# WORKING CLASS

"This is a very tough neighbourhood. Sid—that's why we do this beat in pairs!"

## COMMUNITY

## US AND THEM

The first step towards victory in any struggle is the uniting together of all those involved. But right now old people cower behind locked doors, women daren't walk alone at night and the casualty departments of every hospital in the country are packed on Friday and Saturday nights.

Of course things aren't as bad as the media like to portray it, but things are bad and certainly of concern to us all. The media gleefully displays anti-social acts but never goes into why they happen. (This doesn't mean we condemn attacks on the rich and their property, far from it -thats great!). They try to make us scared of each other so that we all remain isolated, and when they call out for more police the more stupid amongst us fall for it and support them. They want us to be divided so we can't fight them. This is how fascism works.

We must realise that their call for more police is not for OUR benefit. They don't give a damn for us. Sure the police will try to keep order in society even if their masters are making it intolerably difficult for them by forcing the working class into even deeper depths of poverty and despair. But as time goes on their real role will become more transparent as all their resources are used to protect the upper classes. This was the job they were founded for and this is the job they do the world over.

It is essential that we stand UNITED AS A CLASS AGAINST OUR ENEMIES. Those who steal from and hurt working class people are bastards but they are ordinary people just like us. It's OUR responsibility to keep them in line not some scabby cop's. When we are in the street or the pub we must look after our own class. It is not on for us to allow others to be robbed or beat up. If we see someone being attacked we must step in and help out if we can. We must keep an eye on our neighbours houses and flats not for some tell tale neighbourhood watch scheme but out of a responsibility for each other. Those of us who are hard up should be given a helping hand; whether this means making the tea for the next door neighbours kids or buying a pint for someone in the pub who's skint.

Our goal must be to recreate our communities. To provide working class communities where our back doors can be left open and we can walk the streets in safety—where only our enemies live in fear. We must talk to each other and share our problems. Remember—UNITED WE ARE STRONG.

The estate I was brought up on in the 60's was great, people were proud to be working class, the community was strong and if any trouble arose neighbours all mucked in. The police were rarely seen and people controlled their own areas. No one nicked off their own and there was plenty of work. Nowadays the middle class have more control of our lives, the Trade Unions have come under attack from the Tories and the police time and time again. The rich lifestyles of the middle class are being blasted from the TV screens, Dallas, Dynasty, even the ad's, Vork sprung durch technik as the fuck pig says. This loss of identity for working class people must be reflected in mugging and house breaking on council estates by kids who have no pride let alone future for themselves.

We must attack the middle class and never the working class. Everyday they take more from us. Presently they're moving into working class areas in inner cities, buying up houses from under our noses, bringing their swanky lifestyles and forcing house prices out of the pocket of local people for good. Look at their politics, where were they during the year long pit strike when miners and their families were being attacked by horse riding riot pigs? I'll tell you, holding hands outside some army base with a candle stuck up their arse (nuclear power no thanks). Well we say middle class no thanks.

My dad fought in the war and I was proud of him. Remember the working class won that war, the middle class still at daddies side with their universities waiting for them. The working class must no longer feel inferior, the middle class must be down trodden like we have been. Their protests 'Save the Whale', the fox and the sausages at tesco's must be brushed aside. The working class need our help in Ireland and South Africa and it won't come from some pratt of a student who rides a bike, a 2CV or daddies roller. I leave you with a thought...who stopped Hitler. Say no more.

## BLIND BOY BEATS OFF MUGGERS

Blind Afzal Sadfer beat off two would be muggers while his young cousin looked on. They were just yards from their home in Bethnal Green, East London when two youths, one black, one white, tried to steal the money they were going to buy some eggs with. This last year has seen a steady rise in the number of violent street attacks around Britain. Mostly working class people picking on others no better off than themselves and sometimes worse off. What is shocking is that passers by tend to ignore victims pleas for help, when it is obvious they could do something.

● Plucky Afzal Sadfer and his young guide five-year-old Imran Razaq, after their ordeal.

Communities must police themselves, not with outside NF style vigilante groups, but as a community, as one step to the kind of world we all want.

## A HOUSEWIFE went on a year-long shop-lifting spree — and she stole something nearly every day.

Christine Steadman kitted out her family, relatives and friends with clothes. Wakefield Crown Court in Yorkshire heard yesterday.

She also shoplifted for Christmas presents for her and her husband to give away, the prosecution said.

