# THE WAR TO END

**RULING CLASS** : A bunch of rich scumbags who live like Lord and Lady Mucks while we scratch around for survival. Our work, our lives and our silence keep them in the life they are accustomed. This stuck up bunch of bastards are the prime candidates for our anger and should be eliminated.

**WARNING** : CANNOT BE ELIMINATED BY PEACE CAMPAIGNERS, ECOLOGISTS, CHRISTIANS, PARLIAMENTARY REFORMISTS ETC.

They are served by the army, the police, screws, social workers, judges, priests etc who act and work for the upkeep of the state and it's laws. As employees of the ruling class they are immediate targets for our anger and will be the first to get it when widespread class war breaks out.

**WISE UP MUGS !!**

Negotiation not confrontation has seen the failure of successive strikes. Same old tried and failed tactics time and again. Traditional strikes fuck up working class people more than the ruling class. It ain't no fun having your water cut off, your hernia operation delayed, your electricity cut off etc. etc. The rich have ways of getting around these "inconveniences" i.e. money. As workers we must use tactics which hit the rich and not people in the same position as ourselves.

1. Firemen refuse to attend fires in wealthy areas or commercial and business premises. They only put out fires in working class areas.
2. Nurses refuse to tend the rich patients, policemen politicians etc.
3. Train drivers refuse to take 1st class passengers.
4. Water workers, gas workers, electricity workers cut off totally supplies to wealthy areas and maintain supplies to working class areas.

# ALL WARS. THE

**WORKING CLASS** : In a permanent state of war with the ruling class and are the only people that can get rid of them. By doing this they will also abolish themselves as a class and initiate the classless society. The working class is not just a few male white production workers, but includes everyone on the dole or social security, pensioners, schoolkids, housewives, prisoners, students and the employed in factories, shops, offices etc. In fact everyone who does not employ anyone else to make money for them.

