WHAT WE SAY

ONCE AGAIN, the people of the Soviet Union have showed that the only way to get results is to go out on the streets and fight for them.

In 1917 they rid themselves of Tsarist rule, only for the revolution to be hijacked by the Bolsheviks.

Now they are rising up again to rid themselves of the last of the Stalinists.

WHAT NOW?

So, what'll happen next in the Soviet Union?

We hope that unlike in the 1917 revolution, in this one the people do not allow a power-hungry minority to seize

THE DEATH OF STALINISM

control. No matter now "liberal" and "democratic" to pretend to be.

Surely one lesson that must be learned from the uprising in Eastern Europe is that yesterdays' reformers very

quickly become today bosses.

Like Lech Walesa, the Polish president, who rose up through workers' struggle to become the very boss that the Polish people set out to destroy.

The new leaders of the Soviet Union will dangle a carrot of prosperity and "freedom" to the people - Western style.

But as we know this is nothing more than a sick joke. The only prosperity capitalism can offer is for the privileged minority; and as for "freedom" this is just the paper freedom of the ballot box - the real

power will remain firmly in the state's hands.

The Soviet people have had a taste of people power - this has been the driving force behind these historical changes.

WE NEED NO LEADERS!

The sooner that they realise that the new leaders need them, **but that they don't need the leaders**, that's when people power will mean real change.

Real change to us, and real socialism (not the bureaucratic Party version) is the logical conclusion of people power.

What we mean by this is a grass-

roots revolution led and controlled by the masses, and not by some "revolutionary vanguard party" who claim to act on our behalf and know what we want.

Freedom won't come through a change of government, only through the removal of government.

People power doesn't just mean one-off demonstrations or toppling over statues - it means going all the way and taking control of society:

BY OURSELVES AND FOR OURSELVES.

HYPOCRITS

FROM THE comfort of their armchairs world leaders queued up to advise the Soviet people on how to fightback against the coup. But Maggie Thatchers statement; "the people should take to the streets" comes top of the pile, and must rank as one of the most snivelling pieces of stinking hypocrisy ever!

It's a very different story when ever people take to the streets in these leaders own back yards. Trafalgar Square rioters weren't praised for fighting back, nor are the people of Chapeltown, Soweto, or Belfast.

We wonder why ???

Quotes...

"You'll never live that long to see me resign" - GORBACHOV.

"The rumour is that Marshal Dmitri Yazov, the defence minister, has shot himself. If so he showed at last a realistic assessment of his future career" - FINANCIAL TIMES.

"Every miner still despises Thatcher for the way she sent hordes of baton-swinging police against us during the 1984-85 strike. She is the last person to tell Russian workers what to do." - A LETTER IN THE DAILY MIRROR.

OVER YOU GO - DZERZHINSKY TOPPLED

OVER AND OUT!

SOD SKATEBOARDING! The Soviet people have discovered a new craze - statue toppling!

No1 favorite target is the "father" of soviet society V.I. LENIN - He's "Top of the Pops" in the breakaway republics where outbreaks of this exiting new craze have been spotted in Riga, Vilnius and Tallinn.

Coming a close second is the founder of the KGB FELIX DZERHINSKY. He's "numero uno" with the Moscow crowds who gathered in their thousands to see him off!

Other new crazes include; "Hunt the KGB man" and one which we predict will soon sweep the nation; "Root out the corrupt, thieving Communist Party bureaucratic bastard".

CON TRICK

JUST AS the Tories are trying to con us into thinking that the recession is "nearly over". A report, just out, states that over 40% of people in Liverpool are officially "poor". 13% of families live on less than £3,000 a year and 20% live in damp homes. **DON'T BELIEVE THEIR SHITE!**

CHAMPAGNE SOCIALISTS?

COMING JUST after its £500 a plate dinner, the Labour Party is about to have a £300 a time bash in London. What next we wonder? *A marquee at Henley?*

SERVES HER RIGHT!

HAS MAGGIE gone paranoid? In an interview with *Newsweek* she compared the Kremlin Coup with her own fall from power! "I was betrayed by those I trusted" she whinged. She's also been dumped from the Tory Party conference and she's had to knock a whopping £80 grand from the asking price for her house. **Tough shit!**

CANDID CAMERA!

CHAPELTOWN IN LEEDS has had a long and noble tradition of fighting back, going back more than 10 years.

Recently, the police have been using the emergence of crack dealers to harass the community - particularly black youth. New, young cops drive around making

monkey noises. They've banned all blues parties (even setting up roadblocks to stop supplies).

They've also taken to firing blanks and a strange

"Whistling bullet" at small groups of people on the street! The bullet makes a high-pitched noise that hurts your ears and makes you get out of the way sharpish!

A few weeks ago, a rumour went round saying that an off-licence/video shop was being used by the cops for surveillance - and that the owner, Jyoti, was getting £500 a week to help the cops spy on the community. Some community-minded

youths went to ask the man what was going on - he denied everything and was left alone.

But as the youths were leaving the shop, they spotted a video cameraman on Jyoti's roof, filming them! *That was it!* The have-a-go heroes wrecked the shop and

ATTACKED: THE SHOP WERE IT ALL STARTED.

tried to smash through to the cops upstairs. When cop reinforcements arrived, there was one serious ruck; 100-odd people giving them a lesson in community relations!

But as well as fighting back the cops, the locals have to root out the anti-social crack dealers with their inter-dealer drug wars. There's more to a strong community than keeping the cops out - we have to fight anti-social crime too.

In Chapeltown they're making a start - BIG STYLE!

THE PICKLE-OMETER

NAMED AFTER THE MOST SEXIST, RACIST BASTARD JUDGE - PICKLES

THE NEWSDESK had so many racist, sexist, bigoted right-wing scum to wade through this issue that we were forced to give yet another joint award: *this time to our two "favourite" woman-hating Judges.*

ONE TWISTED EVIL BASTARD.

We first turn our hatred on Mr. 'Justice' Alliott, who, recently presiding over an Old Bailey rape trial gave rapist William Readings a **3 year** sentence for rape *when the minimum recommended is 5 years.*

This deranged bastard's reasoning is that the victim was "a common prostitute and a whore", so her "rights" are less because of her job.

We proudly offer Asshole Alliott "The Class War Gold Leaf Razor Blade Award" for his services to women. And if he won't cut out his lunatic tongue with it, we're such there's a big enough queues of people who'd gladly do it for him.

AND ANOTHER ONE.

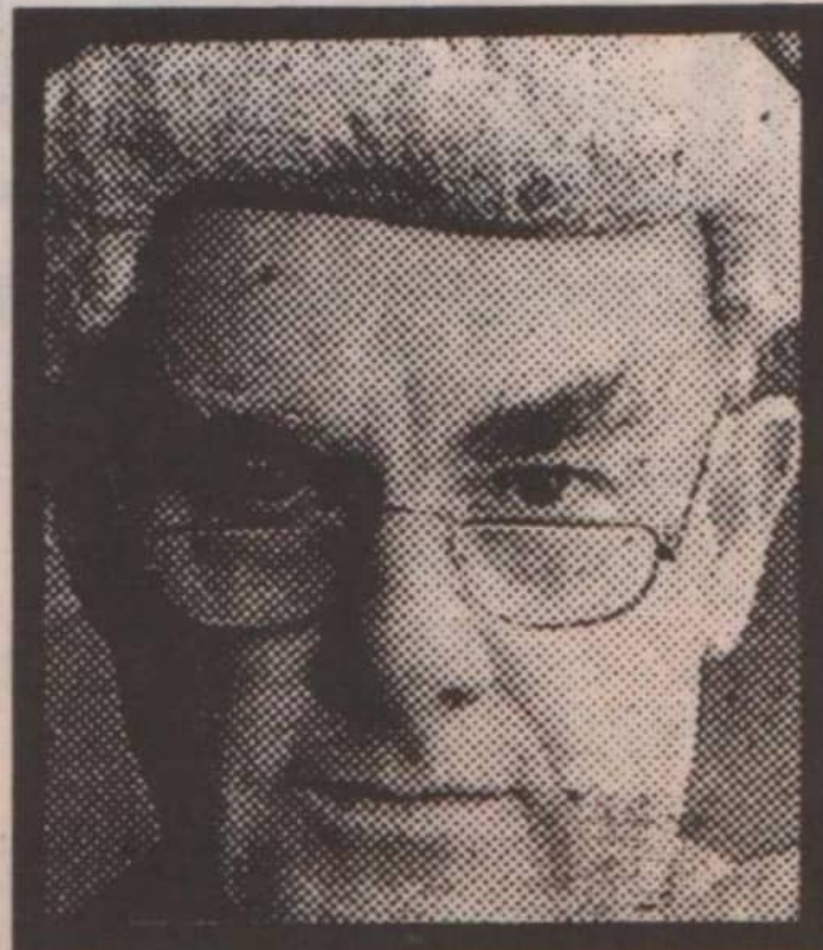

JUDGE PICKLES himself; *the very man we named the Pickleometer after.* And he's going to have to share the razor with Alliott.

Not content with the misery that his bigotry caused when he was 'on the bench', Pickles, now comfortably retired, writes a weekly column for the *Sun*, where he spouts more of his poisonous crap.

He tells us that *Women Against Rape and the English Collective of Prostitutes* are "wrong" to criticise Judge Alliott because:

"She was ready to sell her body. When one man took it by force, that can't be as serious as raping a complete stranger".

Judge Pickles once said that the Law Lords were "dinosaurs". Well we reckon he could do with being extinct himself. The sooner the better!

TELFORD: UPRISING!

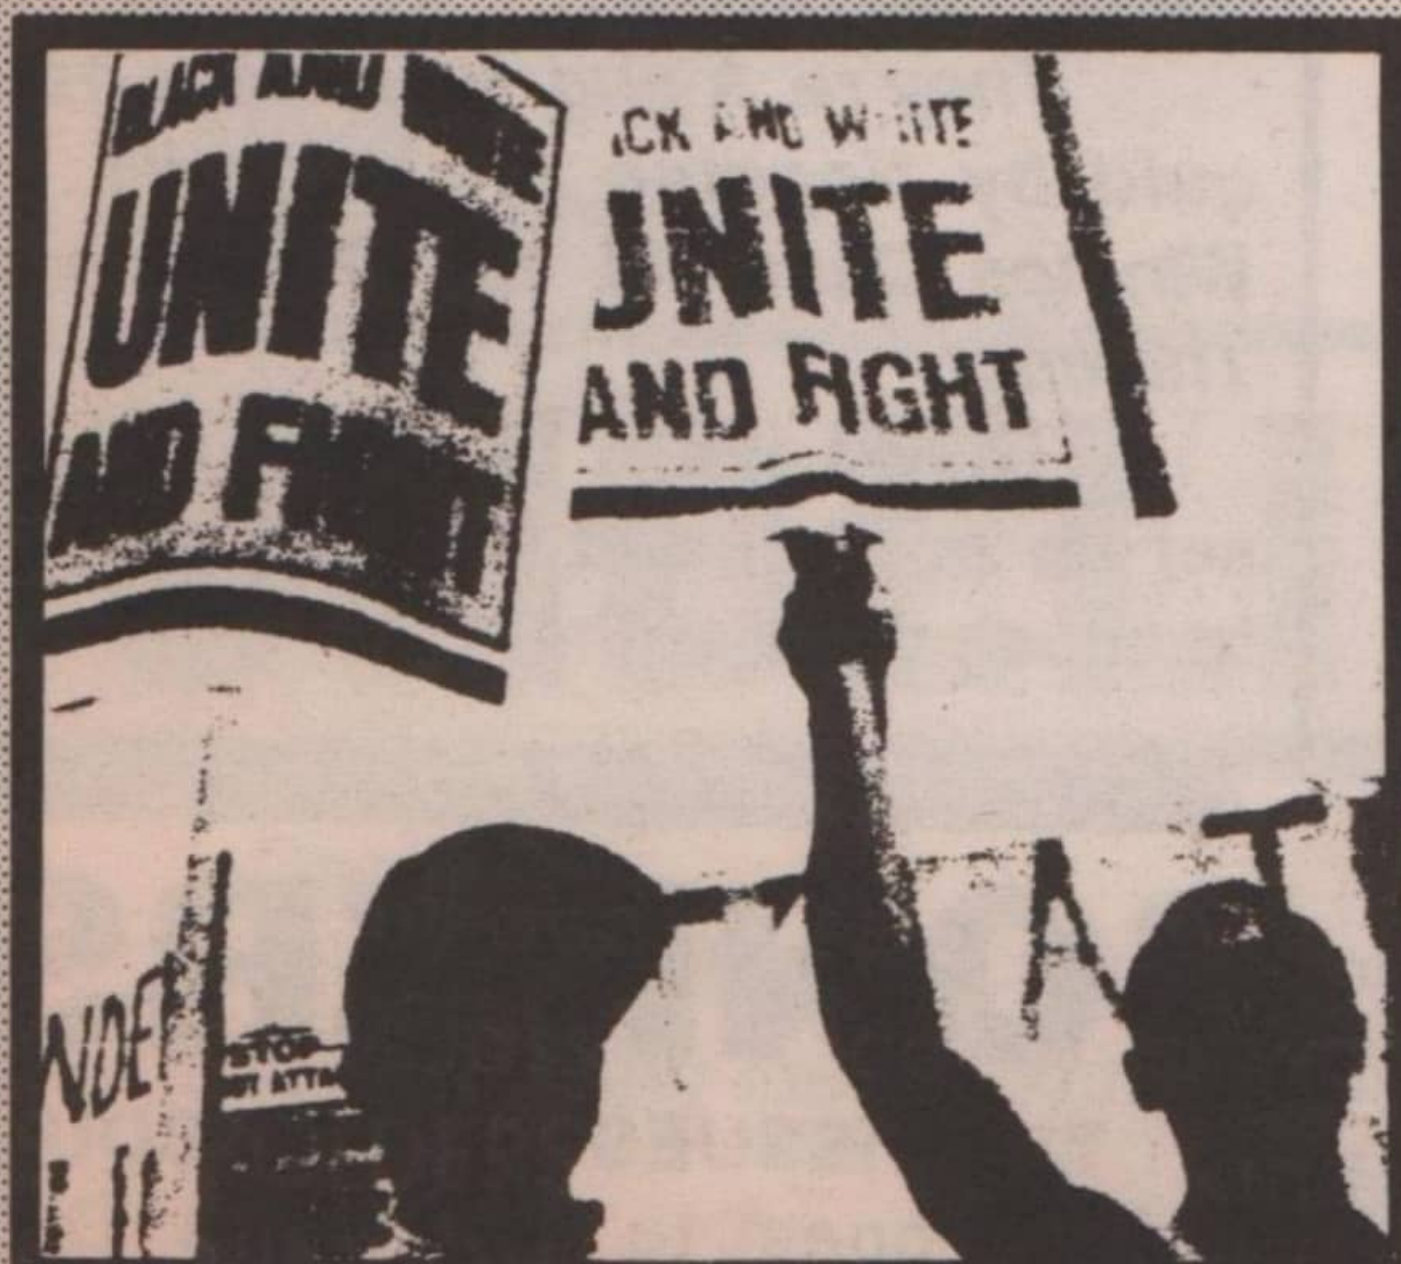

THE COPS in the town of Telford, Shropshire, have been taking a battering at the hands of local youths, in reprisal riots for the killing of Ian Gordon in early August.