Most were taken from Mark's and Spencer.

She told police she could not help stealing and liked clothes which she could not afford to buy.

"With Prince Charles encouragement we'll soon have these inner city slums fit for yuppies to live in."

**SCANDAL!**

### QUEEN IN COKE SHOCK

It can exclusively be revealed that prior to Michael Fagins arrest at the palace for secretly visiting the Queen in July 1982, a mystery visitor had been visiting her illicitly for the previous 6 months.

Who this mystery visitor was we cannot reveal but he has given us an interesting insight into shady goings on at the palace.

Security was so lax he was able to get in the same way as Michael Fagin for the previous 6 months.

He used to sit at the end of the Queen's bed chatting while he was in the nude! He alleges that the Queen has a cocaine habit and regularly snorts coke while attending to her paperwork. The rumours are true, the Queen does wear a wig!

Michael fagin was aware of these facts and in return for keeping quiet he received a leniant sentence. Thus once again the parasitic royals are seen in their true light, and the sooner we're rid of them the better.

**POP**

### BEASTIES

Here's a thought for gate crashers. Next time you try and get into some yuppie's party take a leaf out of Washington's-Beastie Boy fans. To the sound of "Fight for your right to party" they demolished the luxury house that the party was held in. Damage came to 350,000 dollars!

### RIGHT ROYAL SEND OFF

The Catch 29 rock festival headlined by ASWAD was marred by a visit from Prince Edward.

First they closed the women's sloos all day, then to cap it all the music stopped and ex-marine HRH walked on stage. At once the crowd broke into a loud chant of "F... O.. you rich parasite"...

### WEDGE

"To Me, there were lots of people in there just to find a cushy job with the Labour party in some form or other."-Croydon's No.1 Soul singer, Paul Johnson, talking about the Red Wedge.

**SEX & THE STARS**

In the last few months the papers have been littered with old hippies whining on about how they never enjoyed their "free love" flower days and that casual sex is "wrecking society". Just who do they think they are ? It's alright for famous filmstars and popstars to be promiscuous when they want, we just get lectures when they decide to get married.

ACTOR OLIVER Tobias, who rocketed to fame in raunchy roles, has launched a scathing attack on casual sex. It is wrecking our society, claims the 40-year-old star of The Stud.

**RADIO romeo Tony Blackburn has put the brakes on his sex-drive—after bonking hundreds of girls.**

What with George Michael's "I want your sex" video ( or should it be "I want monogomous sex please") it all adds up to part of the AIDS moral clampdown. Twenty years ago Oliver Tobias must have thought he was threatening the establishment ( like most of the middle class hippies of the time) now it's clear which side he was always on. WE should decide about our own sex lives and not be frightened by these hypocrites.

## THE EQUALIZER

Working class heroes gave a good hiding to middle class Sun journalists outside the funeral of Securicor robber Micky "skinner" Flynn. Skinner and his mate Nick Payne were gunned down in cold blood by police after a tip off. The following day the Sun couldn't contain its glee at their deaths. Never mind, their mates gained revenge by hospitalising a handful of their reporters and holding a stanley knife to one of their throats. Its a shame it wasn't used, so they could find out what its like being a black or asian person who gets cut up because of all the racist crap that gets printed in their paper.

# WE WONT REST TIL THE LAST UP WITH THE GUTS OF THE

Well over one in three women get raped in Britain. Obviously most people feel absolute disgust at this, but most of us still believe that rape is an 'isolated act' committed by 'maniacs' and 'loonies' down back alleys. This is the lie regularly told to us by the press and T.V. If you believed what the papers and T.V. told you you'd have this idea that most rapists were nutters who just flipped one day; and that they dress up in balaclavas and attack their victims with knives and guns. By doing this the media are defending their society and saying that rape is something that should 'nt be happening; and try to convince us that there's something 'wrong' with rapists and that they must be 'mad'. This is all very far from the truth.

Rape and all violent acts against women is the NATURAL outcome of THEIR sick, sexist society that see's women the property of men. The vast majority of rapes are committed by people who the victims know: 'friends', brothers, fathers, husbands, etc. Most rapes do not happen down back alleys or deserted railway stations, but in the rapists or victims home. Now these people, rapists, although scum, are not 'mad', or 'loonies'. They have simply fallen for all the lies spewed on men since we were born. They see themselves as superior and that every woman is there to be had, to be dominated. Now by saying this im not trying to excuse anybody, all rapists should be murdered without a doubt, but what i am saying is this: men arn't born rapists or turn into one over night, this society deliberately puts the ideas into mens heads that lead to rape.

