Letters

Dear Editor,

As a Tracs member, I felt the article 'Backtracs' in the spring edition of the 'Sneinton Magazine' was somewhat misleading and through 'Sneinton Voice', I would like to set things straight.

Firstly, the public meeting being given the 'credit' for the County Council's new proposed traffic scheme. Some people had expressed their opinions in the form of petitions, so we decided it was time that these objections were discussed openly. Over 3000 leaflets were distributed in the area, along with 40 posters in various places, surley this could not be called 'selectively advertised'.

The statement published in the 'Post' was totally different to the actual statement given to the reporter, but as everyone knows statements given to the press can be misconstrued.

Tracs aims have always been to encourage participation of tenants and residents in the decisions and processes which affect their lives.

C. Wright

Whilst welcoming all letters and contributions, we do wish the groups in Sneinton would talk more to each other rather than at each other.

(Editor)

WANTED!

Cartoonists

Anyone with the skill to draw to a given theme would be very welcome on the 'Voice'.

We had a very good response to our appeal for typists. We know the skills are there - let's have the people !

If interested, please contact Brigitte on 585023.

'Eard in Owd Sneinton'

Jim: Ayup youth, owyer keepin'?

Alf: Alright, Jim, are yo fit?

Jim: Ar, ey did yo ear abaht the bloke as bought a dog in the pub? Wen e took it fer a walk at side o the cut, an threw a stick in, e weren't arf suprised wen the dog coom back to im wi'out its feet gettin wet. It just walked over the water!

E took it back ter the bloke next night in the pub an said " I don't think much ter yer dog, squire, e can't swim".

STONEBRIDGE CITY FARM

It was last summer that Stonebridge City Farm had a report in the "Voice" so about time we reminded you all of our continued existence and the changes which have taken place since our last article.

Last Sunday on the farm seemed fairly typical for a day "down on the farm".

In the barn there were several rabbits with a litter of furry young, the goats as usual escaped from their paddocks and made straight for the food store, on the field was a lighted fire with local kids sitting in attendance!.

A few spades-and people dressed in their wellies-looked like they meant business.

So some things just the same but also a few changes. The main barn has had an extension which now houses the brightly painted farm van. Also a new "Community" building had just been erected, as yet I don't suppose the end use for that has been finalized. It will depend to a great extent on what the local community demand of it. So if you have any ideas please don't hesitate to go down and make your ideas known.

Some changes of staff also have occurred most recently Ken and John and Andy have left, but new people have been employed to replace these. One of these is only here for the next 6 weeks as a temporary Y.O.P supervisor. Since August 1979 the farm has endeavoured to run a Youth Opportunity Programme (Y.O.P) scheme, but now that the major building programme is nearing completion, the local management committee of the farm have decided that they will have an experiment to see if the farm can be run by 3 adult workers only.

Obviously the aim is not for the 3 adults to run it on their own - but it is envisaged that they will be working with local volunteers, more essential to the project now that the YOP labour force has left the site. So if you fancy helping out in any way, then don't hesitate - pop down to the farm, your efforts are needed even more now.

By the time you read this the 2 new donkeys will just about be broken in - if you would like to help - gallop down quick and give a hand.

Remember Stonebridge City Farm is a local community project situated behind the Co-OP on Carlton Road - open 7 days a week for your kids to enjoy and help with some of the simple tasks -why not come along?

The End of the Road....

Colwick Road will be closed at site of bus stop sign

To provide a road connecting the city with the new loop road at Netherfield, avoiding the residential districts, the county council propose to carry out the following improvements:

-To close Colwick Road at the city approach to the old railway bridge and to demolish the bridge.