Ian was involved in a 4 hour chase with West Mercia police, of which two of their marksmen murdered him for carrying an empty air-gun!

CLASHED

One eye-witness said she had heard Ian say "It's only a toy gun. It won't hurt you". The coppers said their action was in self-defence - even though they knew Ian well enough to know he had a history of mental problems, but was not dangerous.

The day after, local youths clashed with the old bill. Lobbing stones and setting their station on fire, resulting in one hospitalised copper.

The 4,000-strong black community are fighting back against years of racist policing: "They wanted to kill a nigger to teach us a lesson." One local said.

Now the boot's on the other foot as blacks, whites and asians fight back.

ONE SOLUTION RETRIBUTION!

THE COSEY RELATIONSHIP between Chief Buthelezi's Inkatha 'Freedom' Party and the South African government has been dubbed 'Inkathagate' by the media.

Inkatha received vast amounts of money from the Government to set up front organisations to try to divert black anger into reformism - not revolution.

Parallel to this, ex-cops have been crawling out of the woodwork to admit that the S.A security forces have been running death squads for years, to keep the black majority terrorised and in check.

STOOGES

Buthelezi has been a vital part of the S.African government's policy of divide and rule. This tries to split the black working class and so weaken the resistance against the government.

This involves a "dirty war" which has seriously set back unity within the masses. The bloodshed has been on both sides of this false divide, a division necessary for the ruling class to stay in power.

It is now a joke to try to conduct

'peaceful' negotiations when Inkatha and the S.A. government have been carrying out a war of attrition against ANC supporters.

But is this showing the ANC to be cowards? No: they've had a long tradition of fightback, with an active military wing.

But the fight has been on their terms, and not the black working class's, which they claim to represent. Their arming of black comrades has stopped short of a general arming of the population, which would be necessary for an insurrection.

RE-TYRE THE RULERS

The ANC enjoy a privilege, acting as mediators for the masses. And the South African ruling class know that the only way they can hold on to their power is if capitalism survives. If the working class in South Africa refuse to accept such 'peaceful' reforms, their anger will be unstoppable.

It's time to call a war a war, and fight it out. Nothing ever came from negotiations with the enemy.

SERVING THE SAME PAYMASTERS - INKATHA AND THE ARMY

NICE ONE!

PUB LANDLORDS, Colin and Hilary Gillard gave one good poke in the eye to their pub's owners, the huge multinational company, *Grand Met.*

When the pub went bankrupt, instead of just packing their bags and leaving, the couple threw one hell of a party: "Come and Say Goodbye to Us" read a banner outside.

FLOWING FREELY

Locals and regulars of the *Red Lion, Stoke Holy Cross, Norfolk*, were treated to an absolutely free 8-hour session.

Before *Grand Met* could get their hands on the pub fittings, barrels and booze, the party-goers had the lot, leaving their empties to be recycled!

Colin and Hilary "just disappeared" after all the fun was had.

Here's to more landlords like 'em, cheers!

IN THE SLAMMER

A SEVEN-YEAR old cub scout did the right thing when he was being shown around police cells at Neston, Wirral.

Cop Mike Harris was touring the cells with the scout group, when, quick as a flash, the boy slammed the door of a cell behind the PC, leaving him locked inside.

PC Harris had to radio another nick to get them to come and release him!

Another copper said: "Some of the kids thought it was very funny but Mike wasn't laughing."

Nice to see they're learning young, isn't it?

● AND WHILE we're on the subject rules are set to change to allow cops to grow their hair long, and to wear earrings. The orders have come down from the Home Office who are worried by the increasing number of attacks on off duty cops who are being easily recognised!

THE BATTLE CONTINUES...

SCOTLAND THE BRAVE!

STOP PRESS! As we go to print the latest figures for non-payment in Scotland have just been released.

They show that only a tiny 15% of poll tax due has been collected this year. The Convention of Scottish Local Authorities, who gave out the good news, is so worried that they are planning a nationwide advertising campaign to try to get people to pay. Well, we suppose they've got to try something, since the threat of

legal action clearly doesn't work!

These figures show that as time goes on more and more people stop paying as they see through the empty threats of the Local Councils.

It was Scotland that Thatcher choose as the testing ground for the poll tax, and on current form it will be Scotland that's also the burial ground for it!

Nice one folks!

PC LIAR

P.C. SHAUN "I tell whoppers" Carrebrown, had a bit of a shock in court over a poll tax riot trial.

Not only does the poor bastard have to fight the working class in onslaughts like the "Battle of Trafalgar", but now he stands accused of perjury for fabrication of evidence against a poll tax "rioter".

The lying bastard maintains: "I was only doing my job" We suggest he gives himself some summary justice - he should know enough about beating the shit out of people.

● BELOW IS a picture of Dora Coull who's council in Tunbridge Wells had jailed for not paying her poll tax.

Dora was taken from her house by the council's Finance Officer and carted off to Holloway Jail to serve 14 days that the magistrates had given her.

Public pressure was so great that she was soon released again, but not before the arrogant, smug magistrate who sent her down; Rennee Perring of 75 Bidborough Ridge, South Borough, Tunbridge Wells, said in the papers that she deserved it and she'd do it again!

We wonder what our readers think about that?

SMASHING!

POLL TAX house, Warrington Borough Council's imaginatively named Poll Tax headquarters, has been subjected to a campaign of direct action which has left the town hall bureaucrats in no doubt as to what locals think about them.

The display windows were smashed so often they had to fit shutters; paint has been thrown over the outside, and the latest attack was a determined attempt to burn down the building!

This came hot on the heels of a firebomb attack on the Town Hall itself!

SAME OLD SHITE

THE LABOUR SELL-OUT SPOKESMAN ON THE POLL TAX IS DAVID BLUNKETT.

He has recently been making noises in Parliament about the huge non-payment figures, and the fact that in Britain, non-payment amounts to £1,000 MILLION.

He says it shows how stupid and unworkable the poll tax is. We all knew that years ago! So is his Party rejoicing at this solid working class action? Are they fuck!

Labour councils continue to issue court summonses, liability orders, sending out bailiffs and sheriffs, and jailing people all over the place.

All over it's the same old story, Labour and Tory councils eagerly dragging non-payers through the courts. What this bunch of bureaucratic parasites are worried about is losing their cushy town hall jobs and positions of power.

They soon forget their "socialist principles" when it comes down to defending their cosy lifestyles and careers that are spent telling us all what to do and think.

PAY 'EM A VISIT!

DUE TO MASSIVE INTEREST IN direct action against not only bailiffs and Sheriffs' offices, but against bailiffs, Sheriffs, and their Council bosses at home. Class War is compiling a list of addresses.

We want them to understand that their actions will not be tolerated, and that they're not going to be safe, wherever they are.

If you know of any, bung 'em in to the post to us, and after we've checked them out, we'll print them!

"Community charge..."

WHILE NATIONAL government's in complete disarray over the tax, local government, our incompetent Local Councils, many of them Labour, keep doing their dirty work for them - WITH VERY LITTLE SUCCESS!

All over Britain, for every person 'visited', often totally illegally, by the bailiffs or Sheriffs, or jailed for non-payment, there are thousands more supporting these people and fighting back: in the courts, outside them and outside their homes.

Bailiffs are paid on commission - they get a percentage of the poll tax they collect - so little is being collected that many bailiff companies are slowly going bust, and some have had to pull out of areas due to active resistance from the community.

And well done to all those in Plymouth where we are proud to report that the Bailiffs responsible for collecting poll tax bills from non-payers have filed for bankruptcy

Let's hope that Messrs. Phillips of Ebrington Street are the beginning of a long list of poll tax bailiffs going out of business - **THERE'S LOTS OF EXCITING WAYS TO HELP THEM ON THEIR WAY...**

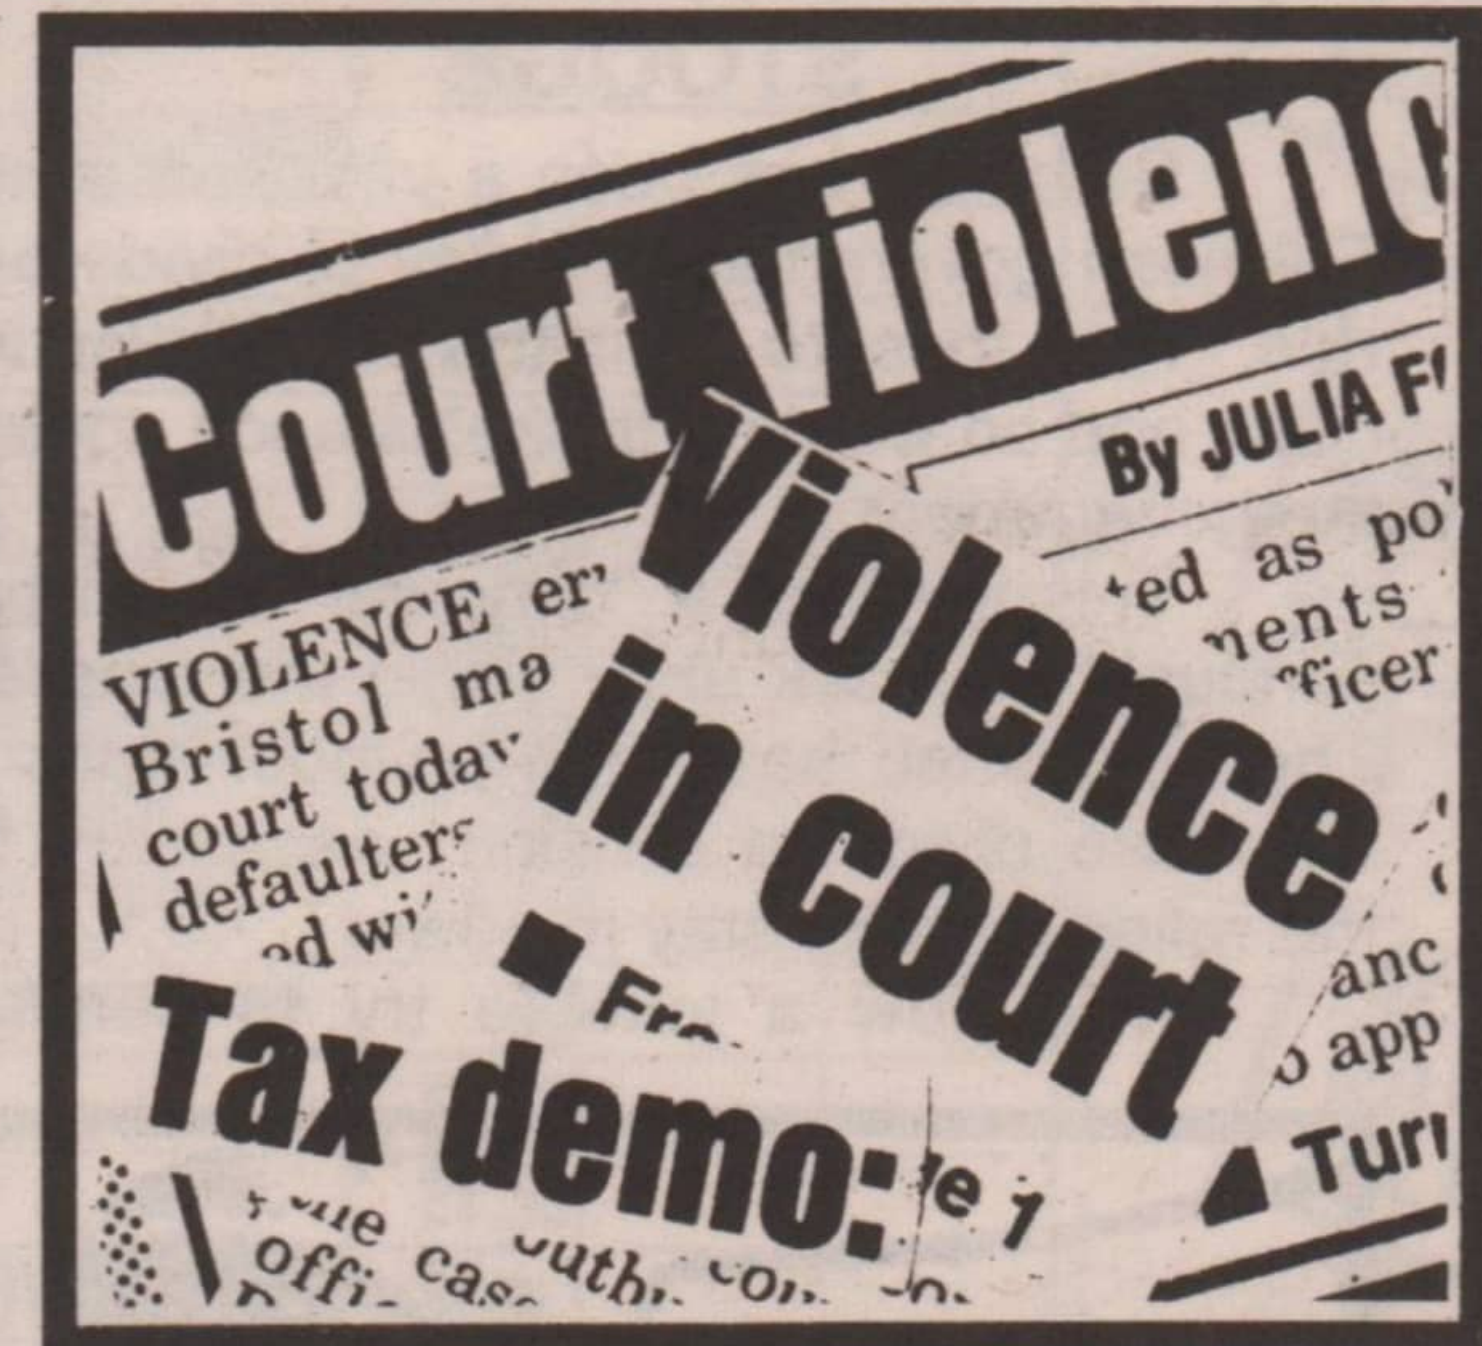

...into the courts!"