From 'porno mags' and the adverts on T.V, to 'Womens Own' and Barbara Cartland novels, women are portrayed as dumb, submissive and willing to do anything for men. When kids are young boys and girls do the same things, play the same games and theres no trouble. It's only as they get older and start copying mum and dad and acting out the roles they are told to perform by EVERYTHING they see: books, church, family life, T.V, films, advertising etc, etc, that things start to go wrong: girls think they have to be meek and mild, and look pretty for men; to be a real woman and to be normal. Boys think they have to be tough and hard, and dominate and bully women to be a real man and to be normal.

What this vile brainwashing produces is the idea that women enjoy being dominated/assaulted/raped or the attitude of "what the fuck, she was only a slag anyway". A good example of the sort of diseased mind this bullshit produces occurred a few years

back when a judge said that a woman, who'd been brutally raped, was 'asking for it' because she had been hitch-hiking on her own. Another excuse men make is to blame the woman for 'leading him on', 'laughing at me' or wearing 'revealing clothes'. The times i've heard this shite! If YOU'RE so screwed up that you cant control yourself if a woman wearing a short skirt thats your problem not hers. Do us all a favour and hang yourself. How would you like it if your wife, girlfriend, sister or mother was raped or assaulted because she was supposedly 'leading him on', 'laughing at him' or whatever the pathetic excuse? Where i work we've got one prick who'll read the papers and say that "rapists should be hung" and that he "cant understand them" and then he'll spend the rest of the day reading porno mags, shouting at women from the safety of his van, pinching womens asses etc.

Rape is not an isolated act, it is the last act in a long line of acts of violence against women: 'wolf whistles', leering, shouting sexist 'jokes', pinching, grabbing, forced kissing, forced touching, assaulting, forced intercourse. Every man is guilty some where along this line, and every woman has suffered somewhere along it also.

The blatant hypocrisy of those who exploit our ignorances and fears of each other (for their own ends) can be found in the pages of such rags as the SUN, where side by side you can have a picture of a model putting on a submissive, dumb

pose inviting you to say stuff like "I wouldn't mind giving her one", next to a shock, horror story of a rape. The other despicable trick the press play on us is to describe attacks on women as 'fondlings' 'touching up' and ultimately to rape as a 'sexual act'. The journalists who do such things are as guilty of rape as the rapists themselves and they must both be made to suffer the same fate-death. Rape and assault of women has NOTHING to do with sex. Rape is about DOMINATION. It is about men dominating women. This is why the two easiest sections of the female population, the old and young, are quite often the victims of the rapist. Why else do four month old baby girls and ninety year old pensioners get attacked? Rape is about men who take out their frustrations and to compensate for their own pathetic feelings of inferiority and attack women who they are told by the church, press and T.V are lower than them: wives, girlfriends, sisters or women who cant fight back, young girls and old women. IT HAS NOTHING TO DO WITH SEX!

The press, in its attempt to stay in control, describes anyone who is opposed to seeing women as sex objects for men to own, as 'prudes' and 'anti-sex'; and try to lump us all in with mentally unstable people like Mary Whitehouse and Barbara Cartland. There is nothing wrong with sex; there is nothing wrong with naked bodies, but there IS something wrong with presenting women as brainless pieces of meat for mens use. What upsets people like Whitehouse and Cartland is people having a good fuck, not sexism. In fact arseholes like these encourage sexism with all their puritanical and reactionary 'keep women in the kitchen' garbage.

This leads us onto my last point. Contrary to what most middle class feminists think, there can be no great union of 'sisters': between middle class and working class women because, despite all the hassles put upon them by working class men, working class women will, time and time again, stick with their menfolk rather than have to stomach the patronising insults from their so-called middle class 'sisters'. This is because middle class women can NEVER understand what it is to be a working class woman. The answer then for working class women in combatting sexism and woman hating lies in organising THEMSELVES with no help from ANY middle class do-gooders. It also relies on working class MEN to do something about it: from cutting down the amount of shit we force women to put up with, to physically stopping others who still think it's 'funny' and 'big' to hassle women.