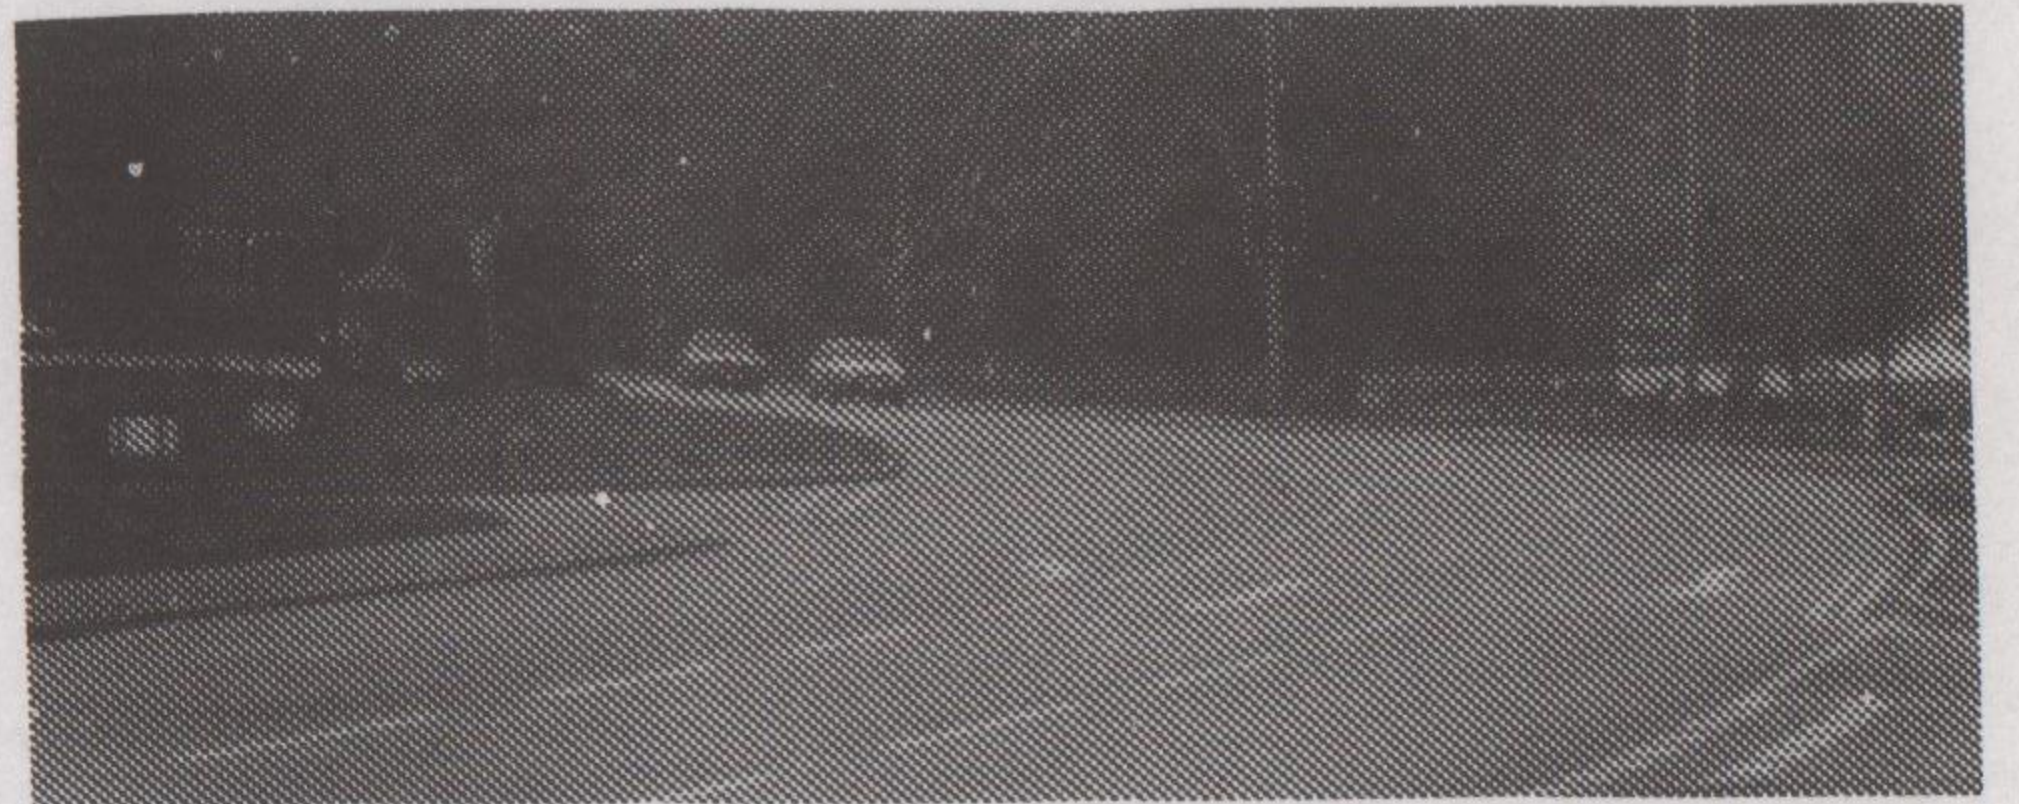

-To construct a roundabout at the junction of Daleside Road and Racecourse Road and to improve the roads.