**GORMLEY... THE PITS!**

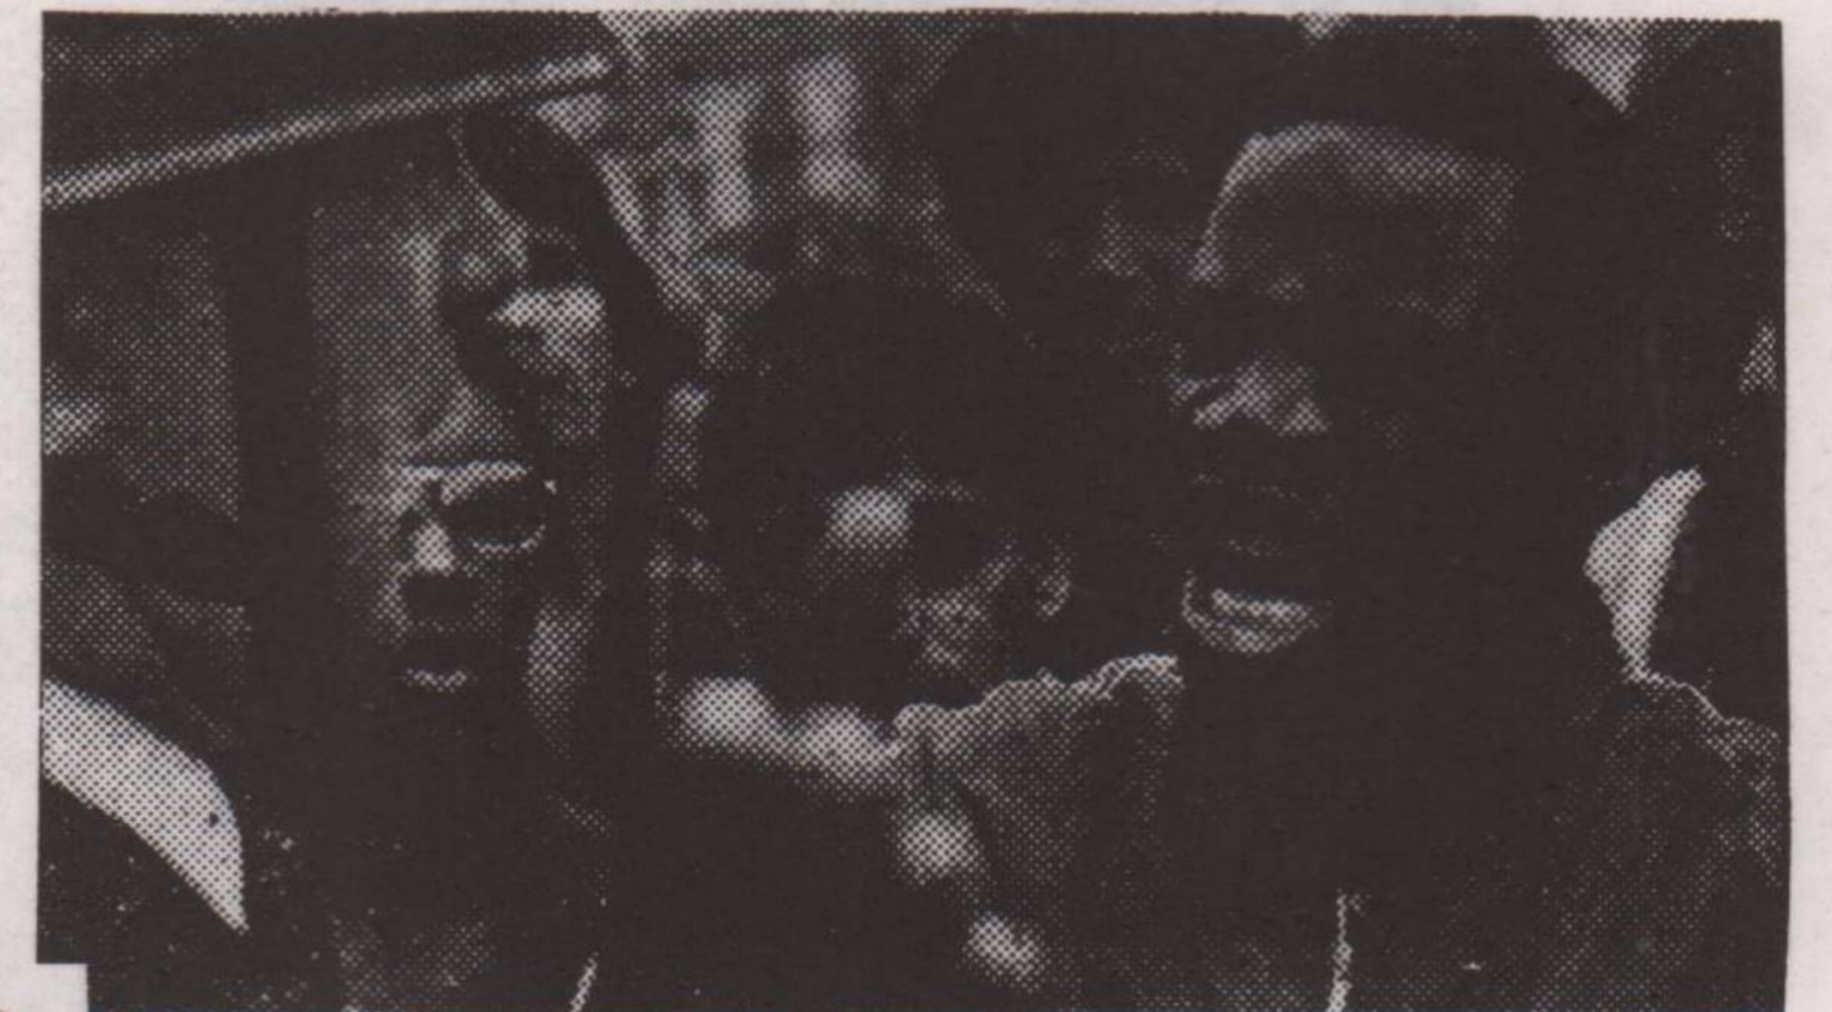

Lord Joe Gormley, former NUM leader, was set to become NCB chairman if Ian McGregor refused. Union leader: bosses leader - NO DIFFERENCE. It's not just the union leaders but the unions themselves which serve the bosses interests by disciplining and diverting all action into harmless channels. The unions must be smashed and replaced by autonomous organisations where we remain in control with no leaders to fuck us over.