IN AUGUST, Bristol City Council started committal proceedings at Bristol Magistrates Court against non-payers.

The anger and frustration of supporters in the public gallery rose to fever pitch as the poll tax recovery officer attempted to humiliate the non-payers, forcing them to read out details of their finances in means-test hearings designed for maximum embarrassment.

Supporters heckled and abused the Magistrates, officers of the court, and poll tax recovery officials, as sentences were given.

They contained the full force of their anger until the last case was heard - So as not to prejudice the magistrates against any of the defendants.

LAST STRAW

The case of office worker, Helen Perlini was the last straw for the activists: she was left with £40 a week to feed, clothe, and pay the bills for herself and her son, after having to fork out for her mortgage, with high rates brought about by the recessionism.

Her offer to pay £1 a week wasn't good enough for the scumbag magistrates, who told her she must pay £10 per month, or face 60 days imprisonment.

The supporters decided to take no more of the bastard magistrates - a mini

riot started.

Rolled up paper was thrown at the bench, court documents were disturbed and torn up, and abuse hurled at the magistrates, coppers and court officials.

The three magistrates had to be led out from the court, and "order" was only restored when police reinforcements arrived.

When they did arrive the doors were blocked allowing all but two of the protestors to escape without arrest.

This was Bristol's first attempt at jailing non-payers, and things are sure to hot up if they continue.

CLOSING THEMSELVES DOWN

IN YORK a certain club is going down the drain because of the dreaded Uniform Business Rate (poll tax for business) But will York locals shed a tear? We think not!

It's the local Tory club. It's been running for 110 years, and now it's gone bust, thanks to their political superiors.

They're trying to raise a few quid by flogging off portraits of Winston Churchill, the Queen, and Thatcher.

They'd get a bit more if they set up a stall and charged people to chuck darts at them!

BONKERS!

THIS ISSUES BARMY COUNCIL AWARD goes to Wansdyke District Council, Avon.

These jokers sent in the bailiffs to a shopkeeper in Peasdown St. John, for a shortfall in his poll tax. What was this shortfall? £20, £10, £5? NO! 1p

Bailiffs EVEN sent them a nasty letter, and had the front to charge them £16 for it!

BATTERED!

"This was a completely unprovoked, sustained and senseless attack."

That's how West Midlands cops greeted the news that Supt. Roger Bagley was found on the street, in Tipton, well and truly battered, after a night out.

The brainless bobbies don't know what to make of the attack: they're publicly saying that the attack was unprovoked (*pull the other one, the bloke's a copper*).

But they also hinted at the truth - that although he was in plain clothes, he was recognised.

And he got exactly what was coming to him.

JOKE SPLASH!

Q. What's the difference between a Rottweiler and a social worker?

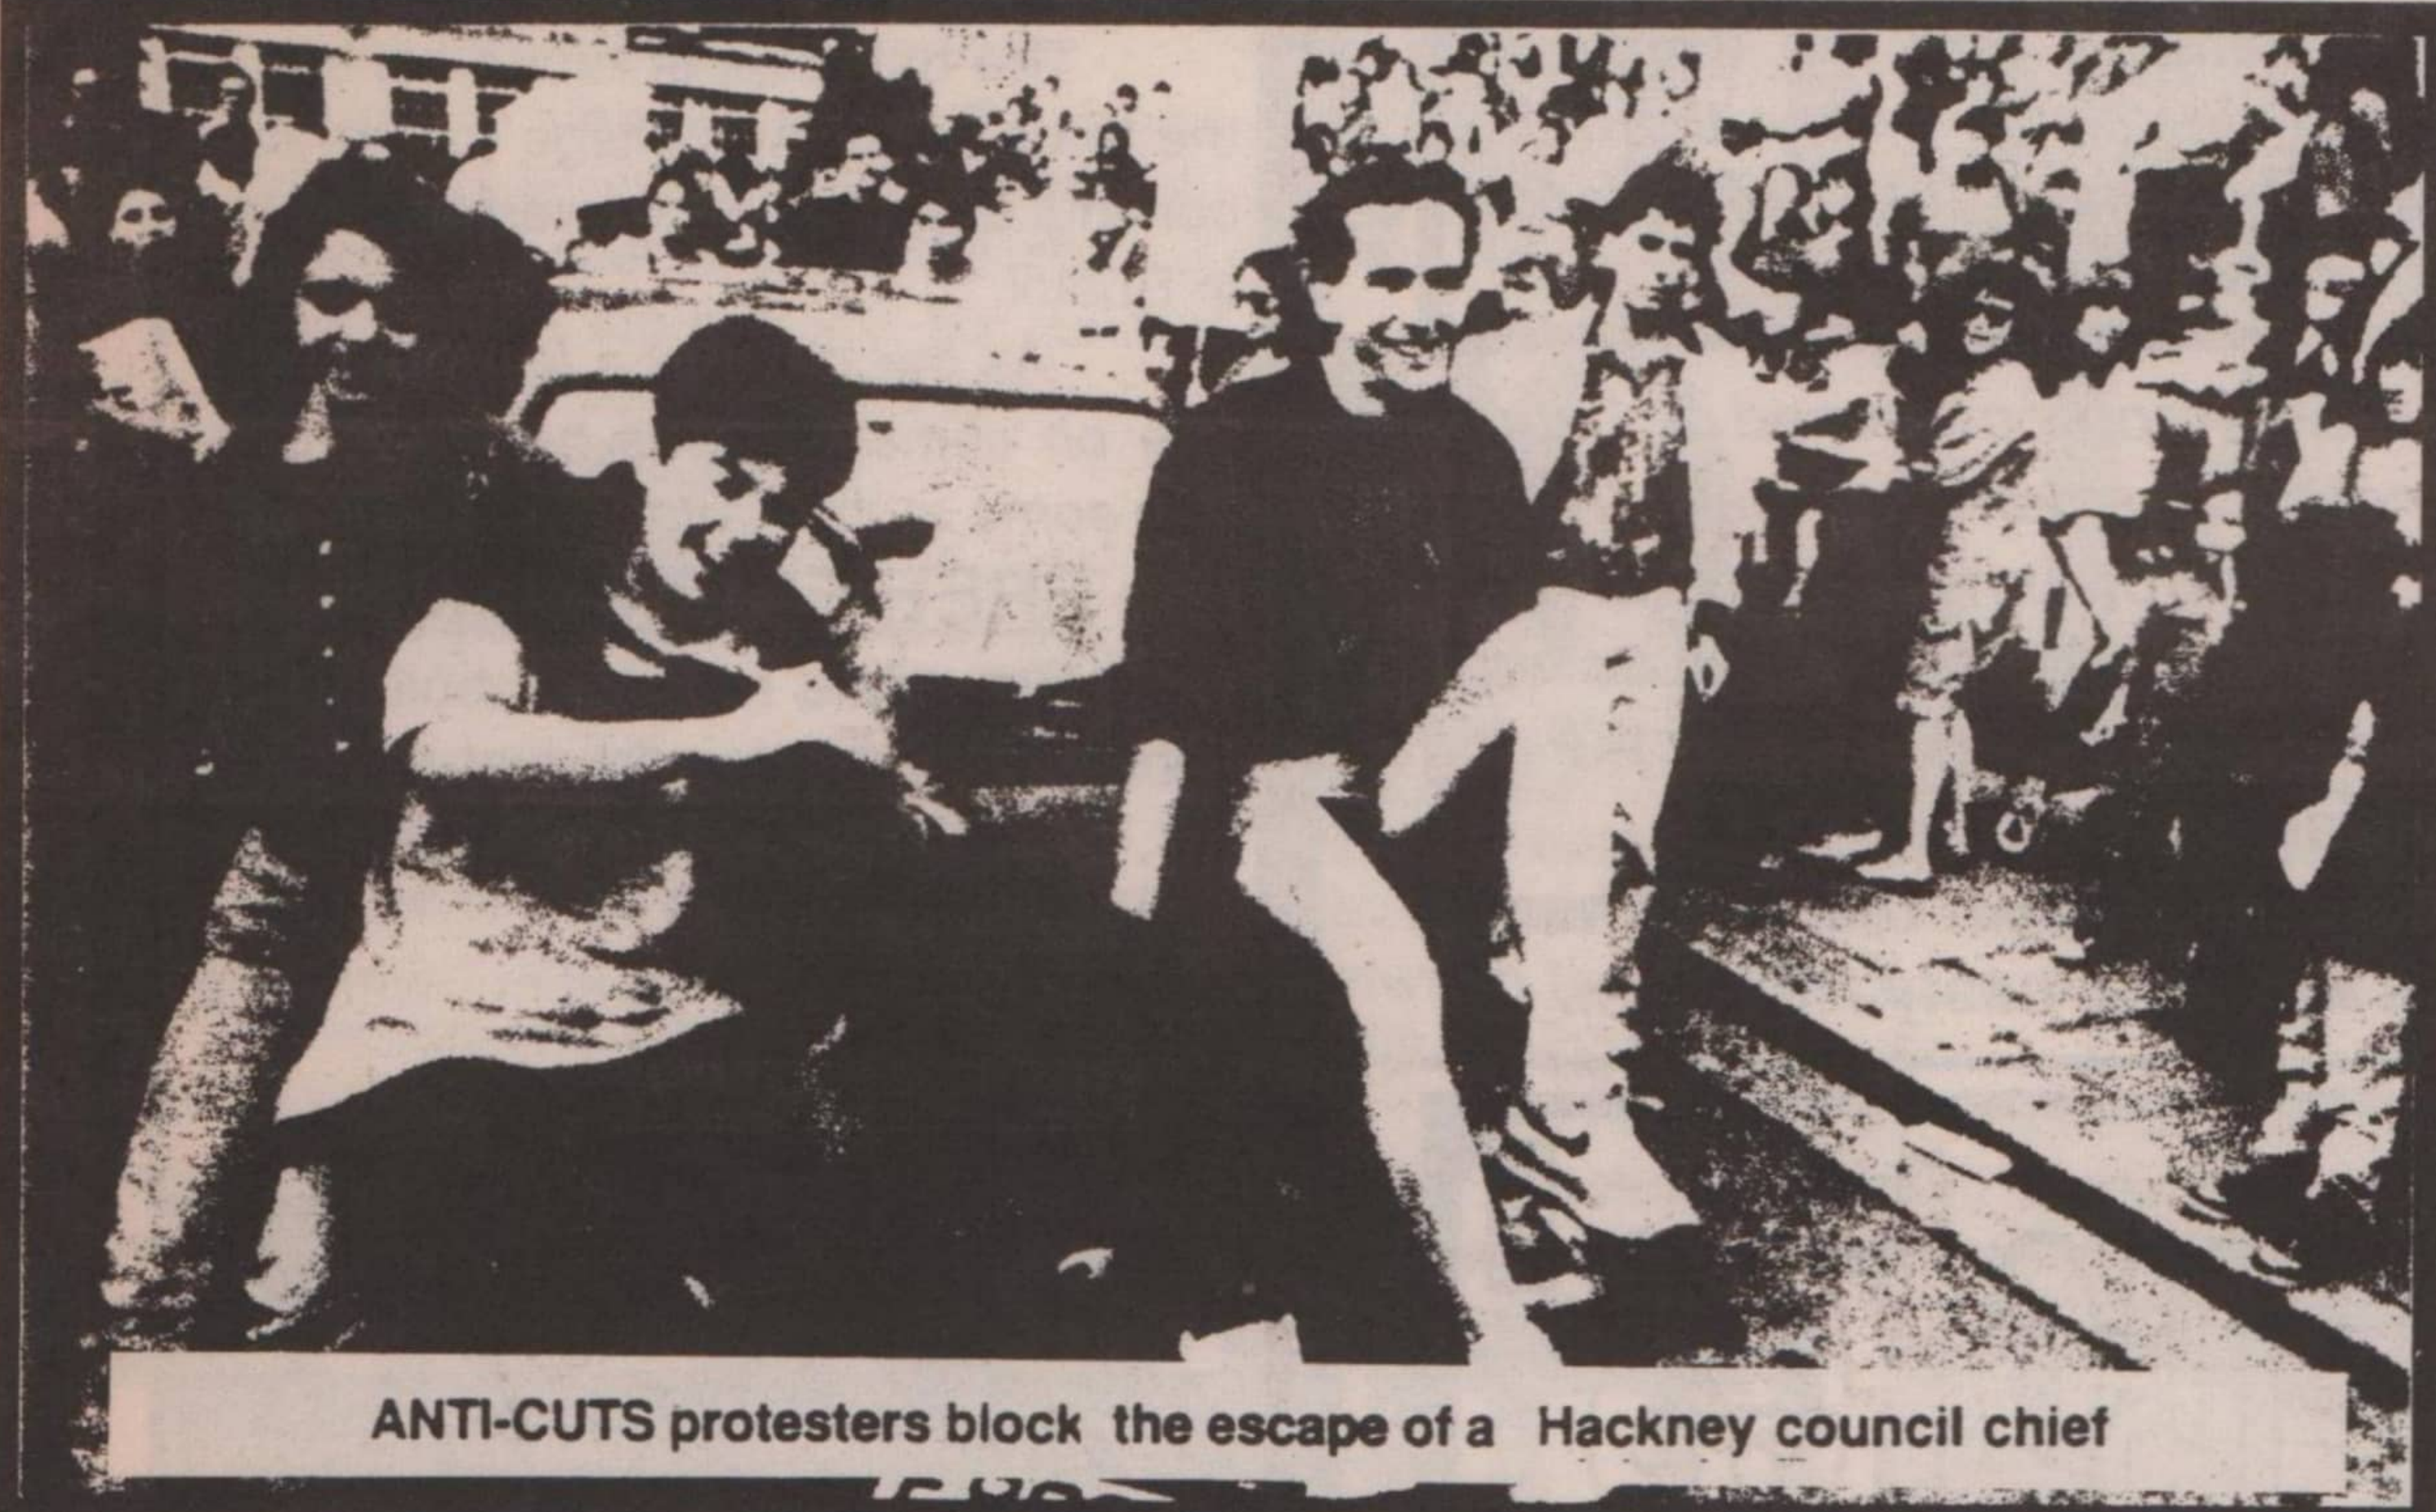

A. You can get your kids back from a Rottweiler!

STRIKE TWO!