View from Daleside Road towards railway bridge where new road is to be built.

-To construct a new road, replacing the old Colwick Road, which would extend from the junction of Racecourse Road and Daleside Road, passing behind the rear of the greyhound track and, crossing the site of the old railway bridge, continue along the disused rail-

way track on the north side of Colwick Road. This would rejoin existing roads at the junction of Mile End Road and Vale Road in Netherfield (see sketch on page 7).

Mile End Road new road will continue behind trees on right.

-To provide new means of access to Nottingham Racecourse, Colwick Park and the 'Starting Gate' public house.

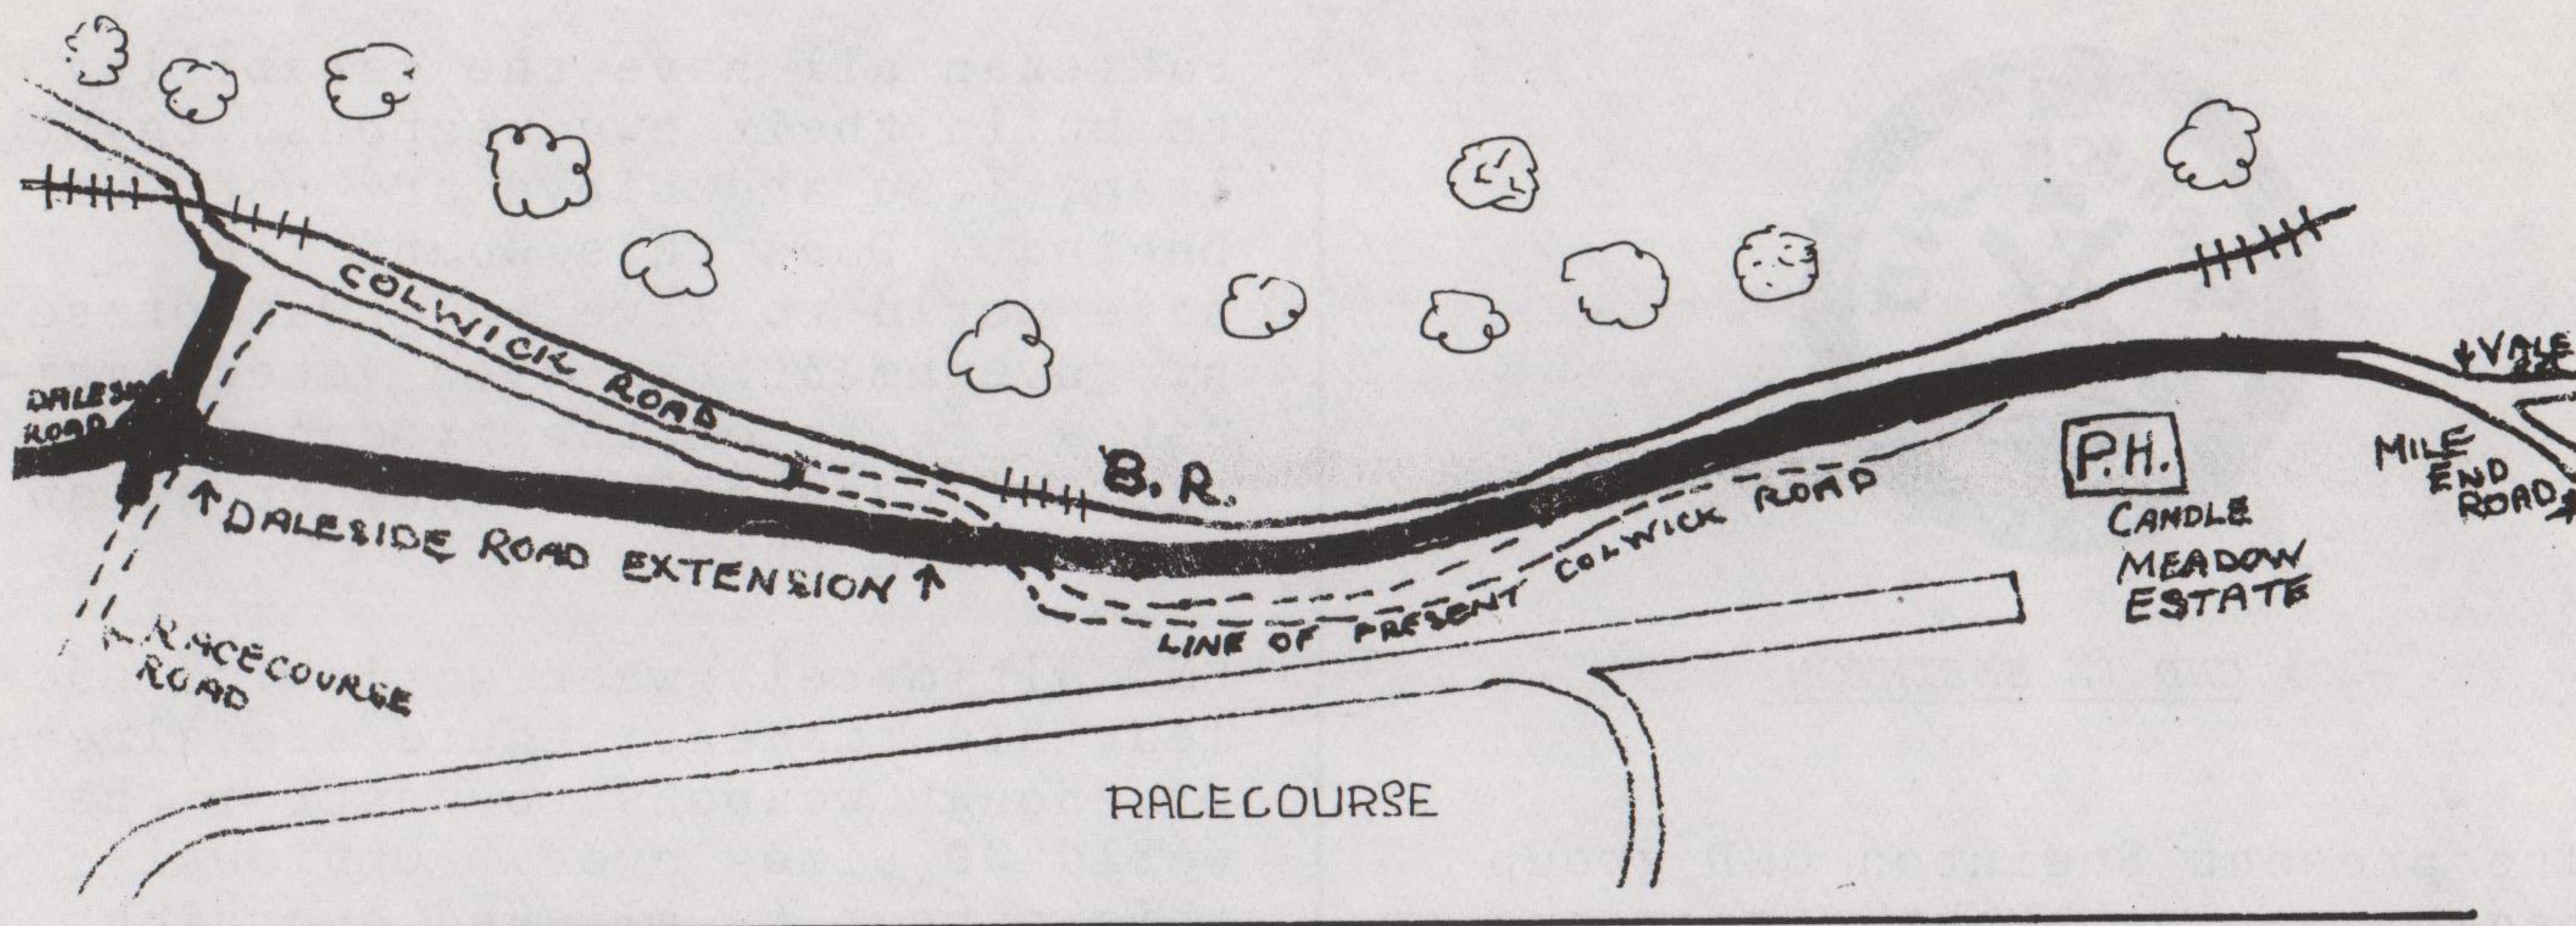

AND MORE NEWS....!