" If somebody calls me Paki, I go to them and kick them in the teeth. I don't often get called names, but when I do I get really angry and hit them. There are some English people in our country and we don't go round calling them names."  
Ayesha Ahmad, aged 14.

Racism is one of the nastiest ways the ruling class keep us, the working class, divided. So the purpose of this article is to combat some of the lies spewed upon us daily in the papers, T.V, radio etc (all run by middle class people surprise, surprise). Now im not talking about organised racism in the form of National Front, etc; the only answer to nazi filth is stanley knives and iron bars. What im talking about is the crap forced down white working class peoples' throats that give rise to the most stupid and ignorant suspicions and prejudices against black working class people.

The biggest villains for blatant lying is papers like the SUN/MIRROR/STAR etc, who are continually telling us that black working class people are 'swamping this country of ours (?)' and 'living it up on the dole'. Well for starters we working class people have sweet fuck all say in the running of 'our' country anyway so we shouldn't be bothered whose coming in. Secondly this 'swamping' business is total lies because more people are leaving Britain than entering it. This fact alone, shows up the press for what a lying bunch of toerags they are when they say things like "its not the persons colour were worried about its just that this country is bursting at the seams". Thats funny i cant remember hearing a dickie-bird when all the white fascists got booted out of Rhodesia, and they all came running back to mother country with their tails between their legs. You wont hear nothing either when those who survive the forthcoming South African

revolution (hopefully not many!) come scuttling back to Britain in there thousands. Britain accepts middle class white nazis but will not accept working class blacks. This is, of course, due to the fact that Britain is owned and controlled by middle class fith, most of whom are white. As for "living it up on the dole" working class blacks lose whatever they do. If there unfortunate enough to be on the dole then there "bloody scroungers" (nothing is ever said about the biggest scroungers who get state handouts amounting to millions of pounds :THE ROYAL PARASITES). If on the other hand they work seven days of the week trying to make a measly profit in some poxy corner shop then there "tight-fisted", "money grabbing" or "taking our jobs". This last phrase 'taking our jobs'

is one of the favourites of tory fascists like Enoch Powell and groups like the National Front. What we should not forget is that during the sixties, when cheap labour was needed by the bosses and white working class people rightly told them to get lost and refused to do dirty jobs for crap money, slime like Powell brought over thousands and thousands of working class blacks from the West Indies to do it all for them. Promised everything but given nothing, these working class blacks were forced into the worst slums, treated like animals and expected to do all the jobs no one else would do. Its only now with massive unemployment that vermin like Powell is saying "send them back" and "taking our jobs".

Instead of putting those working class blacks into other working class areas the councils (all run by the middle class) forced them all into one area, always areas that were already decaying and the only whites left were those too poor to move out. This achieved the purpose it had been done for: to create suspicion and hatred in white areas and suspicion and paranoia in the black community.

With no access to any press, T.V or radio to defend itself the black communities were forced to listen to all sorts of lies stated about it by white middle class scum whose intentions it is to divide, and thereby rule the whole of the working class. ,white working class people, are daily informed (be it

KICK THE  
Racists Out

sneakily in the form of advertising, radio and films or blatantly in the so-called 'newspapers' etc) that black people are 'muggers', 'pimps', 'lazy', 'violent', 'white-hating', 'less intelligent' etc, etc. Exactly the same things that were said about the irish at the turn of the century, or the jews in nazi Germany; or any other minority group that a particular ruling class thinks it can use to divide its working class to achieve its own ends.

Next time you read a paper watch out for the way they describe the 'criminal': if the person responsible is black it will be the first thing they'll tell you (especially in rape and mugging cases) and they'll often put a big picture of the bloke/ woman; but if its a white person they'll just give his/hers age and occupation. This is done for the specific purpose of getting you, the reader, to hate blacks. Another tactic they use is to literally ignore racist attacks on blacks and instead concentrate on crimes committed by blacks, especially if that person happens to come from a 'riot' area like ST. Pauls, Tottenham, etc. This serves two purposes: firstly it tries to make you hate blacks and secondly it gives the impression that when there is class violence in those areas (ie riots) then everybody must be out mugging and raping white people. There are millions and millions of other examples.

# IRELANDS AYA TOLLAHS

"IN OUR LODGES, THE PLOUGHMAN IS AS IMPORTANT AS THE PEER, AND THE COMPANY DIRECTOR AS THE LABOURER. THE ENEMY WILL TRY TO SOW THE SEEDS OF CLASS WARFARE AND CREATE DIVISIONS WHICH HAVE NEVER EXISTED..." Belfast Grand Master of the Orange Order."

