

CLASS

WAR

AS ADVERTISED IN THE SUNDAY PEOPLE!!

THE RICH GET RICHER.... THE POOR GET POORER;

HE'S got a degree in sociology, a face like Himmler — and a heart overflowing with hate.

Sunday people Bespectacled, bristle-headed [redacted] 36. is unmasked today as the leader of a group of political nutters who preach a dangerous new creed of anarchist violence.

And they are trying to spread their evil message among striking miners, peace marchers — even schoolkids.

If [redacted] had his way the blanks fired at the Queen in the Mall would have been real bullets. And the attempt on the life of President Reagan would have succeeded. [redacted] and his followers can be seen on the pit picket lines, at CND demos and at animal rights rallies peddling a foul-mouthed propaganda sheet called class war.

UNMASKED, THE MAN WHO PREACHES HATE TO CHILDREN.

Last week Class War was singled out for a particularly vicious attack in the Sunday People, the whole article was a mixture of half truths and blatant lies. It shows that we must be getting somewhere if the scum media has to resort to this sought of shit to put us down. Anyway all the same we'd like to thank the Sunday people for the free publicity, we'll do the same for you one day!!!

We live in a permanent state of Class War through no fault of our own...

ANARCHISM

Poverty, violence, inequity and decadence exist and flourish in Britain yet parliament isn't able or willing to improve the situation.

We therefore seek the abolition of government and the demolition of its wretched, dogmatic institutions.

Law doesn't mean order. Anarchy isn't chaos.

FIGHT BACK

HOMES BELONG TO THOSE WHO NEED THEM

In London there are 140,000 empty properties all owned by the ruling and/or wealthy elite, in London there are homeless people either walking the streets or imprisoned in Bed & Breakfast hostels, paying extortionate amounts of money for tiny, filthy, rat infested damp, rooms. Millions more have to pay for the pleasure of having a couple of rooms in one of the many ugly, decaying, tower blocks. While the so called owners of these slums get richer & richer in their luxurious houses in Kensington.

What right have these people to own these houses anyway? They were built by normal working people, struggling to make a living. Not by some rich bastard sitting in a nice, comfortable office investing vast amounts of money on yet another profit making venture. The rich have stolen our homes the time has come for us to reclaim them, the time has come for us to take back what is rightfully ours, why should we pay extortionate rents to people who already have more than enough money, why should we pay 'rates' to the council to finance the police and the many overpaid bureaucrats. Why should we?, well the answer is we should'nt.... There is an alternative, squatting, over ten thousand people in London alone have seen through the bullshit and have decided to squat some on principal others through necessity, they live virtually where they like and in the type of accommodation best suited to their needs.

It is'nt difficult, it is'nt unfair, it is'nt even illegal...WHAT ARE YOU WAITING FOR?, SQUAT NOW!!.

KILL THE BILL!

The conduct of the police in the current miners strike shows quite clearly their intentions to protect the wealth and profit of the bosses at all costs, they have shown a total disregard for the rights and safety of the pickets in

attempts to keep as many mines as possible open and working. These attempts have been mostly in vain and one wonders how much longer it will be before the ruling classes decide to use the army to break the strike, this is not

quite as unlikely as it sounds, between 1946-77 troops were called in on 13 occasions to help break strikes, indeed, already, soldiers have reportedly been spotted in police uniform, aiding an already badly overstretched police force.

However the miners have reacted excellently in the face of mass police oppression, they've refused to be intimidated and continued their struggle everywhere that a pit remains open and when the police continue to int

erfere the miners have given their own medicine..The example being set by the miners is excellent. It's time once again that we all showed our absolute contempt for the police on the streets of Britain.

Squatters in clash with riot police

Where they listen to your phone calls-23rd floor? Euston Tower

(Capital radio building). Where they open your letters, 2nd floor, Union House (nr ST PAULS)

Below:- The police acting in their real capacity as protectors of the wealth and property of the bosses, by preventing miners pickets from stepping pits. (Their not there to protect scabs their there to keep the cash rolling in for the bosses). SMASH THE POLICE!

VIOLENCE flared in Brixton early yesterday as police clashed with squatters.