HACKNEY COUNCIL in East London are not the Socialists they claim to be.

They're class traitors who are blaming the people of their Borough and their own workforce for THEIR financial crisis.

The Education Dept. has already had its budget slashed; there are plans to cut

ANTI-CUTS protesters block the escape of a Hackney council chief

the amount of teachers in Hackney's schools and other departments are to follow, say the Councillors and Directors.

Their penny-pinching and mismanagement of finances shows they don't really care about providing decent services, so they've created a smokescreen by blaming local residents and Council workers:

SHEER INCOMPETENCE

The Housing Benefits and Housing Depts. have seen many workers sacked and suspended on no grounds whatsoever as a result of fraud investigations.

They are being used as scapegoats for the management's sheer incompetence - to stop mistakes or fraud, all they have to do is employ enough people to do the job properly.

In the middle of a massive housing crisis, Hackney Council has 3000+ empty houses.

Instead of doing the logical thing and filling these homes with London's homeless,

BRICK SHAPE AND BRISTOL FASHION

ON BRISTOL'S SOUTHMEAD estate, kids learn young who their enemies are.

There has been an on/off war between Southmead youngsters and the Old Bill for years. During the last few summers, the cops have had a hard time just trying to keep the lid on it, and this summer is no different.

The latest flare-up was this July: Coppers tried to arrest a couple of joy riders on the estate.

When the cops went in to make their arrest, they got a touch more than they bargained for.

SERIOUS GRIEF

They found themselves surrounded by a mob of kids and a handful of adults, intent on giving them a taste of serious grief.

During the mini-riot that followed, one of the arrested escaped. But the people of

THE FAMILY THAT KICKS TOGETHER STICKS TOGETHER

Southmead didn't leave it there. The clash sparked two days of mini riots.

The battle raged with adults and their children, some under 10, stoning cops and hurling pig-seeking molotovs. The cops have not been the only target of the youth's anger. The local church was attacked and torched in a two day riot back in 1989.

WARNINGS

Not all the action was so healthy. Day to day violence is often directed against other local residents.

But directing our anger on anyone other than the real enemy confuses the issue. Too often it results in a series of tit

for tat reprisals which do nothing to further the struggle. The local plod have tried to play down the latest incidents.

They were obviously embarrassed at their inability to control local youth.

Community copper Sgt. Geof "I'm outta here" Williams admitted that when the police tried to make arrests: "It was like a magnet for the hardcore who hate authority."

While the cops are still there, to keep us in our place, long may that last, Geof.

Down Southmead way, everything is brick shape and Bristol fashion.

GAY OR STRAIGHT WE KNOW WHO WE HATE!

THE 'OUTRAGE' of the gay hating press in response to the HOAX threat by militant gay group FROCS was stinking media hypocrisy at its very worst.

FROCS threatened to mount an "outing" campaign to drag gay and lesbian celebrity figures, politicians etc. out of the closet.

The media earn their money by doing exactly the same type of scandal-mongering, yet they can't stand it when others try the same thing.

However it gave the gutter press an excuse - not that they usually need one - to give "queers" a good slagging off with comments like;

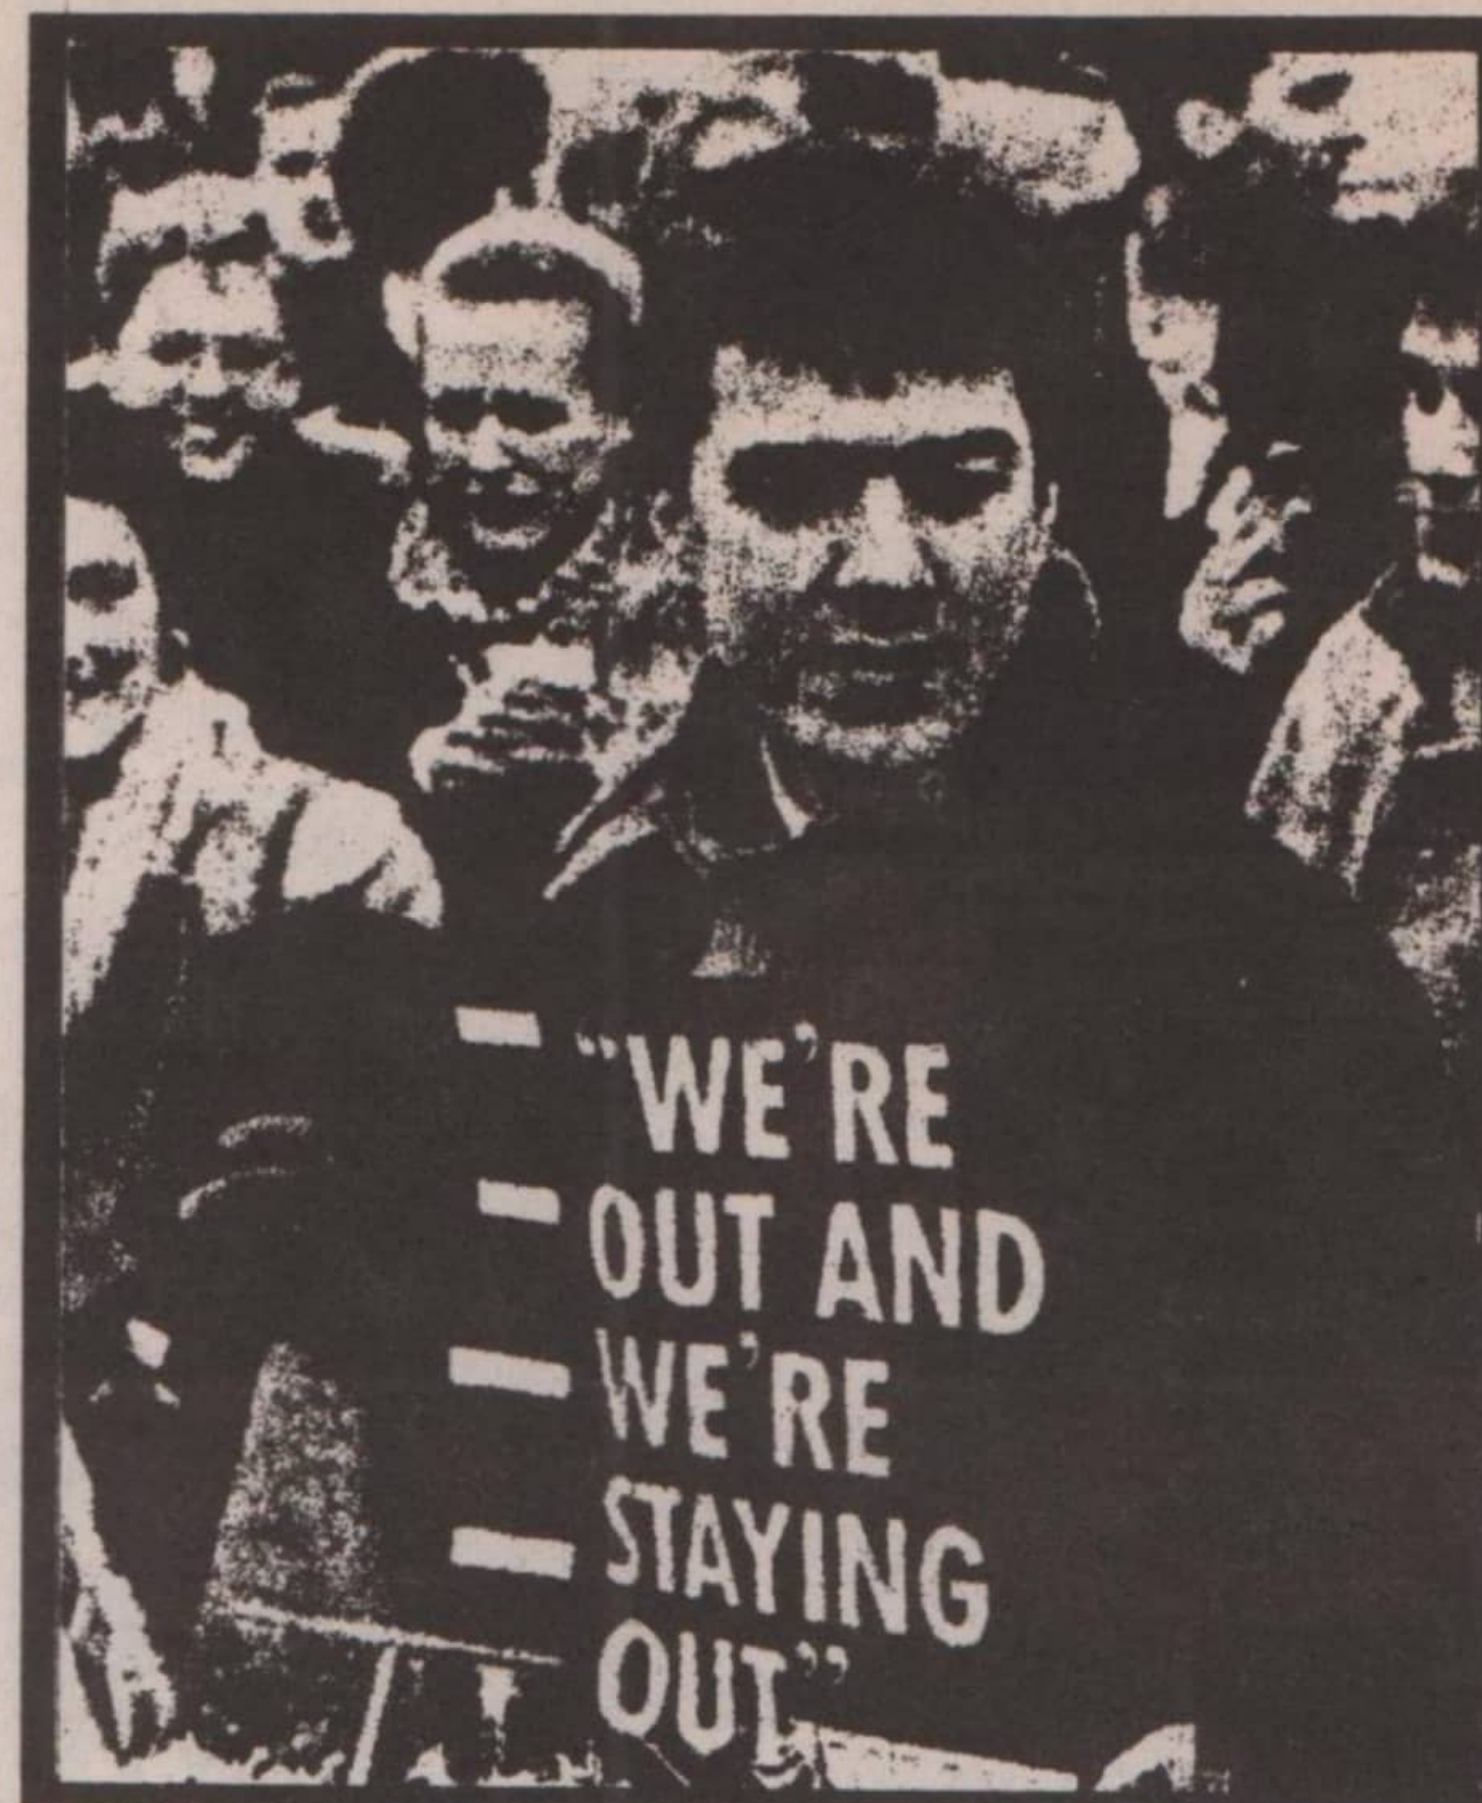

"We must be fair to gays. They did not choose their perverted condition - but their militant members ought to pipe down."

EXPOSED

Most people these days could not give a toss whether people are gay or straight. But there is still a small minority of twisted bigots.

People should be allowed to keep their private lives private.

But because of the misleading and hostile articles in the press, and the conditioning of people by the media, the church and the education system; many

lesbians and gays are intimidated into keeping quiet about their sexuality.

But some of the people who are the most anti-gay, including the MPs and Lords who voted in the recent series of anti-gay laws, are themselves homosexuals.

These are the hypocrites who should be exposed for what they are, ruling class treacherous scum.

FERGIE LEARNS "FUCK OFF, ROYAL PARASITE!" IN SIGN LANGUAGE!

THE DIRTY DUO!

TOP TORY HIGH-FLYERS, VIRGINIA AND PETER BOTTOMLEY, ARE NOTHING MORE THAN STINKING HYPOCRITES.