There may be, in 1986, a proposal for a new road, linking Manvers Street with Daleside Road, avoiding the level crossing on Meadow Lane and making necessary the provision of a road bridge over the existing railway tracks.

Further details will be published in later issues of the 'Voice'.

CND IN SNEINTON

The present Sneinton CND group began meeting about a year ago. We now have two meetings a month, one being of general interest, and the other for planning and organising activities - both meetings are open to anyone who is interested. Over the next few months we will be holding a series of meetings looking at the cruise missile, Britain's and France's nuclear arsenals, defending Britain without the bomb etc.

Our group is made up of people of all ages, both men and women. Contrary to 'popular' belief CND is neither anti-men or communist run. We are not affiliated to any particular party, some of our members are, not suprisingly, labour party members, many are not- there may well be some conservatives within the group.

CND opposes all weapons of mass destruction, particularly nuclear weapons, regardless of who owns them. China, India, Britain, France, America and the Soviet Union make no secret of their nuclear weapons. South Africa, Israel and

Pakistan all have the capability to build their own weapons; Egypt, Iran, Iraq and Libya are not far behind. Does this sound like a safe world to live in? Our present government has even voted against a freeze on the production of nuclear weapons and against a ban on testing them.

CND ultimately want worldwide nuclear disarmament; there are already enough weapons to destroy the world 20 times over. Obviously, this cannot be achieved overnight. We are not against multi-lateral disarmament but feel that it needs a good push to achieve anything. We believe that Britain can and should show the way by taking the first step unilaterally to slow down the arms race. This could be achieved by rejecting the American cruise missile which, in any case, adds nothing to our national security.

If you care about the future, you should do something about protecting it. Joining CND is one positive step you could take - voting labour is another!

CRUISE - WHAT IS IT?

The cruise missile is a new American nuclear weapon, 15 times more powerful than the bomb which devastated Hiroshima. It is so accurate, it can hit a target within 30 yards over a range of 1500 miles. It is designed to strike missile silos and can thus be fired first, to start a nuclear war in conjunction with other faster missiles, such as Pershing II.

 COOKED MEATS and CHEESES including
 BACON SAUSAGE and EGGS

In Britain, they will be fired from lorries up to 160 miles from their bases at Greenham Common, Berkshire and Molesworth near Kettering. They could be fired from right here in Sneinton!

This makes most of Britain a prime target for saturation bombing in the event of a nuclear war.

Francis Pym, the foreign secretary has made it quite clear that although Britain may be consulted by the Americans, we will be unable to stop the cruise being launched.

DON'T WE NEED CRUISE TO BALANCE THE RUSSIAN SS20s?

The SS20 appeared after the decision was taken to develop cruise missiles. Their only similarity is that both can be launched from lorries. The SS20 is less accurate than cruise and is more effective attacking sea-ports and airfields than missile silos.

America plans to produce 5000 cruise missiles, but realising the

vulnerability of land-based weapons, the vast majority will be installed on their own aircraft and submarines, which are much harder to destroy.

Permitting 164 land-based cruise missiles to come here will make us an obvious target; refusing them will not leave Britain defenceless and could give new impetus to disarmament talks.

THE RISING COST OF NUCLEAR WEAPONS

There are alternative ways of defending a democracy than by threatening to massacre millions of people. There are better ways of spending our money - on housing, on schools and on hospitals - which would improve our whole way of life.

DID YOU KNOW?....

Each week each UK household, on average spends £16 on the military budget.

We spend 3 times as much on defence as on housing needs or education.

Each trident submarine to be purchased by the conservative government could provide 40 general hospitals.

One twelfth of the cost of trident would be 900 houses.

