our homes are knocked down where will we live while they build these lovely new flats?Who will get the HAT homes when they are builtinvading yuppies from outside the area or local residents?Will rents stay the same or will they go up?We are going to face extortionate rent rises after the new homes are built and only rich people from outside the area are going to be able to affordit so we will be forced out of our homes into bed and breakfast or cardboard boxes.

Unless local people come together and organize to resist the HAT proposals we are facing huge rent increases or homelessness.....so get a pen out or get onthe phone and contact us at.