They're doing about as much for the Housing Crisis as the Pope does for contraception.

Plummy Peter, born with a silver spoon in his mouth, says proudly:

"We once even shared our own home with Asian exiles and one-parent families".

But for all their "charity", they aren't nothing more than a couple of indulgent, rich,

idle bastards.

DROP IN THE OCEAN

Virginia is the Health Minister, on a whopping £48,000 a year.

She's got the nerve to announce that a piddling £1million will be thinly-spread among FORTEEN inner-city areas across Britain, to go towards hostels for the teenage homeless.

This works out as a piddling £72,000 per area - a drop in the ocean that will go NOWHERE towards solving the problem.

The Bottomleys are swanning

UNHEALTHY MINISTER

about, buying their THIRD luxury home.

They already own a £400 THOUSAND residence in Surrey AND a family 'mansion' on the Isle of Wight.

But, still not content in their idle luxury, they're haggling for a £575,000 London town house!

The house even has 2 bathrooms, with "his and hers" bog seats, costing £300 - that's so we can flush 'em both down separately, I hope.

And at the same time, Virginia's preening her useless self, as the saviour of the homeless!

Her homes will soon outvalue the amount she's spending nationwide.

BRICK 'EM UP!

As the pair try to get the house price knocked down to £520,000, Peter whinges on that they're not hypocrites, as he's being attacked by housing campaigners.

Incidentally, Plonker Pete gets a mere £29 GRAND a year, poor bloke, how does he manage!

I only hope that their new den has structural damage, and the whole lot comes crashing down on them the first time they have they toff friends round to show off the place!

HORRIBLE

FERGIE thought that her thighs were so horrible she booked into the plush Grayshott Hall health farm in Surrey to get them "toned".

Being a bone idle royal parasite who spends most of her time holidaying and shopping, she had nothing better to do than to spend OUR money at a £1000 a night swankey mansion.

Well if Fergie is so keen to lose weight I've got a good way for her to lose 16 lbs of unwanted fat - **cut her fuckin' head off!**

Nicked!

MICHAEL HEDGES, the Assistant Chief Constable of Avon and Somerset, owned a turbo-powered Ford Escort.

The daft copper drove his car to the force's training college for up-and-coming cops, at Kingsweston House in Bristol.

As the chair of a large conference on crime, he was no doubt offering some authoritarian crap...

But, while he was rabbiting on, some enterprising individual stole the car, removed its wheels, seats, fittings and radio cassette.

When we're dealing with the enemy like Mike...

Crime certainly does pay!

However

when the person concerned is Labour MP and spokesman for health **Robin Cook**, the horror turns to humour.

The hungry rottweiler bit a hunk of his hand as he tried to throw the dog out of a family barbecue.

Let's all hope the dog hasn't caught anything nasty from him.

WATER BABY!

GASP, SHOCK HORROR - little Prince Willie nearly drowns.

Chance would be a fine thing - less of a burden for us all.

The Royal brat came off his jet ski in a Sardinian bay whilst on holiday with his parents - yes the Royal's own "happy couple" Charlie and Diana.

The accident happened on their 'second honeymoon', as the jet ski was too much for little Willie to handle. Bodyguards seemed unable to lend a hand - good on 'em!

SAVED!.. UNFORTUNATELY!

Diana looked on in horror as he fell into the water, and Charlie went to save his sprog.

It seems this has been just another accident in a long accident-prone record for this right-royal parasite.

He's already had a number of close flirtations with death on his bike; and was whacked on the head at school.

What next for our adventurous little Willie, rock climbing (without a rope); or parachuting (minus parachute); or deep-sea diving in SHARK-INFESTED WATERS! **Watch this space.**

INTERNATIONAL CONFERENCE

SHOREDITCH TOWN HALL EAST LONDON 23 - 28 SEPTEMBER

ANY TIME... ANY PLACE... ANYWHERE!

AN INTRODUCTION

FROM THE 23rd to the 28th September, 1991, CLASS WAR FEDERATION, will be holding our much-awaited INTERNATIONAL CONFERENCE, "OUR TIME HAS COME", in Hackney, East London - as if you didn't know already!

BUZZING!

The London papers have been buzzing about it for some time. *The national papers have picked up on the event as well.* It's stirring up a fair bit of interest.

And maybe a few eyebrows raised and an increase in the heart-beats of those 'powers-that-be'? *Who knows? But what we do know is that you will not be disappointed.* A lot of hard graft has gone into this conference:

No easy task getting something as large and as ambitious as this together - but we think our efforts will be paid back A THOUSAND FOLD in political development

By the coming together of many European and International comrades - to discuss, debate, inform and exchange ideas and experiences from our respective countries and movements.

YOU MAY have been wondering, why 'Britain's Most Unruly Tabloid' is organising an International/European conference.

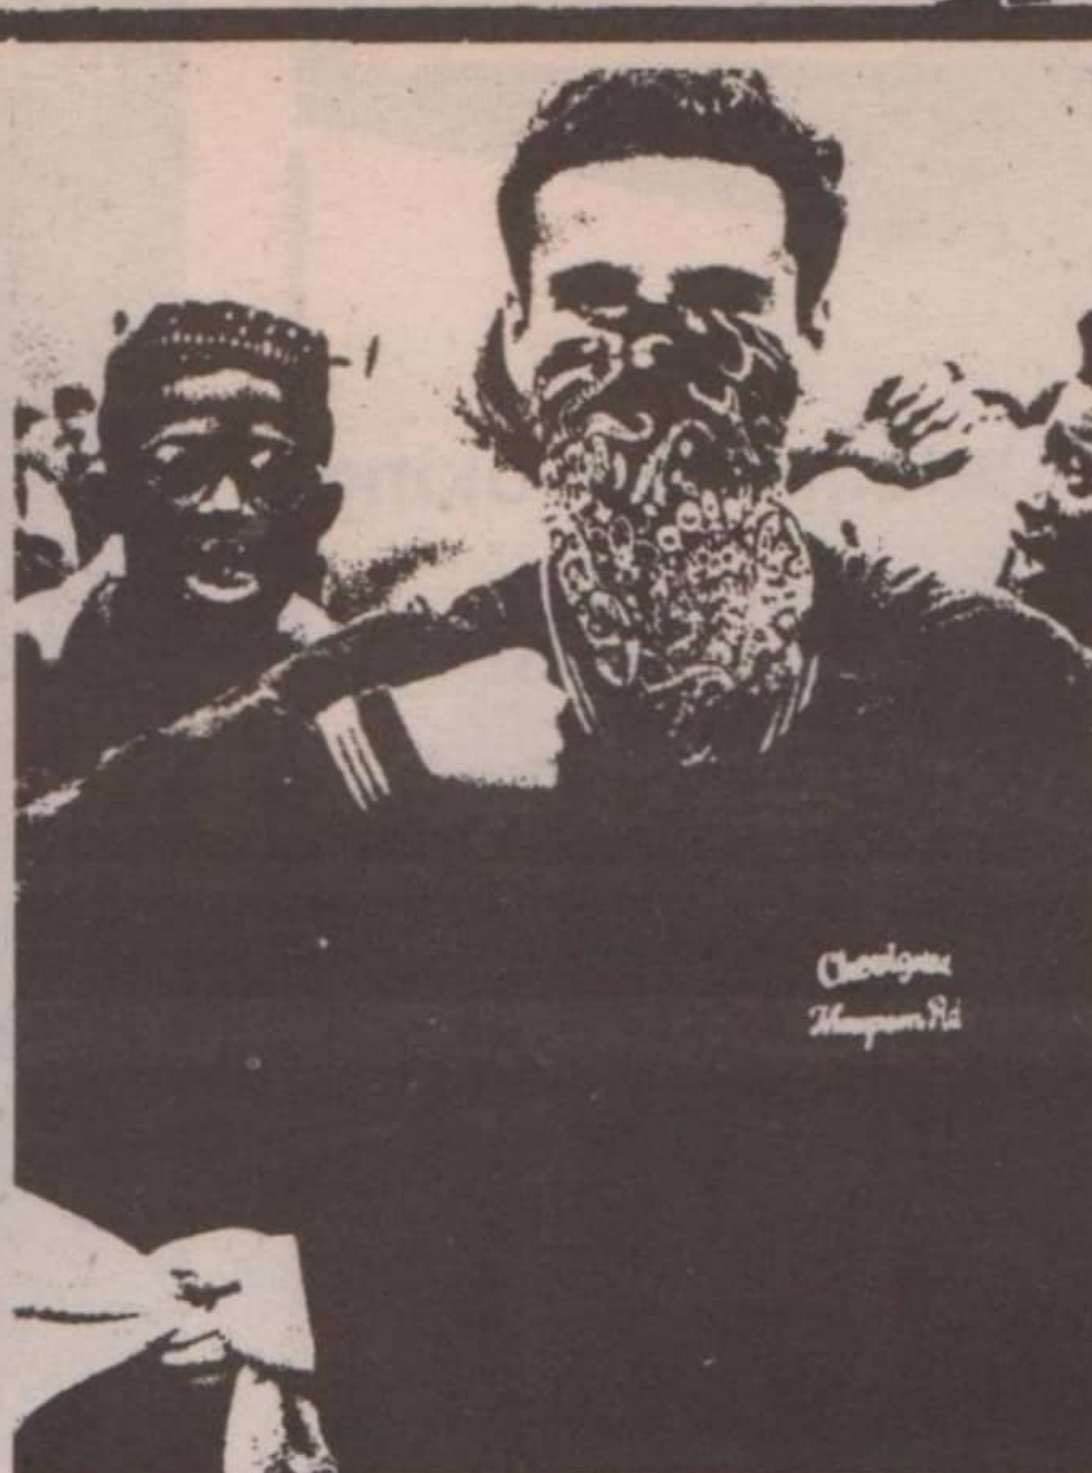

Well, we're a lot than more than just a paper: we are a growing political organisation which is getting bigger than ever before, and has come on leaps and bounds nationally.

Internationally we have parallel Class War groups in a number of different countries. **But this is not nearly enough.**

We decided the time had come to go beyond our boundaries of our borders and collaborate with activists like ourselves, who are already 'Doing the Business' all over Europe.

LONDON

PARIS

NEW YORK

MUNICH

LESS OF A CONFERENCE... MORE OF A THREAT TO THE NEW WORLD ORDER!

COMING OF AGE

Our type of politics had come of age. When socialist parties all over the shop were debating whether 'socialism was dead', our style of politics is alive and kicking, back with vengeance.

The Euro-Mob the authorities fear is gaining momentum.

The fightback on the streets of Europe has brought the new hope and vision of a political force in Europe, which makes it's own agenda; which has its own style of politics which is so repugnant to our ruling classes and their lackeys, because **IT'S SO THREATENING!**

In Britain we saw European allies come all the way from their countries to go on our anti-poll tax demos.

Demos were also organised in their countries, in solidarity. Such is the commitment of people on the Continent.

NEW TIMES

There have been a lot of changes in recent years; from the 'new world order', 'united Germany', the disintegrating Stalinist regimes in East Europe and the 'thawing of the cold war', and, as we go to print, the power games being played in Russia and the Soviet Union.

CHANGES THAT MATTER

But for us there are other more important changes, more important for our struggle than those mentioned above.

It is in the change of mood on the ground and in the streets.

A more militant mood, fresh with confidence and hope. A more sussed attitude which will **NOT** be so easily-led down the garden path as we have been in the past. **Where does this come from** - immigrants, communities, workers and youth.

NO MORE ISOLATION!

British people have traditionally been more isolated from their counterparts on the continent - **WE MUST RISE TO THE CHALLENGE OF 1992**, as more and more our enemies become the same; so must **OUR STRUGGLE AGAINST THEM.**

What we hope to come out of this conference, is a more direct and dynamic organisation of our struggle, so we can crush the obstacles placed in front of us by our rulers.

COMMUNICATION!

For this we need constant communication, the ability to co-ordinate campaigns throughout our continent and beyond.

We can learn from our experiences, our weaknesses and strengths, even our differences. We have so much potential, we can leave the lefty parties standing.

Class War Federation is a part of this new dynamic movement - and this International Conference is the beginning of a new chapter in European, co-ordinated fightback.

WE'VE GOT THE POWER!

"OUR TIME

BREAKING THE CHAINS!

KICK OVER THE STATUES!

WHAT'S IN STORE?

THIS IS OUR AGENDA

As you can see the agenda is packed with lots of thought-provoking topics, workshops and interesting debates.

It covers wide and diverse subjects, but we see these as fundamental questions which need addressing in some way.

MORNINGS

The morning sessions will be conducted in the form of various speakers addressing the assembly of the conference. We hope that speakers will stimulate and kick-start the brain into gear for the whole day.

What better way to start the day - well worth getting up for!

AFTERNOONS

Afternoon sessions will be conducted through a number of workshop topics each day - relating to the morning sessions.

There will be nine to ten workshop groups each afternoon trying to work through the various topics for that day.

OUR OWN AGENDA...OUR OWN PACE

A lot to get through, yes, but not to worry: each group will work at their own pace to ensure that good debates flourish throughout the week.

The conference organisers will also take minutes/notes from each workshop, and these will be typed up and available for conference attendees.

Fringe meetings will also complement the main agenda and will cover a range of subjects from poll tax prisoner support, revolutionary culture through green politics to political football.

So there you have it - looks like there'll be something for everyone.

GROWING...

THE CLASS WAR FEDERATION, the organisation behind our anger, is committed to playing its part in destroying the sick capitalist system, and creating a bright new world - before it's too late.

The international conference we have organised is one of a series taking place this summer around Europe and beyond.

These events have brought together a large number of different libertarian/ autonomous/ anarchist/ communist revolutionary groups and individuals, to discuss and to debate, to criticise constructively, and to share political experiences.

TOGETHER!

Together, we are all part of a growing movement, one that is free from the lies of Leninism, Stalinism, and would-be Leaders.

A movement that has rejected the stupidity, and futility of a society where we are slaves to the money system, divided up along the lines of nationality, race, colour, sex, and sexuality.

and to find out where we go next.

