Letters

Dear Editor,

I have read in Sneinton Voice No. 18, the 'Three Comments' regarding 'Faith In The Bomb'. Thanks to Rev. J. Tyson, who rightly pointed out the nuclear race was started by the west, and I agree with him. It was also quite rightly said by Rev. S. Carter that the "Nuclear weapons race demonstrates the negative side of man's pursuit of knowledge."

In the light of the above facts I am afraid that I cannot agree with Rev. O'Sullivan, who suggested to pray for peace. Christ or God have nothing to do with the evil destructive inventions of some lunatics. This mess was created only by man himself and to sort it out, is man's own responsibility.

Yes, if they want to destroy these weapons before they cause havoc, that might please God, because the money etc. spent on these weapons so far could have eradicated hunger and poverty from the whole world a long long time ago.

It is a fight between two ideas - communism and capitalism. Well, if those big heads do want a sort out, then let them have a battle or war on their own lands. Why involve Europe or Asia? Why do they want to kill innocent children who die, not contributing a single thing towards creating these nuclear weapons? Where are those who make elaborate speeches on stage for human love, peace and prosperity? I feel irritated when Reagan or anyone like him or of the same status talks about peace whilst creating havoc on the other side. Its biggest example is the involvement of America in Lebanon, invading Grenada and other involvements in Central America. Similarly, Russia's invasion of Afghanistan and destroying the life of people in Poland and other countries. Probably the next turn is of America.

These sorts of Government are the main cause of all this present nuclear race trouble and those who support them. What we actually need to change is the governments on a global scale, by casting votes sensibly, electing those members of parliament, senators and leaders whose thinking is positive and who honestly want to get rid of nuclear weapons and want to create an atmosphere where every single nation can live peacefully.

If America, Russia and some other 'Big Daddies' got out of the underdeveloped countries and let the people of those respective countries run their own affairs, this world could be a better place to live in. Otherwise it makes me wonder, why work hard to feed my children, to make them grow healthy and strong and tomorrow they will be lying dead somewhere, by one bomb's blast - What a waste!

Yours sincerely,
MR. BHATTI.

All about Fostering

Children need foster homes for many reasons. Sometimes their parents are ill or overwhelmed with problems; sometimes they have been neglected or ill-treated or there has been a serious family; sometimes a child will come into care following an appearance in the juvenile court. Their length of stay in care can vary from just a few days or weeks, to years. The ages of children in care varies too - from very small children to teenagers and young adults. Most people think of fostering in terms of young children: they do not know about all the older children and teenagers in childrens' homes who desperately need a family. There is also a need for people to offer accommodation to young people leaving childrens' homes and foster homes between 16 and 18 years of age. The world can be a very frightening place to the boy or girl leaving care with no family to support him or her.

Some people are unaware that you can apply to foster if you are divorced, or a single parent. Many people are unemployed now and that does not stop them becoming foster parents. Some foster parents have big houses and gardens, some have flats; some have children at home and others have grown up children who live away from home, or no children at all. So there are no rules about who can become foster parents - it all depends on what people can offer to the children in care.

Foster parents are special people; they may have to deal with difficult behaviour and they will have to work with social workers and, frequently, the child's own parents in order to achieve what is best for the child in their care. Because we know that fostering can be difficult and stressful as well as rewarding, we spend a lot of time getting to know families who apply so that we can decide whether or not it is right for them.

If you have ever thought about fostering or offering lodgings to a young person in care, then why not contact us for a chat?

comfortable in puppies and grown dogs. Always keep your dog in good health! There is a range of tablets for dogs, and you shouldn't have much trouble in feeding them to him, but if your dog is particularly stubborn about taking pills, try crushing them and mixing them with his food. Another good thing for your dog is marrowbone. This helps to keep the skin moist and the coat shiny. Just one more point for the Sneinton readers: No one likes to see a dog roaming round the streets, getting food from dustbins! More and more dogs are getting hurt on our roads. Make sure that your dog isn't one of them!

KAREN.P.