Wildcat strikes at Halewood, BL Longbridge and Cowley show the working class will fight on it's own terms but will not fight useless battles for the glory of leaders like Scargill. With the collapse of faith in the TUC and unions the mediators of our anger at work are pushed aside - a hot summer of vandalism, theft, sabotage, strikes and occupations lies ahead!

# WAR TO END

**MUG THE RICH**

When we're on the dole we're forced to fiddle the DHSS, shoplift, work on the side, steal just in order to survive. This is the form class war takes when we're not in direct day to day struggle with the boss. But it's vital to be clear about who we're ripping off from. People who steal from other working class people in the same position as themselves, rip off giros, mug old ladies, burgle council houses or people in the same street are scum who do the states work for them. Every town's got it's rich areas - so let's do our burgling and mugging there! And let's start harassing the fraud squads - beating them up, wrecking their cars, trashing their houses, threatening their families for a change. Let's smash up a few SS offices - always go team handed - a quick in and out and way. Make those bastards sweat it out instead of us.

LOOK AT THE GEEZER ABOVE. IS HE ASKING THE COOPER THE WAY TO THE NEAREST JOBCENTRE.

# ALL CLASSES

**THE END OF WORK**

Work in a society owned by the ruling class and run by their overseers means wage slavery - the "freedom" to sell your freedom and your life. Under the empire of modern capitalism work is meaningless and boring, miserable and alienating. Technology and the micro-electronic revolution have so far only revolutionised profits. The ruling class put them to service only for their ends. This serves to maintain the need for survival among the working class and gives the false impression that technology is merely another weapon of misery. With the end of the ruling class the need to work for survival will end because it is the creation of our oppressors. Our control of technology will mean the basic needs of material survival will be in our control: and work, wage slavery and enforced boredom will be dead.

**'Rabble' demo at shipyard**

Coaches carrying the official party were rocked and guests' cars were scratched. Inside the yard, placard-waving workers from Hebburn and other Swan Hunter yards jeered and shouted throughout the ceremony.

# 40,000 join hands in 14-mile nukes demo

## WHICH PEACE WOULD YOU LIKE?

Nuclear war and class war have just one thing in common - the end of this society. Nuclear war will leave nothing but the ruling class holed up in their bunkers planning post holocaust capitalism. Class war will leave everything but these people and those who would defend them. For the vast majority in the peace movement nuclear disarmament is worth getting 'cos this society is worth keeping, a reform here, a change of heart there and all will be well. For the working class this simply isn't so. Peace means not only peace from nuclear war, but peace from the ruling class whose long term plans for blowing us to peices are only equal to the immediate fuck up of our daily lives. We're too busy trying to get by to sit around at dinner parties worrying about the end of the world, or chatting about it over a cup of coffee before getting about the business of fucking people up for the state as social workers, doctors and teachers.

### BUREAUCRATS AGAINST THE BOMB-FUCK OFF!

For these people the big peace demo's are a way of getting wawy from their complacent bastard lives for a day: dancing, singing and dropping surface inhibitions in general. Pop stars, actors - all the celebrity shit's can get off on the buzz of the good cause. And what happens about nuclear disarmament? Fuck all apart from the sound and the fury of these dogs worried about getting home in time for work the next day.

Nuclear war/ conventional war - there's no difference for the working class. Nuclear war/ conventional war - rather the latter for the middle classes as it serves the principles of the society they want more than they want to reform it. This is the reason that the demonstrations will get nowhere, the reason why direct action has to be rendered impotent by the tag of non-violence. For, let's face it, can you imagine a probation officer fighting the police one day and helping them stitch up some working class criminals for the rest of the week.

Colourful protesters. PC Wally Chandler, a former Reading policeman now based at Slough, said: "They are smashing. They are a very good-natured bunch."

And a jovial sergeant from the Hampshire Constabulary made light of working over Easter. "This lot aren't going to throw anything at you. It's better than doing a football match," he joked.

The church of St Mary the Virgin at Burghfield was packed with 300 people, most of them CND supporters down for the demo, at a Good Friday service led by the Rev Jimmy Morrison.

WHO ARE THESE GUYS?

# IF YOU WANT PEACE PREPARE FOR WAR

I hate this country and its fucking system. I hope Argentina beats Britain and sinks the whole fucking fleet. God rot those shits with their Britain, their queen, courts, judges and police. God burn those stuck up po-faced shits with their tea and three piece suits and their money.