One policeman was hit on the head with a brick and a derelict shop was set on fire. Six people were arrested for obstruction.

Around 50 squatters occupying six condemned houses in Effra Parade barricaded themselves inside and blocked the road with wood and an overturned car.

Another 50 youths gathered outside and hurled bricks and lumps of wood on police in riot gear ripped down the barricades.

The police joined Lam-

beth Council bailiffs at 4.30 a.m. to evict the squatters.

The houses, which will be demolished to make way for an area management office and an "ecology garden," were boarded up.

The council claims the properties are unfit to live in.

A policeman was hit by a flying brick and rushed to hospital for treatment.

The battle erupted as council bailiffs began a 4am operation to clear eight properties in Effra Terrace.

Rampaging youths hurled bricks and wood, a car was overturned, barricades erected, and a house set on fire.

The people at 'Class War' are always interested in hearing peoples views on the paper and/or the groups views in general, any constructive criticism is valued as is fan mail, etc, etc, so if you've nothing better to do why not write a note and tell us exactly what you think!.. class war-collectivistsnot sheep.

I feel some facts about the people behind the production of the paper Class War need to be pointed out, because so many anarchists and alternative minded people seem to regard us as sheep, they also seem to regard anyone who might be an acquaintance of ours in the same manner, all following the same codes of extremely violent behaviour, (towards anybody) all sexist and all a bit stupid.