How can the Protestant working class believe such nonsense? While their Protestant bosses at the Belfast shipyards rake in their profits they strike for the right to fly union jacks. While their communities taste a tiny drop of the brutal policing Republicans have suffered for years. But there is no doubt that a large number of people do believe in Loyalism and will keep up their sectarian attacks on any Catholic at any time.

Yet there is nothing in it for the working class. They have seen their home city bit by bit, year by year closed down. The British bosses no longer need their shipyards. Those Tories who they pledge their support to have signed a pact with the Southern Irish state.

And it should be remembered that at times the Loyalists have turned their back on bigotry and united with Catholic and republican workers. But what stops them from leaving the Paisleys, Powells, Molyneaus and Robinsons? The most powerful weapon the loyalist politician has is the state in the south. They only have to point to a state of police and priests, where the bosses still rule, where they have green, white and gold flag but no abortions, no divorce. An economy as ravaged by British and American multinationals as the economy of the North.

The Loyalists have seen blood spilt and will not believe the Republicans when they say they oppose the Irish in the same way they oppose the British state. At the point when they can see that their leaders have been blinding them. At the point where working class Republicans stand uncompromisingly against the priests, politicians and bosses of the South. At that point we will be nearer the working class uprising that many of the Republicans have been fighting for over the years.

Only then will people see Paisley and his cronies for what they really are, Religious zealots fueled by religious hatred. Replace the situation and no doubt like Enoch Powell they'd hate on the basis of colour instead of which bible you read.

## 7 THINGS YOU NEVER KNEW ABOUT IRELAND

British soldiers have fought alongside Loyalist gunmen (U.V.F.) killing innocent civilians; eg. the Miami Showband Killings.

The British and Irish governments have both used internment (imprisonment without trial) against Republicans.

Ireland's greatest revolutionary, James Connolly was born in Edinburgh, Scotland of Irish working class parents. He married a Protestant.

Some of Ireland's greatest republicans were Protestants; eg. James Larkin.

In Southern Ireland, I.R.A. and Sinn Fein spokesmen and women are banned from the T.V. and radio.

In Britain most support for the Loyalists comes from Facist groups such as the National Front.

The son of one of Paisley's right-hand men (Major Bunting) died, unlike his ancestors, fighting for the cause of Irish freedom as a volunteer in I.N.L.A.

## LET US PREY

From an early age, I was taught,  
To be a catholic, a God fearing sort.  
Dragged off to church and made to see,  
That religious life would be the best for me.  
A convent education, confession every week,  
Programming me to be humble and meek.  
Finally I woke up and started to see,  
That there's no such thing as the 'almighty'.  
Religion is designed to keep the church rich,  
From nuns to priests, they all stake their pitch.  
These bastard parasites who think while they preach,  
That people will believe them and be led like sheep,  
While they swank around in big flash cars,  
These celibate dickheads with plenty of brass.  
The Pope is the big noise, he lays down the law,  
To keep the Church rich and the poor man poor.  
This creeping old git should be shot on sight,  
So come on, wake up and start to fight.  
Distribute all wealth, it's the only fair way  
For the stinking rich scum have had their day!

## SPY CATCHER

By far the worst thing to come out since Peter Wright brought out his book 'Spycatcher', which reveals all the secret activities of MI5, has been the pathetic whingeings by the millionaire socialist Tony Benn and the middle class left.

Tony and his public school chums are all upset by the fact that MI5 were planning to overthrow our 'great democracy' when Harold Wilson was in power. Where has this pillock been hiding for the last few decades? We KNOW that the 'great British democracy' is a pile of piss. Democracy is merely the choice of which senile middle class cretin you want to ruin your life for you; and do the work of the ruling class at the same time. We KNOW that Britain is a police state and that when it feels threatened the British ruling class and its (NOT OURS!) secret police the MI5 will take control (as did the nazi SS in Germany) to restore 'order'. We also KNOW that MI5, the police and army (all doing the dirty work of the ruling class) will if necessary to restore that 'order' (ie keep things running smoothly for the ruling class) shoot the very people it, at present, claims to represent (ie us mugs who pay for these scum). What Tony does forget to mention is that he and his left wing pals are members of that very same ruling class and when the time comes will use those very same people (ie MI5) he now criticises to smash the working class.