In Britain, after twelve years of Tory misery, when the only alternatives we're offered are the "nice capitalists" of the Labour Party, or the latter-day Stalins of the ultra-left, we need to spread the ideas of this movement more than ever.

PREPARATIONS

Next year, we face a united Europe, which for the ruling class means an opportunity to get even richer at our expense. If they have their way we shall be united only in our poverty, and our misery, in our low wages, decrepit homes, and lack of rights.

We must prepare for the Class War now! We say to Major, Bush, Mitterand, Kohl, Gorbachev and the rest of the ruling class scum, that we won't take this crap any longer.

WE WON'T SIT BACK!

That we won't sit back passively while they plunder and destroy our world, and our lives. Their system has had over 200 years to get it right, and they have conclusively failed.

They have failed themselves and they are unable to buy us off with their impossible promises - the events in Russia and the Soviet Union, over recent weeks, have made that very clear.

NOW IT IS OUR TURN.

The growing movement we are a part of is obviously the only sensible alternative left.

You know it makes sense!

Our movement seeks to build on its desire for international solidarity and collective action, ready for the mass international working class insurrection that will remove our chains forever.

THE RALLY

The International rally will be a celebration of what has been learnt, and gained during the conference. You are invited to come and hear the basic politics of this growing international movement,

The message from this rally to the ruling class of Europe and beyond is CLEAR:

**YOUR TIME IS UP
OUR TIME HAS COME**

KICKING MORALITY INTO TOUCH!

AFTER RECEIVING Pat's and other letters on abortion (see page 13) we felt it was time that we stated our views on abortion.

It's obvious that some people are very confused about the issue, and thus on women's rights. To argue that abortion can be seen as working class exploitation is simply resorting to the emotional blackmail of SPUC (Society for the protection of the unborn child), and LIFE.

The writer has resorted to the idea of embryo as human life/baby. This makes us very angry - is s/he accusing millions of women of murder because we went through the unpleasant experience of abortion?

Groups like SPUC repeatedly use this tactic, trying to terrorise women out of making a decision that's the right one for them.

FOUL TACTICS

Typical of their foul tactics is showing films with pictures of well formed aborted fetuses, crying out. This RARELY happens. They constantly refer to the embryo as a baby which automatically attaches a whole range of feelings and consciousness to what is really only a well-organised collection of cells.

We refuse to get involved in the debate over time limits. This directly implies that women can't be trusted to make a decision for themselves: **RUBBISH!**

No woman makes such a decision lightly: it's a highly distressing experience for anyone to go through.

NO CASUAL DECISION!

Women do not casually decide to get rid of a baby at 4 months because they're

bored of being pregnant.

There's a possibility of malformations which make late abortions necessary, as these are often not discovered until much later in the pregnancy.

Another view of anti abortionists is that you don't value children's lives if

you support abortion ... BOLLOCKS!

Women with children who they love very much, are absolutely in favour of the woman's right to choose whether she wants a child. *The letter on page 13 argues that in a nice anarchist society all babies will be valued and wanted.*

They won't! Some women simply don't want any children. And some don't want to go through pregnancy and labour to give it to someone else either. Some women don't want more children than they've already got.

In an ideal society women wouldn't churn out babies, they'd be free to decide

how many they want.

And as for saving working class babies but not others? ... *"Sorry, it's a working class embryo, you have to keep it!"*: what crap is that?

THERE IS A CLASS ISSUE at stake; Rich women can afford to get their abortions done privately and have the best medical treatment available.

Most importantly they can have it done quickly which can help lessen the emotional and physical trauma. Working class women have no choice but to go to NHS clinics or go through the rigmarole of borrowing money they don't have, to go private.

Some NHS clinics have a very positive record on abortion, but this is not always the case.

Often when you get there you are patronised, treated as having behaved irresponsibly and sometimes even treated callously.

CONTRACEPTION

Many just don't want to have babies, yet it's virtually impossible for women (and men) to get sterilised under the age of 30 on the NHS. Also with no totally reliable form of contraception available to women what are we supposed to do if we get

pregnant?

The reason why you take precautions in the first place is to avoid getting pregnant and to enjoy sex without the worry of it!

But then that's the problem for a lot of bigots: We're not even supposed to enjoy sex. You should only have sex to have babies and be married!

Class War think that it's a woman's right to choose whether she wants to terminate her pregnancy. If this sticks in your throat, TOUGH!

91 YEARS OLD AND STILL GOT HER OWN TEETH ...FOR THE MOMENT!!

IS HE taking the piss or what? "In celebration" of the Queen Mother not popping her clogs and actually making it to 91 years old, her snivelling, bearded co-royal, Prince Michael of Kent has launched a huge £1 million appeal to put up a "Queen Mother's Gate" in London's Hyde Park!

The idea is that all us "loyal" citizens should cough up a quid each for a stamp, and send it on a specially printed card to the old crone. The stamps will be cashed and the gate will be put up next Easter.

FORK OUT!

How the bearded bastard has the cheek to even propose the idea in the first place is a mystery. We live in an age when for ordinary people to make it to 91 would be a miracle. Every year hundreds of pensioners die of hyperthermia, too skint to heat their homes and eat properly.

The health of ordinary working people is deteriorating at an incredible rate, malnutrition, illness and the dire poverty

IT'S A FUNNY OLD WORLD

EAT ON YER FEET!

CLASS CONSCIOUS restaurant employees working near the Swedish Parliament have banned politicians from eating there!

This is an excellent stand against new taxes on employer-subsidised food for workers. The restaurant workers' example is as wholesome as mums' apple pie:

"MPs - you are not welcome. You forced 1.2 million people to eat from lunch boxes. You should live by your example."

FRENCH FIGHTBACK

THE HARKIS, (former Algerians who sided with France in the Algerian War of Independence), have left it hard for their kids:

After the war, they were given refuge in Southern France.

BUT...30 years later, their children have had the worst of both worlds: not free to return to Algeria, they face poverty and racism at the hands of French racists.

No surprise then that the Harki youth have been out in the streets of S.France, in full rebellion against this prejudice and racism.

As the Harki youth fight back and struggle for their future, it just shows the stupidity of allowing OUR world to be divided on national and racial lines.

CIAO!

COLONEL GADAFY is thinking about the ice cream on the cake:

Because Libya used to be an Italian colony, Mad Cap Gadafy is claiming Italian citizenship and wants to run for the presidency of Italy.

We doubt if he'd do a worse job than any other corrupt, ruling class politician. **At least he'd make European politics more amusing.**

DOWN UNDER & INSIDE!

QUEENSLAND'S TOP COP, Sir Terence 'CS Gas' Lewis has just got 15 years inside for corruption.

Terry, a good mate of Sir John Petersen, leader of the deposed right wing National Party government, just can't wait for the justice he'll receive from all the prisoners he helped to put inside.

Even better news is that 3 former Australian cabinet ministers are already inside, and they may soon be joined by the pus-boil Petersen, also up on corruption charges.

Just goes to show you: cops and politicians stick together, wherever they are!

MUCK SPREADER

SPREADING THE DIRT ON THE GREEN FRONT

DON'T SWALLOW IT!

It came as no surprise to most people recently, when the bosses of the new water companies announced that they were giving themselves a pay rise.

Despite being given a free hand through the Government's privatisation fetish, so greedy were these scumbags and so enormous their pay increases, that even the Tories felt hard done by!

BIG BUCKS

While bastards like John Elfed Jones (Welsh Water), Michael Hoffman (Thames), and Nicholas Hood (Wessex) got Rises of up to 383%! putting them in the £100 to £160 THOUSAND pay bracket..