Pets Corner

In this issue of Sneinton Voice, i'd like to give some hints on how to look after your pet dogs. Whether your dog is large or small, we all know that the general care of dogs has to be kept up in our homes. With many large dogs it's best to make sure that they get plenty of exercise, especially if they're kept indoors most of the day. Always invest in a good strong brush for your dog, one with long teeth if your dog has long hair and a more smoother side for smaller dogs with not so much hair. If you've brought a dog at the puppy stage it is a good idea to check with your local vet about worming them, - worms aren't very com-

The Invisible Menace

Readers who saw a recent television documentary, which described the dissemination of radioactive waste from Windscale into the surrounding area, and along the Scottish coast, may feel that certain plans for our own environment are equally disturbing. Planning permission has been granted to Boots at Pinder Street (off Manvers Street) to build a new incinerator and 170 feet high chimney, which will release radioactive particles into the atmosphere.

St. Ann's, Sneinton and Colwick are directly threatened by this invisible menace. — This installation is the result of the companies experiments and radio-active isotopes on live animals which have to be destroyed afterwards. The corpses then have to be cremated in this plant. As the radioactive material cannot be removed by burning, it is released into the air. The prevailing winds in our area are South-Westerly by Westerly which means that, within a mile of the site there are 10 schools, 2 high-rise flats and a water supply reservoir which are at risk. In addition St. Ann's Hospital, 1½ miles away is also in the path of the fallout.

We understand other interested bodies have been told that neither Boots or the City Council consider they should investigate the danger from the cumulative effects of radioactive fallout, on nearby populations. Their defence being that such investigations are the responsibility of the Dept. of Environment. We believe that the Dept. should be required to carry out such an investigation, before work is allowed to begin, of the effects of similar discharge in the past on the surrounding populations.

There is also the moral issue of allowing experiments on living creatures to continue at the present

rate - every 6 seconds an animal dies in British laboratories, for what are obviously totally unacceptable reasons. Until a Dept. of Environment enquiry is concluded, Boots should be required to stop all emissions!

We understand that several local groups have already made approaches to Boots and the City Council Planning Department regarding this installation and that co-ordinated action within our area is now likely.

J.R.

Sneinton Resource Centre

Did you know that a new Resource Centre has been set up in Sneinton to enable Groups and individuals in the area to have access to various items of office equipment? The Resource Centre is presently accommodated at the TRACS Centre, 26 Lyndhurst Road, and equipment includes a photo-copier, duplicator, typewriter, guillotine, electro-stencil machine and electric stapler. Any of this equipment can be used at extremely modest costs and it should prove to be a useful asset to our community.

Demonstrations on "how to use the equipment" can be arranged at the request of groups, or the work can be done for you by prior arrangement. If you wish to have use of the equipment, contact Ted White at 198 Colwick Road, or telephone him on 51013 - if you could give him 24 hours notice this would be appreciated.

THANK YOU.

Nottingham Dale Gymnastics Club

Sneinton is one of the few areas in the East Midlands to have a Boys Gym Club. There are many girls' clubs but it took the Dako Gym Team to highlight boys gymnastics in Nottingham and then the Dale Club emerged. Dale Gym Club was formed just over a year ago by David Walkerdine and John Parkin, both from the Dako Gym Team and now the club is fortunate to have the coaching services of Howard Muir who, incidentally, was a Dako gymnast in the 60's and an All England schoolboy champion. Howard also coaches at the Carlton Forum Girls' Gym Club. Dale Gym Club has a regular membership of some 20 boys from many parts of Nottingham aged between 7 and 14 years.

Boys in the Club get the opportunity of a training session every month at the Amber Valley Gym Club at the Alfreton Leisure Centre. Training sessions there are run by National Coach Alan Summerville and the benefits of these visits in conjunction with our own training programme is now paying off as we see our young gymnasts improve. Most of the members have qualified in the B.A.G.A. Coca Cola Award Scheme and we are now progressing to The Philishave Gymnastics Award Scheme as well as training to the National Development Plan.

Any boys aged between 7-14 years wishing to learn about gymnastics are welcome to come along any Friday or contact David Walkerdine for details at 580498.