Now dont get me wrong were not a bunch of white,middle class liberals who can make excuses for muggers,rapists and murderers because they all live in "jolly NICE areas",where the only crime committed are things like pinching flowers from the local church. I am working class and i worry in case i get mugged or burgled etc.,.People who mug other working class people, or who put working class women on the street to make themselves money,or who burgle working class OAP's,or who rape women are scum who should be mashed up with iron bars and split open with stanley knives.....at the very least! But black muggers and black pimps are scum because their muggers and pimps NOT because their 'black';in the same way that white burglars and white

RACISM ARTICLE CONTINUED

massage parlour owners are scum because they're burglars and owners of massage parlours not because their 'white'.The skin colour is TOTALLY IRRELEVANT;but the owners of newspapers,the TV and radio are obviously not going to tell the truth.To them a black mugger is a 'black' and a white rapist is a rapist. When we are young colour doesn't come into it,friends are friends enemies are enemies.Its only later,after years of brainwashing that we become full of hatred.For those of us who ARN'T braindead yet its our job to combat racism wherever it appears:in school,on the streets,in our workplace or at home.Against us we have the newspapers,church,TV,radio,in fact every instrument of middle class power;but remember united as a class,WE THE WORKING CLASS ARE UNBEATABLE.

We can go on saying what a perfect life we'll all have once we've hung the last bureocrat with the guts of the last priest. Unless we have solutions for anti-social acts and ways of protecting ourselves and our communities NOW we might as well shut up.

Many communities have been successful in kicking out smack dealers from their areas, by warning them to leave or face the consequences and then backing it up with action- moving them by force! We can clear these parasites out. The same goes for everyone else who preys on our class,muggers,rapists,pimps,vandals. You can generally find out who these people are in your area and there are other ways in which people can make them stop; not having anything to do with them if you know them personally,flyposting photos of them round the street and just keeping an eye on them- the only thing wrong with the neighbourhood watch is the police.

## DEAR CLASS WAR

One of my friends had trouble with this man who kept coming round and leaning through her windows. It made her skin crawl and feel unsafe. So she told her neighbour about it and he'd done the same to her and she knew of other women in the street that it happened to. So they all go together and talked about it and what to do. What they did was that they sent a few of them round to talk to him and tell him not to do it. They also decided to keep more of a watch on each others flats and houses to see that everyone was alright. This is a good example of everyone sticking together and sorting out problems. It worked and we can use that way of looking after ourselves in other ways than just that. Whole streets,towns and countries could be and should be run in that way.

A letter from Coventry

## AIMS AND PRINCIPLES.

1. We want to destroy capitalism and its class system and replace them with a free and equal society where people have complete control over their own lives.
2. We believe that the most important division in this society is between the working class and the ruling class and its agents. We accept that it is sometimes difficult to see which side of this division people are, and to complicate things further, people may move from one side of it to the other, depending on changes in their personal situation or in society at large.
3. We are opposed to all forms of the state including so-called 'communist' states.
4. The struggle of the working class to seize control of the world from the ruling class and its agents will involve the use of violence. We support working class violence against the ruling class and its agents. We are opposed to elitist terrorist type actions as they are not an expression of ongoing class struggle.
5. We do not believe the working class needs leadership. We are totally hostile to the politicians, union bosses and 'Revolutionary Parties' who attempt to be working class 'leaders'. We are not trying to lead anybody anywhere. The purpose of CLASS WAR is to increase the revolutionary aspects of working class resistance by participation and communication as equals.
6. Dividing the working class by skin colour, sex or sexual preference, etc. is one of the main ways that the ruling class keeps us fighting amongst ourselves instead of against them. In creating a free society we must fight and destroy these divisions which the ruling class fosters within the working class.

## BYE BYE RUDOLF!

At the ripe old age of 93, Rudolf Hess, last of the Nazi barons has hung himself with a bit of flex. The only thing wrong with this is that he didn't do it 60 years ago. Meanwhile, if there are any other neo-nazi fuckwits who'd like to follow in their heroes footsteps, we'd be glad to oblige.

7. The CLASS WAR FEDERATION is open to all groups and individuals who agree with these aims and principles. We accept that these groups and individuals may have disagreements on other things.

The CLASS WAR CONFERENCE, which meets twice a year, will decide the policy of teh Federation. It will exclude any groups or individuals found to be acting against the 'Aims & Priciples'.