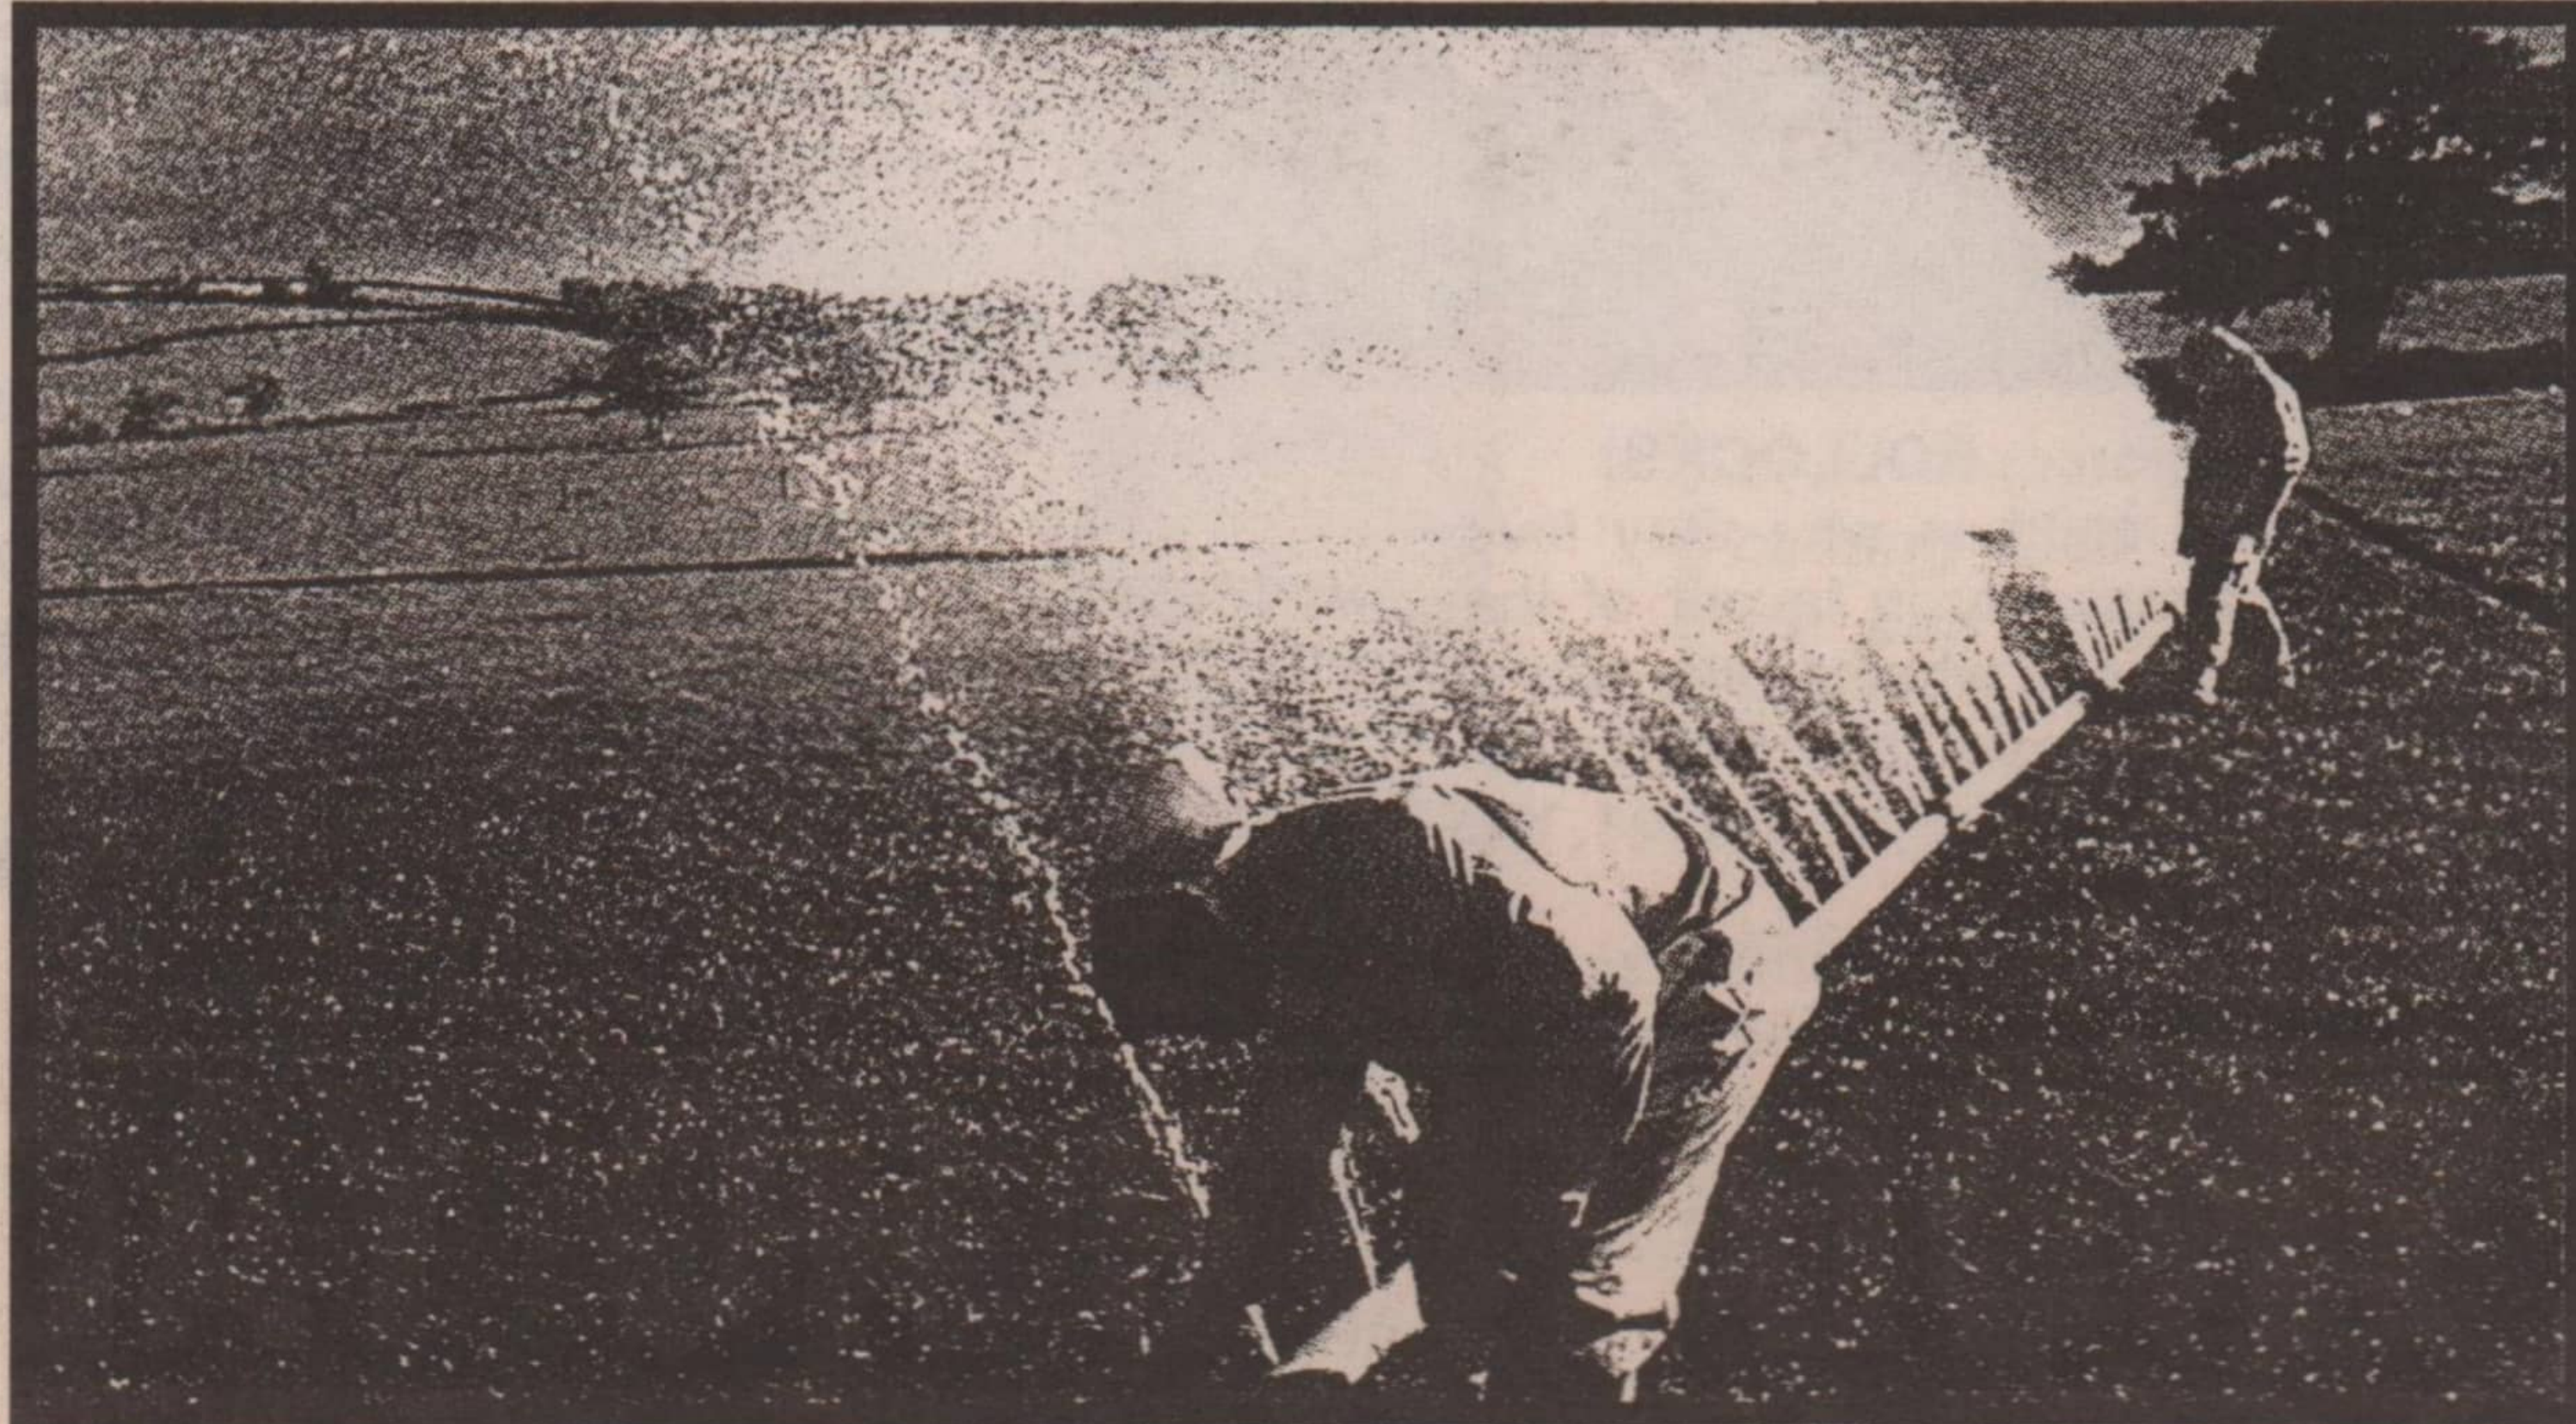

..the rest of us were being told to tighten our belts as the same Tories dumped us in the biggest recession yet.

But think back...were these forthcoming pay rises made public at the time of privatisation?

Were they heck! The Government had enough trouble trying to market the muck business as it was.

To put it in the words of the boss of the MORI opinion poll people, privatising water was the second most unpopular thing the Tories have done (the Poll Tax came first!).

Like separating the unsaleable nuclear bit from the electric generating companies, because nobody would buy shares with it included, the government had a few tricks up its sleeve when it came

to flogging off the crumbling, under-funded sewage works.

AVOIDING THE STINK

With most sewage companies being the biggest polluters of Britain's rivers, and so liable to new fines for pollution, the only way to prevent them making huge losses to the shareholder was to effectively relax pollution control!

And so the saga of selling us our own shit continued.

The most disgusting part of it all isn't the amounts of money involved, but where these bastards got it from:

By turning a basic need into a profiteering commodity venture. That of selling us our own WATER!

PRINCE OF THIEVES!

THE MUCKSPREADER PRIZE for ridiculous excuses, must go to Nicholas "greedy bastard" Hood, top boss of Wessex Water.

Hood's obviously no relation of Robin, but it does look like he's a prince of thieves!

The wealthy boss came up with this corker in defence of his self awarded £45,000 rise..

Between remarks of: "I deserve it", and: "I do work very hard", his real reason for this exhibition of sheer greed slipped out... He now works a full FIVE days a week, rather than his former three!!

So this parasite is paying himself an extra we're not likely to get in years, to spend longer telling us how to work... Well that makes it O.K. then..!

pesticides well above EEC limits (and we bet those limits are set too high).

Like it did with the sewage end of the business: in 1989 the Tories pulled a fast one, allowing the water companies to CONTINUE shifting polluted water, and call it clean.

Now the companies are flush with profits, but we still suffer pesticide-ridden water.

● **Taking the piss number 3:** Not content with pumping crap, these companies are hiking up what we have to pay.

For the last few years, virtually all the increases have been above inflation.. and that looks set to continue, especially if you remember we've got to pay for their bloody pay rises!

BOTTLED UP

It's no surprise with all this in mind, that one of the fastest growing industries in Britain is bottled water.

People simply don't trust the water supply, and quite justifiably too.

But who can afford to go down the shop everytime you want a glass of "safe" water.. AND WE SHOULDN'T HAVE TO!

Seeing as there's so much crap in the water already we suggest adding a few more bits and pieces..

..the likes of Hoffman and the other water bosses.

Give 'em first hand experience of the problem!

NAME YOUR POISON

NO MATTER HOW HONEST and cuddly TV's famous naturalist, David Bellamy may seem...he's a friend of capitalists, a hypocrite and NOT to be trusted.

It's been estimated that this year alone THREE MILLION people across the world will suffer acute pesticide poisoning.

We'd have thought that Barmy Bellamy would have done his part in stopping this. But NO...

...Our man "grubbling around in the undergrowth" is the boss of David Bellamy Associates.

HYPOCRITE!

While many experts agree that pesticides are harmful AND unnecessary, Bellamy Associates took a whopping £40,000+ from ICI, Britain's leading agro-chemical producer, to make a video promoting them!

Bellamy and his company are quite open in their support for the video and ICI. Not only is he helping to advertise worldwide poisoning of workers, but Bellamy is also a chum of scumbag property developer, Peter de Savary.

FRIEND OF THE CAPITALIST

Bellamy Associates reaped £79,000 from de Savary in 1989 for advertising his development on Canvey Island, Essex. In the advert, Bellamy proudly announced:

"Britain is booming" - an outright lie & "Industry is hungry for expansion" - support indeed for power-hungry capitalism.

We know which side you're on, Dave, you bastard - not ours and not the environments'.

VICTORY!!

FOLLOWING CLASS WAR'S Mass Trespass at Pen Wood in Somerset, its owner, rich Lloyd's underwriter, William Davis has caved in.

After the Trespass Class War and local supporters gave Davis an ultimatum; "Open up Pen Wood or we'll return to make your life a misery by organising the biggest mass trespass since the 1930s".

So Davis gave in, the blocked-up paths will be cleared, and the wood re-opened to the public. He announced his climb-down in the Mail on Sunday, which then tried to claim it as a victory for its "Hidden Britain" campaign, which didn't even start till one month AFTER the trespass!

We must keep up the pressure...on National Forbidden Britain Day (September 29th) ..and beyond, until all the country's woods are reclaimed.

Rich property developers and "weekend" landowners will never listen to negotiation or petitions, direct action is what needed - WATCH THIS SPACE!

● FLASHBACK - MASS TRESPASS AT PEN WOOD

SEWER RATS!

SOUTH WEST WATER has come up with a master plan to dump sewage into St Ives Bay, Cornwall.

Locals are furious, but the council has backed the plan. So irate residents took out their anger on a group of S.W.W. bosses and their families who arrived in a squad of limos to sunbathe on the beach.

We are told that he hail of verbal abuse they received was so strong that they soon scuttled back off!

LETTERS

THIS IS CLASS WAR

The CLASS WAR FEDERATION is an organisation of local groups and individuals who have come together to do something about the society we live in.

WHAT WE BELIEVE

This society is divided into classes based on wealth and power. The ruling class, who are supported by the middle class, and the working class. Such a society is the cause of all the problems experienced by working class people the whole world over.

This can only be sorted out by the destruction of the ruling class by the working class. This is class war.

Real change can only come about by working class people organising themselves to deal with the problems they experience, using direct action against the individuals and institutions that cause them. There is no alternative. Violence is a necessary part of class war, but only as mass class violence out in the open, not as elitist terrorist actions.

The law is merely a weapon of the ruling class and must be ignored and broken as the need arises.

The ruling class divide us by preying on petty differences of race, sex, sexual preference, age, or football team you support. We will destroy these barriers.

Above all, the CLASS WAR FEDERATION believe politics is life, and life is politics. We reject the boring character of the so-called "revolutionary left". Politics must be fun, it's a part of ordinary every day to day life and must be able to take the piss out of itself!

OUR AIM

The aim of the CLASS WAR FEDERATION is not to lead, but to increase the militancy of working class peoples attempts to solve their problems through propaganda, active participation and debate as equals.

WHAT WE DO

The CLASS WAR FEDERATION produce and distribute propaganda; a paper, journal, local leaflets and newsletters. We are involved in working class struggles and we encourage involvement in the CLASS WAR FEDERATION to do the above, for discussion, and for a laugh!

ENEMY WITHIN?

Dear Class War,
This letter is in reply to John (closed mind) of Strood.

I agree with him that "patriotism sucks". As has been mentioned, the army is an easy way off the dole queue.

My husband has subscribed to your paper for 2 years and he's been in the army for 4 years. So, you see, dear John, anything is possible. His reason for joining was to escape reactionary, middle class parents who ruled his life for too long.

John says he's never "met a class conscious squaddie"...in Germany, the 'Joe Squad' gets treated like shit by hierarchical officers, with their stupid children and their Volvos.

So, John, don't mock what you haven't tried...CLASS WAR FOR ALL.
Mophead,
Germany

INSIDE OUT...

Dear Comrades,

I was up in court on trumped-up charges of threatening behaviour when I was on the picket of Brixton Police Station last October.

I was convicted on the word of some *sticking, lying, two-faced pig bastard* by an *absolute fascist shit* of a magistrate.

Ironically enough I was remanded for three weeks in Brixton and then got sent down for 4 months and I received a 2 years suspended.

SUPPORT

I was amazed and really glad of the support and solidarity I received so quickly from individuals and groups (including Leeds CW.-thanks people!).

Also thanks to the TSDC and all the others who wrote. I'm busy writing back to everyone and to people I met inside.

I'm actively supporting and involving myself in the struggle against the Poll Tax with renewed strength and determination.

In solidarity,
Rich, Herts.

FRESH AIR

Dear Comrades,

Many thanks for your solidarity and for the copies of Class War.

Despite being a socialist I am not, I hope, one who is so arrogant as to believe only socialists have the answers.

More, as a working class socialist I too-often find that there are so many middle class "book" lefties that can strangle the ideas.

WICKED STUFF

So when I read CW it is a breath of fresh air, which I may not always agree, gives me food for thought and a good read!

I'd like to ask if it is possible to get copies of the **Heavy Stuff** and a couple of posters for my cell walls. *You've done some wicked posters* - all the good ideas seem to come from you lot!

Finally could you pass on my thanks and greetings to **Leeds Class War**, who sent me a brilliant postcard. It's not always possible to thank everyone personally who writes and sends cards since I'm limited on stamps.

Once again, thanks for the stuff. Keep on doing what you're doing.

Revolutionary Greetings,
Matt, HMP Featherstone.

GAINING RESPECT

Dear Class War

No. 48 was the first copy of your paper I've read.

A good paper and I'm glad I can offer something relevant so soon. With reference to the letter sent by John from Kent, there **ARE** class conscious squaddies in the army.

KICKED OUT!