Sneinton Registered Childminders

Each minder has a certificate to prove that she is capable and that the place where she minds is a safe and suitable place for a child to be. Each minder is allowed to look after three children under the age of five - this includes the minder's own children who are under five. We also look after the over-fives during the school holidays. If there is an emergency, or you have an appointment - even Christmas shopping - contact us and we may be able to assist you. The Sneinton group has just finished a course about work and play. We meet every fortnight to discuss useful topics and ask trained people along to some of our meetings - members of the Education Department, health visitors and social workers.

An officer from the County Hall visits the minder's home regularly to see how the child and minder are getting on with each other, and also to see how the child is developing, both physically and mentally. We are always pleased to see them because they are highly trained in child welfare, and are able to give us good advice.

We are all covered by insurance which includes damage of childrens articles, loss of pushchairs, etc. If anyone wishes to know more details they can contact me. or any other of the minders. We will be more than willing to help you.

Sneinton Festival

Saturday 7th July 1984
10a.m. - 4p.m.

Meetings have been taking place over many months and plans for a festival are coming along nicely. If you have any ideas, then why not come along to Greenwood Junior School on the first Wednesday of each month at 7.30p.m. Everyone is welcome to contribute to their festival. It is for people of Sneinton.

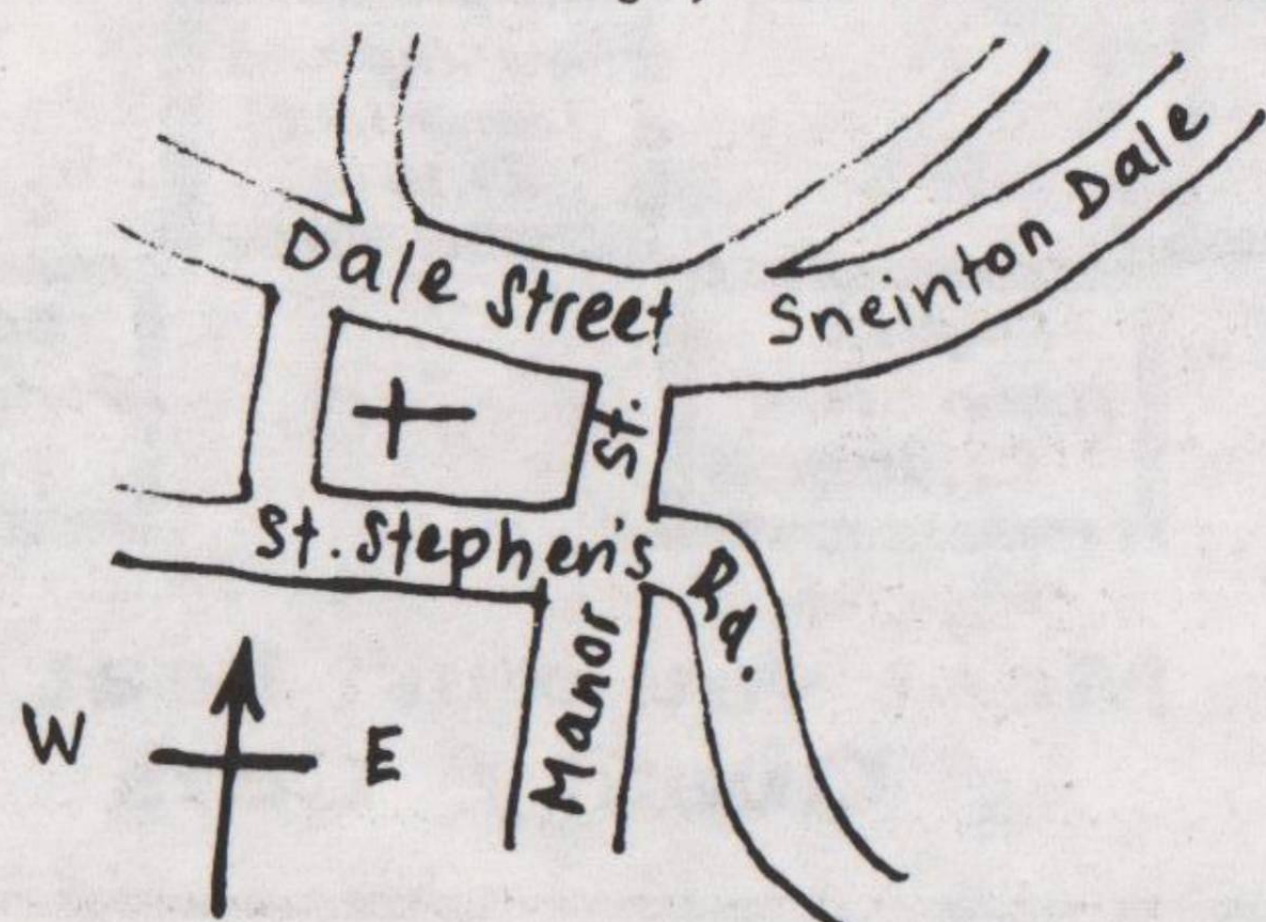