8. We accept that the CLASS WAR FEDERATION is not the only valid way of opposing the system. Other ways of organising will be more appropriate to other people. We will work with other working class groups when our struggles coincide.

# NEVER MIND THE BALLOT

national ballot falls short of strike action-it asks for industrial action. That's a complete waste of time." Steve Tulley (Frickley branch secretary of the N.U.M.)

## FROM PILLAR TO POST

Willis and his chums in Congress House may have bought the poison of NEW REALISM but rank and file workers have no choice but to fight.

Post Office workers have seen profits for their state bosses rise and rise. Till August this year they have a great record of Wildcat strikes, that is unofficial strikes. So while many other workers for state industries have been beaten back the Post Office workers held strong.

They were so successful that the departing chairman of the Post office paid them the highest compliment, by spending his last press conference moaning about them.

## MAKING LINKS

With workers time and time again freeing themselves from the shackles of the union, we have to look to the future. Already strikers from recent and current disputes have begun to make links. Attempts to link up the many disputes around Britain is a small but important step. Now we can't even rely on the T.U.C. for protection let alone to lead to some far off revolution.

After trade union sabotage at Frickley, at Arbrides, at Silentnight and at Wapping the working class has to face up to the new realism. The realism that we alone can and will fight and win.

"Yesterday's meeting of Frickley miners, however, was reported to be extremely heated and area officials like Mr Jack Taylor, the president, were given a hostile reception."

They changed the name to British Coal. They changed the boss. They introduced a new disciplinary code. They're pushing for a six day week. But the bosses forgot to break the miners and they never will.

At Frickley Colliery in South Yorkshire the workers acted fast when the management tried to use their new code of conduct. They walked out. In the week that followed most of the Yorkshire miners walked out. Then the union executive ordered them back.

The miners at Frickley stayed out in solidarity with the five men sacked. They picketed 11 other pits. In two cases pickets were hardly needed as nobody turned up for work that Monday morning.

The area executive talked about unity and tried to isolate the Frickley miners. They said they wouldn't have "the tail wagging the dog".

On the Tuesday the Frickley miners decided to go back and regroup for the future. The union had offered them no choice.

The myth of the N.U.M.'s 'militant' leadership fell those July days- with McGarchy talking of New Realism and supporting the six day week as he left- with the ballot being used to stifle rank and file action- with Scargill kept quiet so as not to harm his radical image (How was Cuba, Arthur?).

But the day is fast coming when rank and file miners will have to challenge their union and it's leadership OR face a six day week and victimisation of individual miners or whole pits because of their private and political life.

"The coal board's been spoiling for a fight. We've been kicked from pillar to post since the end of the strike...The

## docks

Dockers in Britain may be forced to take action in September. Employers are threatening to rip up the National Dock Labour Scheme. As one docker in Grimsby said, "If we give that up, we'll be back to the days of men coming down to the dock gates every night to beg for a job".

## coal

One of the latest of many ambushes on coal trains in the Cynon Valley, South Wales unfortunately failed. After the train was stopped by railway sleepers placed across the line, the railway police arrived before they could take the 100 tons of coal released from the wagons. Clashes with the police are continuing in the Yorkshire mining villages. In July there was a small riot in Stamford and the police station was again attacked and police attacked in the village. This is the second one since the end of the strike. Likewise there was a big assault on the police, their cars and the police station wrecked at Edlington at the end of July. hatred for the cops in the pit villages is still strong.

The scabs at wapping are learning the hard way. Just like Brookside, Billy Corkhill their learning that if you scab your way into a job you've got no guarantees. The leading scab Stephen Seaman has just resigned accusing the management of ignoring all their agreements.

The morning star bosses have engineered a Wapping style move out of Fleet St. The "communist" bosses now face industrial action by their workers to stop compulsory redundancies. No wonder Communist Party officials told their members to cross picket lines at Wapping. No doubt they wanted to see how new style macho management worked.

## THE TOURIST SEASON

Bath in the west country is a must for rich American and British tourists. It's good news that these pests have been receiving a lot of attention from local tramps.

They've taken to following them all over the town. One gent of the road is reported to go up to diners in posh restaurants and threaten to throw up on them unless they pay up.

There is an Anti Apartheid Demo in London on Sat. 24 October. It starts at 12 noon from the Embankment. Lets hope it's as good as '85.