For I was one; an individual in the mob and a minority of one. *Must be why I was kicked out!*

The military environment is not conducive to individualism and free thinking.

So the next time the squaddies in Kent give you shit, hand them a copy of *Class War* (they'll take anything that's free!) and reason with them.

If that doesn't work, kick their fucking heads in! *At least they'll respect you for it.*

Yours,
Rob, Notts.

ROYAL WARNING!

Dear Class War,

It's strongly rumoured that the world's most public couple will be visiting Canada to celebrate the anniversary of our oldest, most toff-ridden institution: Queen's University.

No doubt 'ol Monkey Ears'll admire the architecture.

This place is riddled with the Canadian elite's kids, most of 'em running around in daddy-bought sports cars and £250 leather jackets, proudly announcing they're students of law, medicine etc.

The University and City Hall are planning a lavish reception - so are we, the working class!

The 'Up Chuck and Die' Royal Bash will make it very clear that these parasites are NOT welcome in our town.

We're inviting friends from all over to attend - there'll be a few veterans from the Oka War and Nova Scotia uprisings on hand.

If you happen to read *Class War*, Chas, be warned!

Yours in Solidarity,
Allan, Brendan.

FORGET THE ETHICS

Dear Class War,

I think Terry of Plymouth's letter, **CW No 47**, on abortion, raises a more difficult issue for both Feminism and Anarchism than you admit.

It's all very well saying women have the right to control their bodies, but in the case of pregnancy we're talking about the woman's life and (at some stage or other) another persons life over which she has "biological jurisdiction".

RIGHT AND WRONG

I'm not a religious moralist but anyone who feels strongly about working class exploitation must have a sense of right and wrong. *So it's not really enough to equate a moral opinion with religious fanaticism.*

Abortion is a terrible ordeal, but why are some women forced to choose it? It's the everyday pressures of our 'normal' lifestyles that make abortion necessary for some people- the pressures imposed by the class system.

I say let's forget the ethics and create a society where all children are valued and nobody wants an abortion,

Fight for our lives back!
Love and Freedom
Pat, Leicester.

REPLY

Thanks, Pat - you'll find an article on this very subject on page 11.

UNBELIEVABLE?

Dear CW,

I **CAN'T BELIEVE** your response to the letter 'squaddies' in issue 47, i.e. *"not alienating them and moralising about what evil bastards they must be"*.

THE ENEMY

BOLLOCKS! They joined up by choice to kill other working class people, they are the enemy - *no better or worse than the police or Bailiffs.*

A wonderful paper but don't get wishy - washy over the poor old, down trodden squaddies.

No war but the Class war,
Yours, Jason, Northants.

TOP SP

STRIKE ONE!

FIDEL CASTRO, the elderly leader of 'State Communist' Cuba, got as much publicity as he could for the Pan-American Games held there in August.

What he didn't bank on was that the baseball field would be where a bit of SERIOUS class conflict would take place:

RACIST INSULT

When Canada and Mexico were playing, one of the Canadians called the Mexicans:

"A bunch of Third World chill-eaters".

Not taking this racist insult lying down, the Mexicans had a go, as the picture shows. Baseball bats were already in hand!

Incidentally, AS POETIC JUSTICE, Mexico won the game 7-5.

GOOD RIDDANCE

DERBY COUNTY FANS heaved a great sigh of relief the other week when Cap'n Bob "Another unsuccessful merger" Maxwell finally sold his stake in the club after intense pressure from the fans (see CW 42 & 45).

Instead of raising the eight million pounds which he needed to buy Spurs, he had to make do with a measly £5.6 million.

NO. 1 ENEMY

While football's number one enemy has pulled one of his sticky fingers out of the pudding, Derby's fans have only got the dubious promises of investment and success from the remaining directors.

It's good to see, however, that the fans can wield the muscle to remove the Maxwells of the game, who make so many promises and then fail to deliver the goods.

It's characters like Maxwell who are responsible for the financial and organisational mess that many clubs and the game finds itself in at the moment.

RID OF 'EM

Only when we get rid of them will we be able to produce a 'Blueprint' for the game. One which takes into consideration one of the most important groups in professional football, totally neglected by the FA's plans, namely the Fans.

BLUEPRINT FOR DISASTER

IT FINALLY seems that evryone is talking about the F.A.'s 'blueprint for the game' as reported in CW 46.

Graham Kelly's 'Vision' (We reckon he needs a pair of stronger glasses) now seems to be a shortsighted muddle at best.

What was meant to be part of the master plan for hosting the 1998 World Cup has now been scuppered by the fact that the European FA's have forced England to drop out of the race as hosts to France, in order to guarantee that the World Cup will take part in Europe that summer.

CONFLICT

What we see happening at the moment are a number of conflicts between the various interted parties.

There's the First Division arguing

players threatening strike action - The resignation of this year's 22 clubs in the First Division from the League - The setting up of a breakaway League - Court action by the Football League against the FA.

The list goes on...

Simply, the Blueprint has caused chaos in the game and the group whose thoughts about this have been conveniently ignored, as always, are The Fans, the

"Will be playing in a television orientated European League in the foreseeable future".

We're sure the thousands of Arsenal fans who've paid Graham's wages over the past few years are just looking forward to spending Saturday afternoons in front of satellite TV!

DON'T GET CONNED - GET ORGANISED!

The various supporters organisations and fans in general should not be conned into believing that the FA's Blueprint for the game has anything in it for them.

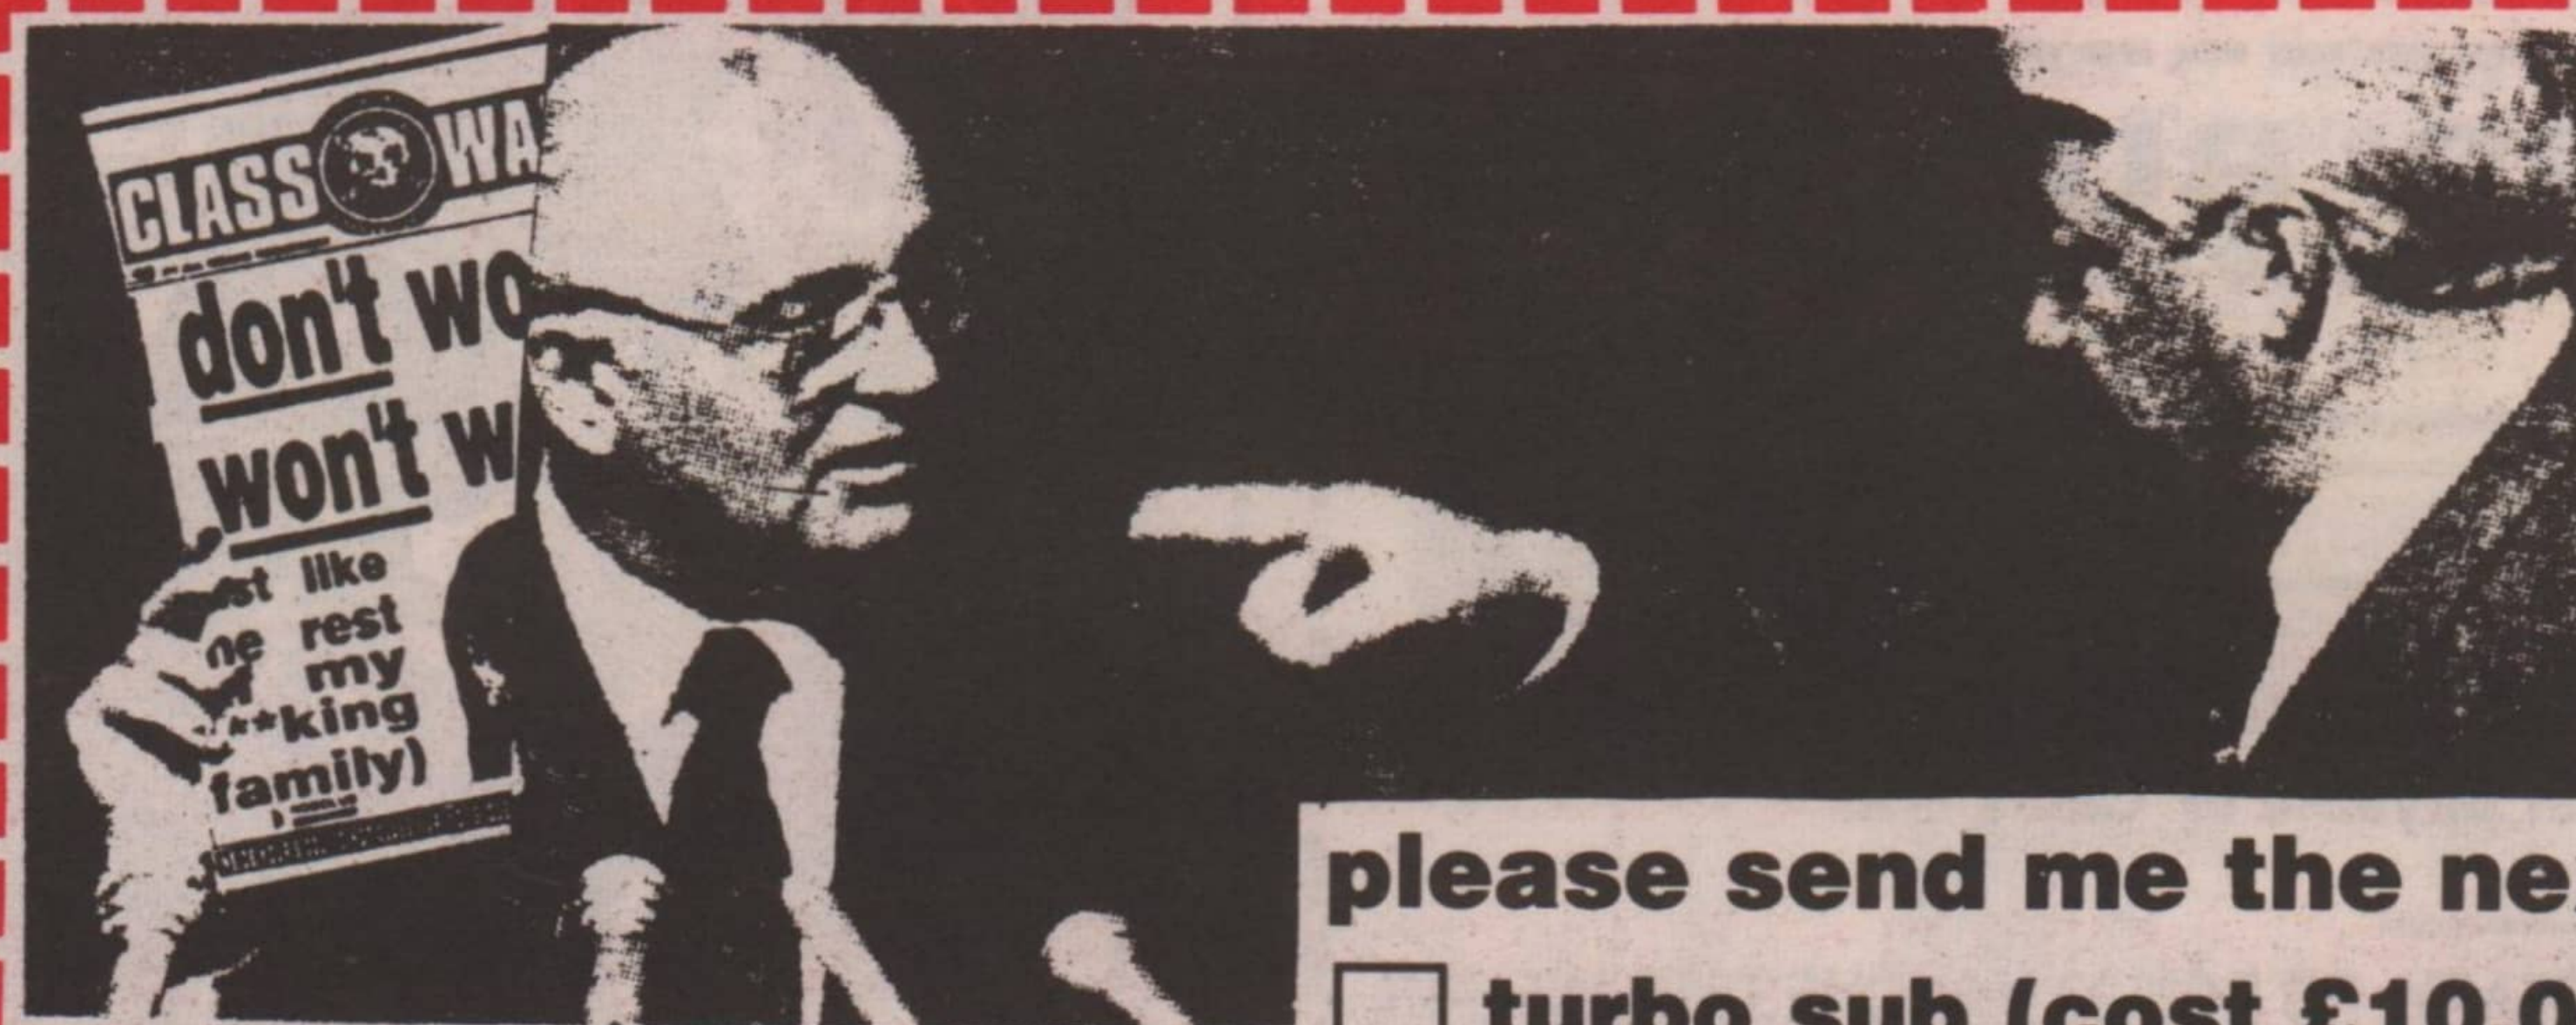

Even Graham Taylor the England manager has said publicly that these changes are based on the greed of the administrators and directors and are not about benefiting the game.

With the chaos at the moment the supporters are the only group whose voice and actions can prevent the game being butchered -

IT'S TIME TO GET ORGANISED.

people who actually pay to watch the game. Someone who should know better, Arsenal manager George Graham,

"I'll resign if you let the Soviet people read this!"