Our plans so far include a grand parade along Sneinton Boulevard with bands, floats, fancy dress, festival queen, a "celebrity", mini-marathon, and street races. The afternoon events will take place on "Woodview"- the field at Colwick crossings. There will be sideshows, exhibitions, display teams, international food, ethnic dancing, keep fit, tug of war and football.

IT SHOULD BE FUN FOR ALL THE FAMILY! For further information or contributions, come along to the meetings or contact:

Val Stapleton: 502795
Marilyn Hyde: 504320
Brian Thomas: 501404
Celia Knight: 584862

Parking in Sneinton

Notts. County Council propose to make an Order in the near future prohibiting vehicles from waiting at any time on Belvoir Hill, Dale St., Manor St. and St. Stephen's Rd. The Order, in a reference to Manor St. alone, appears to mean that waiting will be allowed on the West side of Manor St. (i.e. the church side) between 6.00 pm. and 8.00 am. daily, and on Sunday.

TRACS NEWS

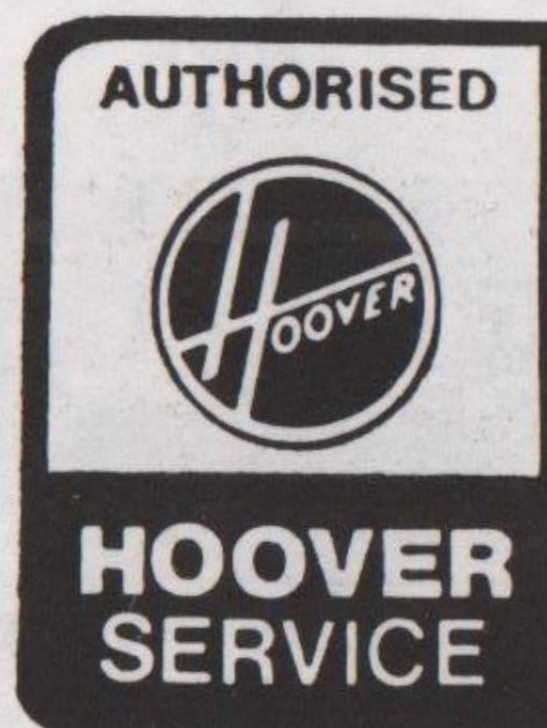

Whilst doing the traffic survey to see what Sneinton thought of the Council's traffic scheme, TRACS (Tenants and Residents Association for the Community of Sneinton) spoke to many local people and picked up a lot of other problems. In particular, the tenants of Hoten, Beckford, Cosby and Radbourne Roads seemed very concerned about dampness in their houses. Consequently, TRACS did a survey of the four streets before Christmas, and found that 40% of the households interviewed had a dampness problem. The majority of these had reported this to the Housing Department but were not satisfied with the response, and so dampness continues to pose inconvenience and health problems. The other major complaint found was the absence of any heating upstairs.

TRACS will be meeting again with the tenants so that together we can take the issue up with the council, as it is felt that these problems deserve further attention.

Further details on TRACS activities at 26, Lyndhurst Road, Tel. 584862.