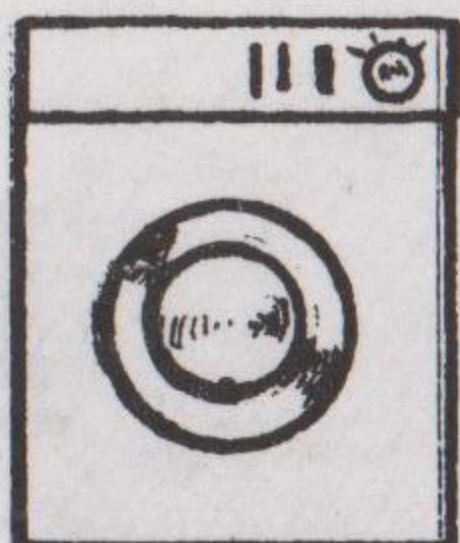

One third of the cost of trident would pay for a programme to rid the world of malaria.

CND have the alternatives to this madness: the steps to survival are within our reach - together we can make them work.

SUMMER PLAY SCHEME

The summer play scheme starts on August 1st at 9.30 am to 12.00 and the age group is 6 years to 12 years. We would like any kind of help from parents or helpers. It is better if membership is taken out now, to avoid delay on the day of the scheme.

The ladies 'Swing into Shape' is now full on Tuesday evenings but Wednesday is available.

The Junior Youth Club is back and having a good attendance: helpers are welcome, but it needs plenty of ideas and energy.

The poor weather looks as if it's passing, so outings and bus trips are being planned.

The decoration has now been completed, so we are back to normality

I would like to clear up a question that has been asked about people who work at the centre: they are volunteers, apart from myself and Chris Peretra, who is a part-time worker, and they receive no pay whatsoever. Anyone who comes regularly will find them every night of the week and weekends.

We have a nice centre here in Sneinton and lots of nice people: it gives us joy to show it off to all who visit us.

**AND MANY MORE LINES
TOO NUMEROUS TO MENTION
PLUS NEW LINES
ARRIVING WEEKLY!**

**NO
ICE**

DID YOU KNOW THAT THERE IS NO ICE IN THE ICE STADIUM? and there won't be for the next few months! This is due to major renovations of the actual stadium building. WHAT EXACTLY IS GOING ON? Well, if you have been in the ice stadium in the past, you will have noticed that it was extremely cold (and this wasn't just because there was a lot of ice around). Work is now being carried out and a new insulated roof has replaced the 'part' glass one which has covered the stadium for many years. Also, the walls have been fully insulated and the '9 miles' of underfloor piping has been replaced and a new floor is to be laid.

If the work is completed, as per schedule, the stadium will re-open in the first week of September. Then we will be able to skate or spectate in reasonably warm surroundings.

If anyone wishes to further their ambitions to become another "TOR-VILL & DEAN" or "GOALSCORER FOR THE PANTHERS", then the Aspley Boys' club have made their 'synthetic rink' available as from Sunday May 22nd from 10.a.m. to 8.p.m and the fee will be 90p for adults and 70p for children. If you want the 'real thing' coaches are travelling from Nottingham to Peterborough ice rink on Friday and Saturday evenings. departing from the icestadium, lower parliament street, at 6.30p.m. (further details are available from the ice stadium).

NOISE IN THE COMMUNITY

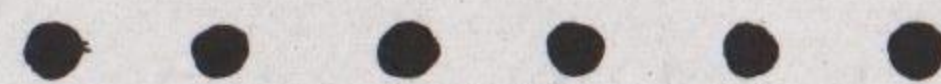

There is no need, nowadays for the community to suffer from excessive noise, either from machinery, loud radios or -more commonly- dogs which bark for long periods of time (It must be emphasised that the latter is almost invariably the fault of the owner - not the animal)