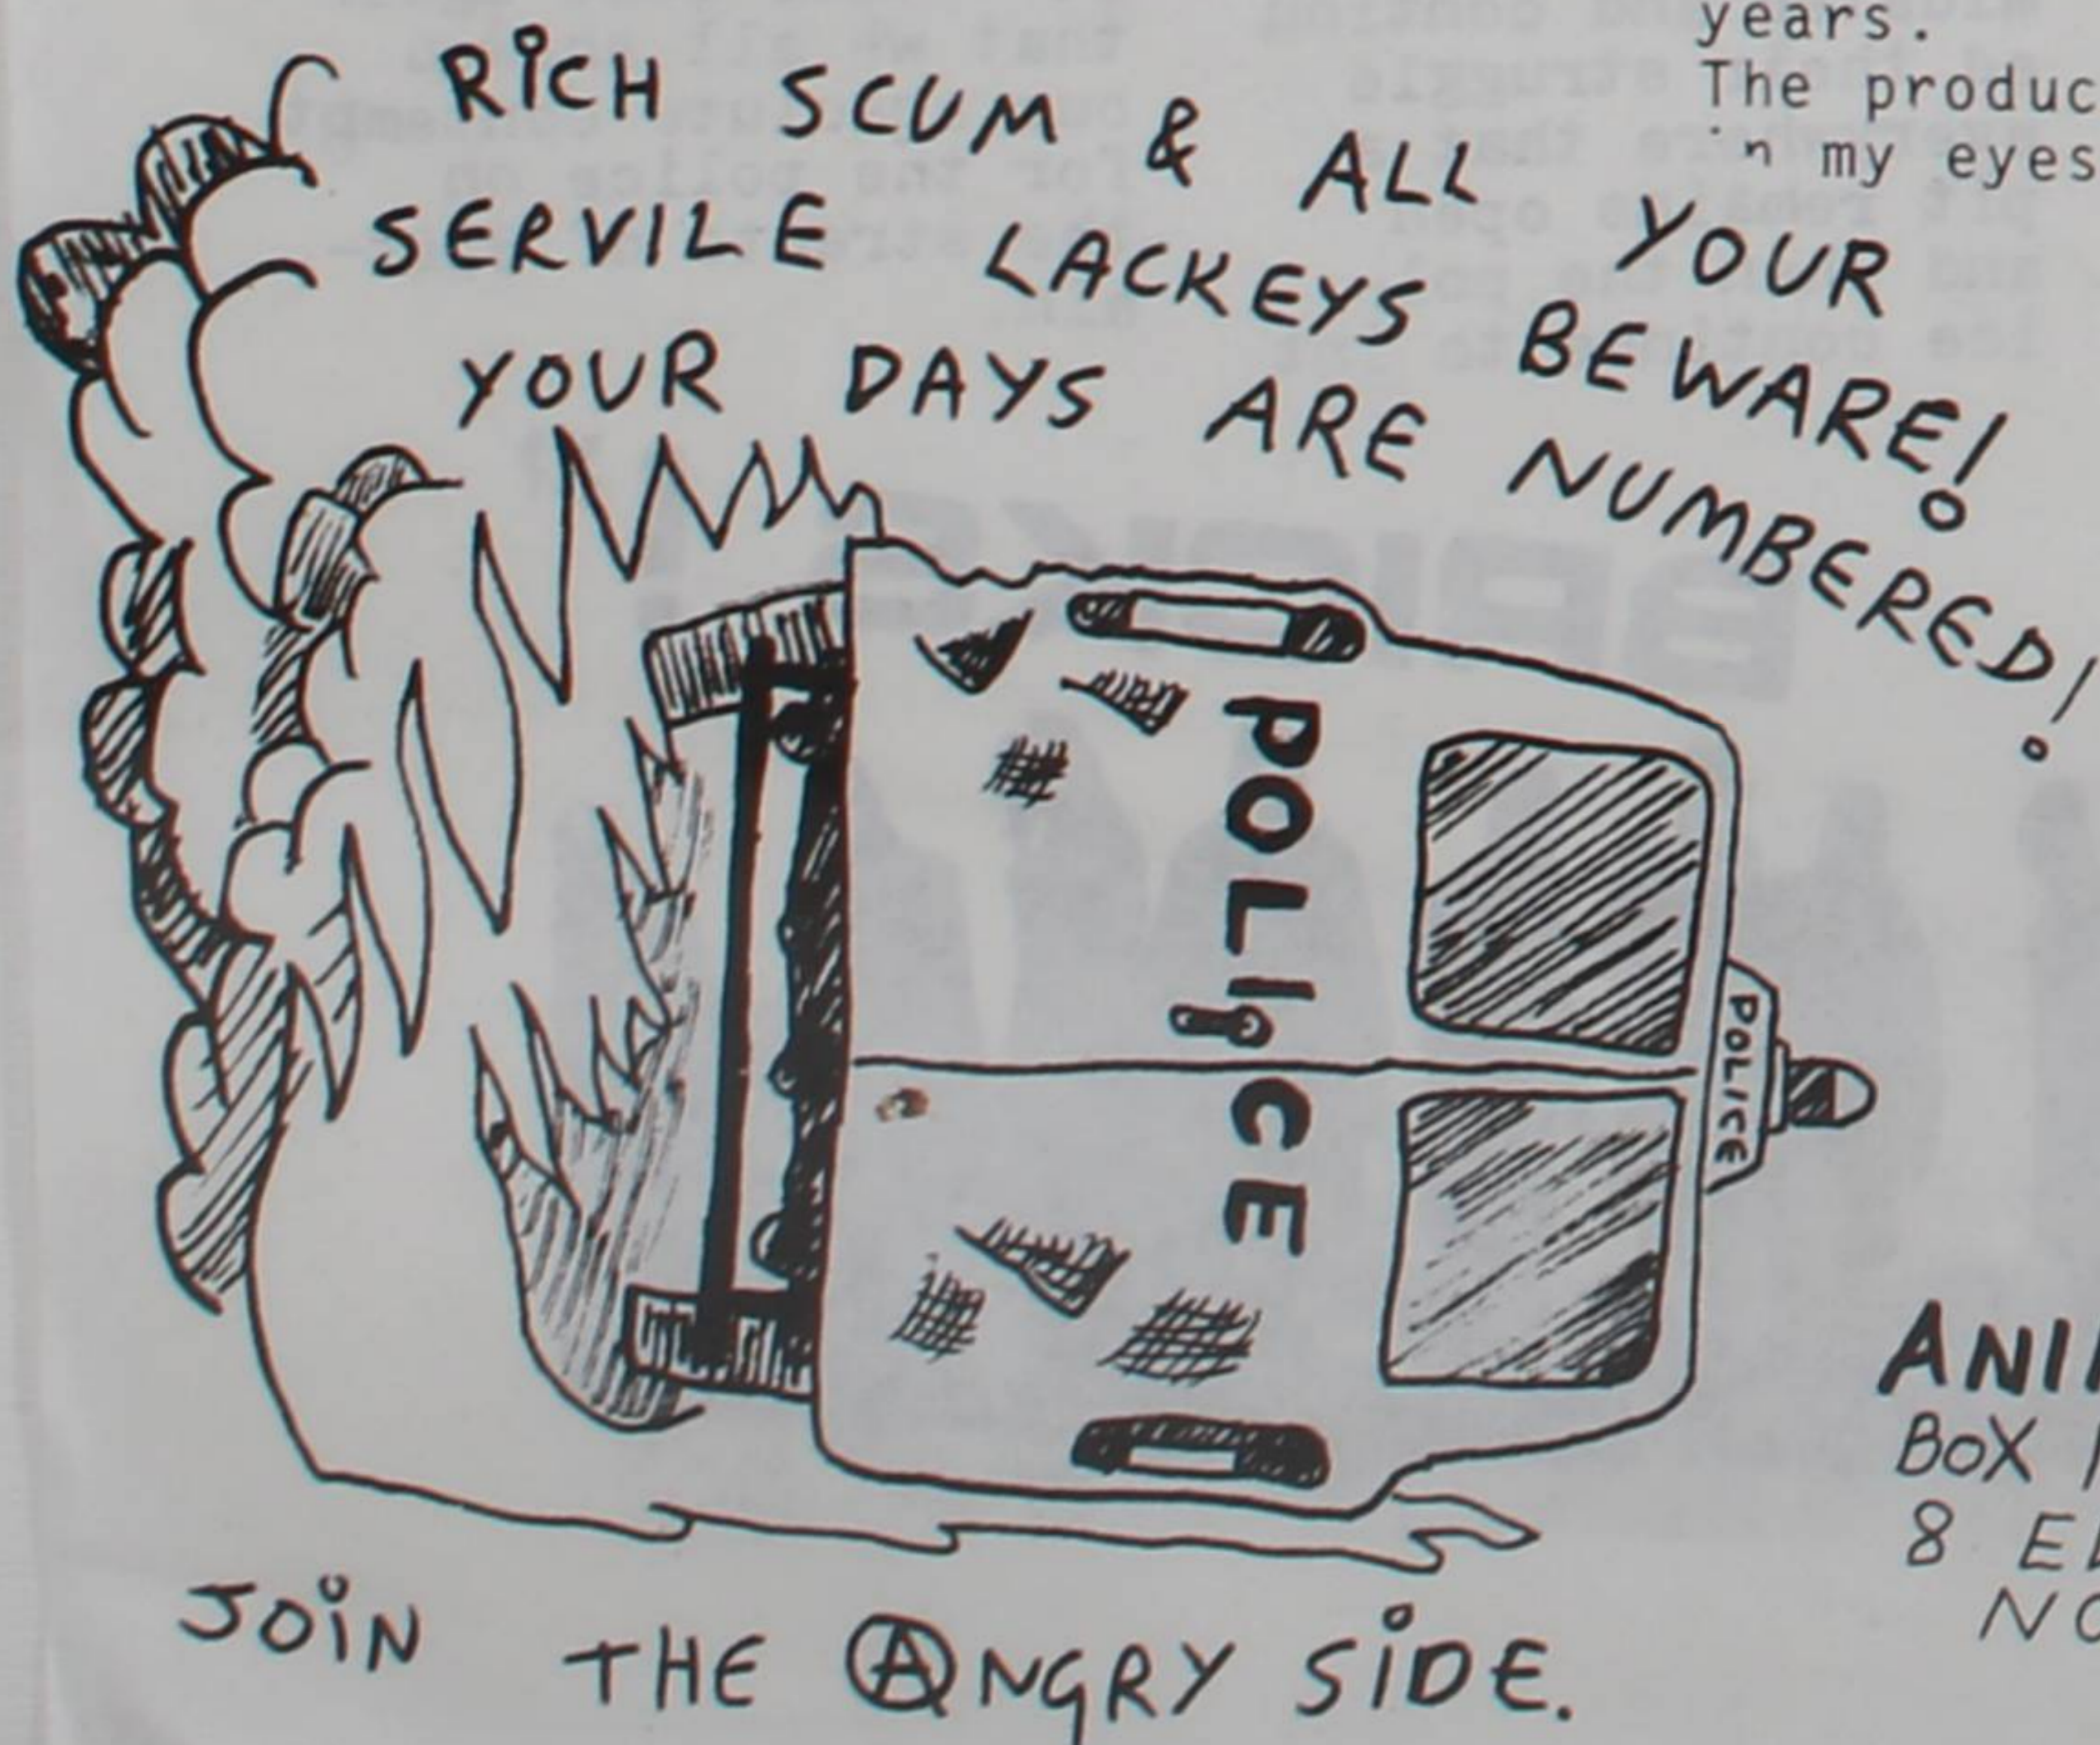

The Class War collective is a loose knit one, and is indeed a collective, in the true sense of the word; a collection of individuals, all with differing opinions, but with one common aim - to fight against class oppression towards a free society based on equality. People take it in turns to produce the paper usually doing so in pairs or groups of three. The two of us who are producing this paper have only been to one Class War meeting and we don't know any of the people who have produced previous issues all that well, SO WHAT!!! we have the same common interest: - THE ABOLISHION OF CLASS SLAVERY, OPPRESSION AND EXPLOITATION. You may have met someone somehow involved in the paper who is sexist, you may think that certain people who you regard as Class War are unnecessarily violent..., but to slag off the whole concept of Class War and to say that anyone involved must be violent and sexist is Bullshit.

Remember, you are talking about a collection of individuals not the lengthened shadow of one person.

CLASS WAR SPRING OFFENSIVE:- RICH BASTARDS SUFFERING FOR A CHANGE!!

There can be no liberation without Animal Liberation

Animals are the lowest class imaginable; scorned, ridiculed, tortured as slaves the world over. People in the lowest castes of the human class system regard animals as lower than them, believing they exist for nothing more than exploitation.

Animals are born free in mind and spirit, just as we are; they should live free lives just as we should. Humans are after all, animals, belonging to the same species as dogs, whales, cows and cats. Abolition of Class Slavery means freedom for all animals.

1/3 million animals die every week simply for the production of meat. They die cruelly packed into overcrowded slaughter houses, knowing what is coming to them, waiting their turn in panic, pissing and shitting. Your animal put yourself in that position.... It is unnecessary to eat meat; with only two carnivore teeth, the whole human digestive system is geared towards eating fruit, vegetables and nuts. Not only are these animals killed needlessly, they live in prisons where the farmers feed them cement with their food so as to keep them and the farmers wallet fat. Think about it; visit a slaughterhouse. If the farmers of the U.S.A. used 1/3 of the land they use to feed cattle on (cattle which need not have been born) for producing cereal crops, for just one year, they could feed just as many Americans and the entire 3rd world for ten years.

The production of dairy products is in my eyes, far worse than the production of meat, these animals are forced to live in a permanent state of torture & find no escape through death. Factory farms are concentration camps for millions of chickens, living permanently in such cramped conditions that they can't even spread their wings properly; Cows who produce milk are kept in cages mechanically milked & never able to move any part of their body except their head. They are artificially inseminated (rape) to keep them permanently pregnant and all their young are removed at birth; these calves never see the light of day, they are kept in small sheds, cramped together until they are six weeks old, then killed for veal, sunlight is never allowed to touch their skin so the flesh will remain white and a delicacy.

IT is easy to live on a vegan diet; no milk, no meat, or any other animal product or derivative, I have done so for one and a half years.

Animals are also used in laboratories to prove that shit like make up and perfume is safe, to prove that animals do silly things when they've got two heads or one wing, or when they are burned, tortured, electrocuted or confined to cages for months on end. These experiments are also carried out to find cures for diseases, when there is no cure only prevention; if we eat good food all our lives then we won't catch cancer. Experiments for medical research are farcical, how do they hope to prove anything when animals are so unlike us.

THIS IS SICK... the rich killing thousands of innocent animals every year in the name of sport is sick.

ALL ANIMAL ABUSE IS SICK. IF YOU DO NOT SUPPORT ANIMAL LIBERATION THEN YOU ARE WILLINGLY A MEMBER OF AN UPPER CLASS