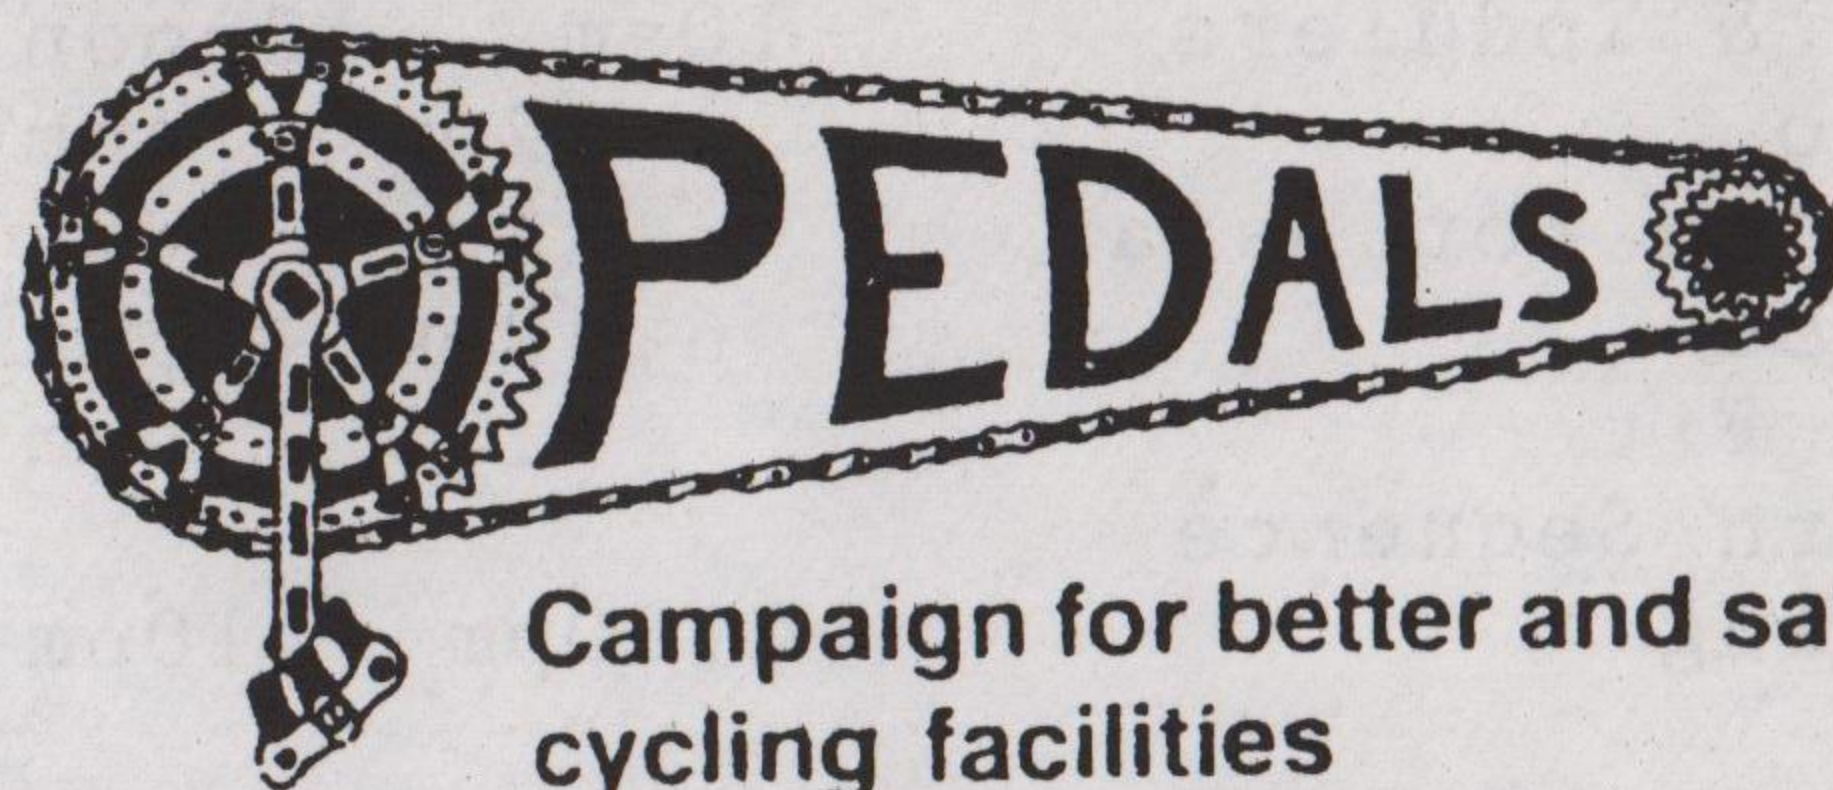

All that is necessary is for the complainant to inform the Environmental Health Dept, Nottingham City Council, at the guildhall of the circumstances. It is not necessary for more than one person to initiate the action, although the more neighbours who are involved the better.

The department will investigate the complaint and, if it finds it to be justified, will inform the offender by letter. In the unusual event of an offender not complying with the notice, the department will initiate legal action against the offender.