JIMMY HEATHER HAYES

We have always lived in slums and holes in the wall. We will know how to accomodate ourselves for a time. We are not in the least afraid of ruins....The bourgeoisie might blast and ruin its own world before it leaves the stage of history. We carry a new world in our hearts.....Buonaventura Durruti.

POLICE STATION CANTEEN

### EVER FELT LIKE YOU'RE BEING CONNED?

Single issues - Peace, Jobs, Prisons, Ecology, Police etc - are a wank, a fraud, a diversion from class war. As the ruling class like to break up the truth of their power into specialised problems, the opposition form themselves into special topics. There is no talk of why such shit exists - there is just more and more technical and academic wanks from sociologists and those deluded enough to listen to them. The untrendiness of class war in the mid-70s has given people the notion that this society is in some way reformable. This fraud perpetrated by the alternative oppressors and bureaucrats is the big noise of protest for reform and debate, and has got to be treated by us as the deliberate sidetrack it is. By diverting our anger to single issues they hope to divert us from the whole of society. Keep them barking up this tree and that and listening to our learned bullshit and they wont cut off our status as employees of the ruling class. More shit, more diversions, more clutter.....TIME TO GIVE THEM IT STRAIGHT.....STRAIGHT BETWEEN THE EYES!

# BEYOND THE BULLSHIT

The mediators of working class anger - the trade unions and the Labour party - are totally discredited. No one believes them any more. They are clearly seen as the bosses allies. The Leftist groups are bewildered and demoralised - their analyses have gone right down the plughole. Their membership and strategies collapse - the working class refuses to respond to their leadership and treats them with contempt and derision. At the Bermondsey by-election the Raving Looney Party gets twice as many votes as the Revolutionary Communist Party! The working class is distrustful of all who seek to lead it and to use them as cannon fodder for their own glory....the Scargills, the Benns.

But at the same time no section of the working class has been able to initiate a successful fightback against the attacks of the Tories. In many ways it is the best of times and the worst of times.

With the mediators removed the stage is set for class confrontation on a widespread scale and of a vicious nature. Despite the beliefs of the Leftists there's no doubt we are heading for unparalleled explosions of class anger. There is a desperation and bitter resentment lurking just beneath the surface. Even with the help of the Labour party and TUC they can't keep the lid on for much longer. When it happens its important we can recognise its positive and negative aspects. The criteria used by the London Solidarity group ten years ago are just as meaningful today as they were then:

Meaningful action for revolutionaries is whatever increases the confidence, the initiative, the autonomy, the participation, the solidarity, the equalitarian tendencies and the self-activity of the masses and whatever assists in their demystification.

Sterile and harmful action is whatever reinforces the passivity of the masses, their apathy, their cynicism, their differentiation through hierarchy, their alienation, their reliance on others to do things for them and the degree to which they can therefore be manipulated by others - even by those allegedly acting on their behalf.

IF ME AND KEN LIVINGSTONE CAN KEEP THE LID ON WORKING CLASS ANGER IT MIGHT JUST BE POSSIBLE TO EDUCATE ANOTHER GENERATION INTO ACCEPTING ALL THE CRAP WE DISH OUT. IT'S EITHER THAT OR THE UNLEASHING OF DISRUPTION WHICH WILL SWEEP US ALL AWAY!!

## YOSSER IS A TOSSER

Bernard Hill on his way to fawn and bullshit before the rich creeps at the BAFTA tv and film ceremony. On accepting his award for the portrayal of the psychotic unemployed headbanger, Yosser Hughes, he shook the hand of fucking Princess Anne rather than nutting her one and promptly said the award was for all us unemployed. Well Bernard, you and your mate Bleasdale can go and stuff your awards, we're wise to your game.

We don't need you to tell the rest of society what a desperate bunch we are, we're quite capable of doing that ourselves through acts rather than through your alternative social worker drama. I can just see the fucking series being used to train more fucking state busy bodies in what we're like and how difficult we can be sometimes. You can go and stuff this bloody cult of the miserable the tosser Yosser personifies in the same place as the award. For too long we have been listening to the

inevitalibilities of this and that, now we're gonna give you some inevitabilities of our own. We see that this society only says starkly 'This is it' and promises us nothing but fucking patronising clever programmes like yours. Well we don't care anymore.

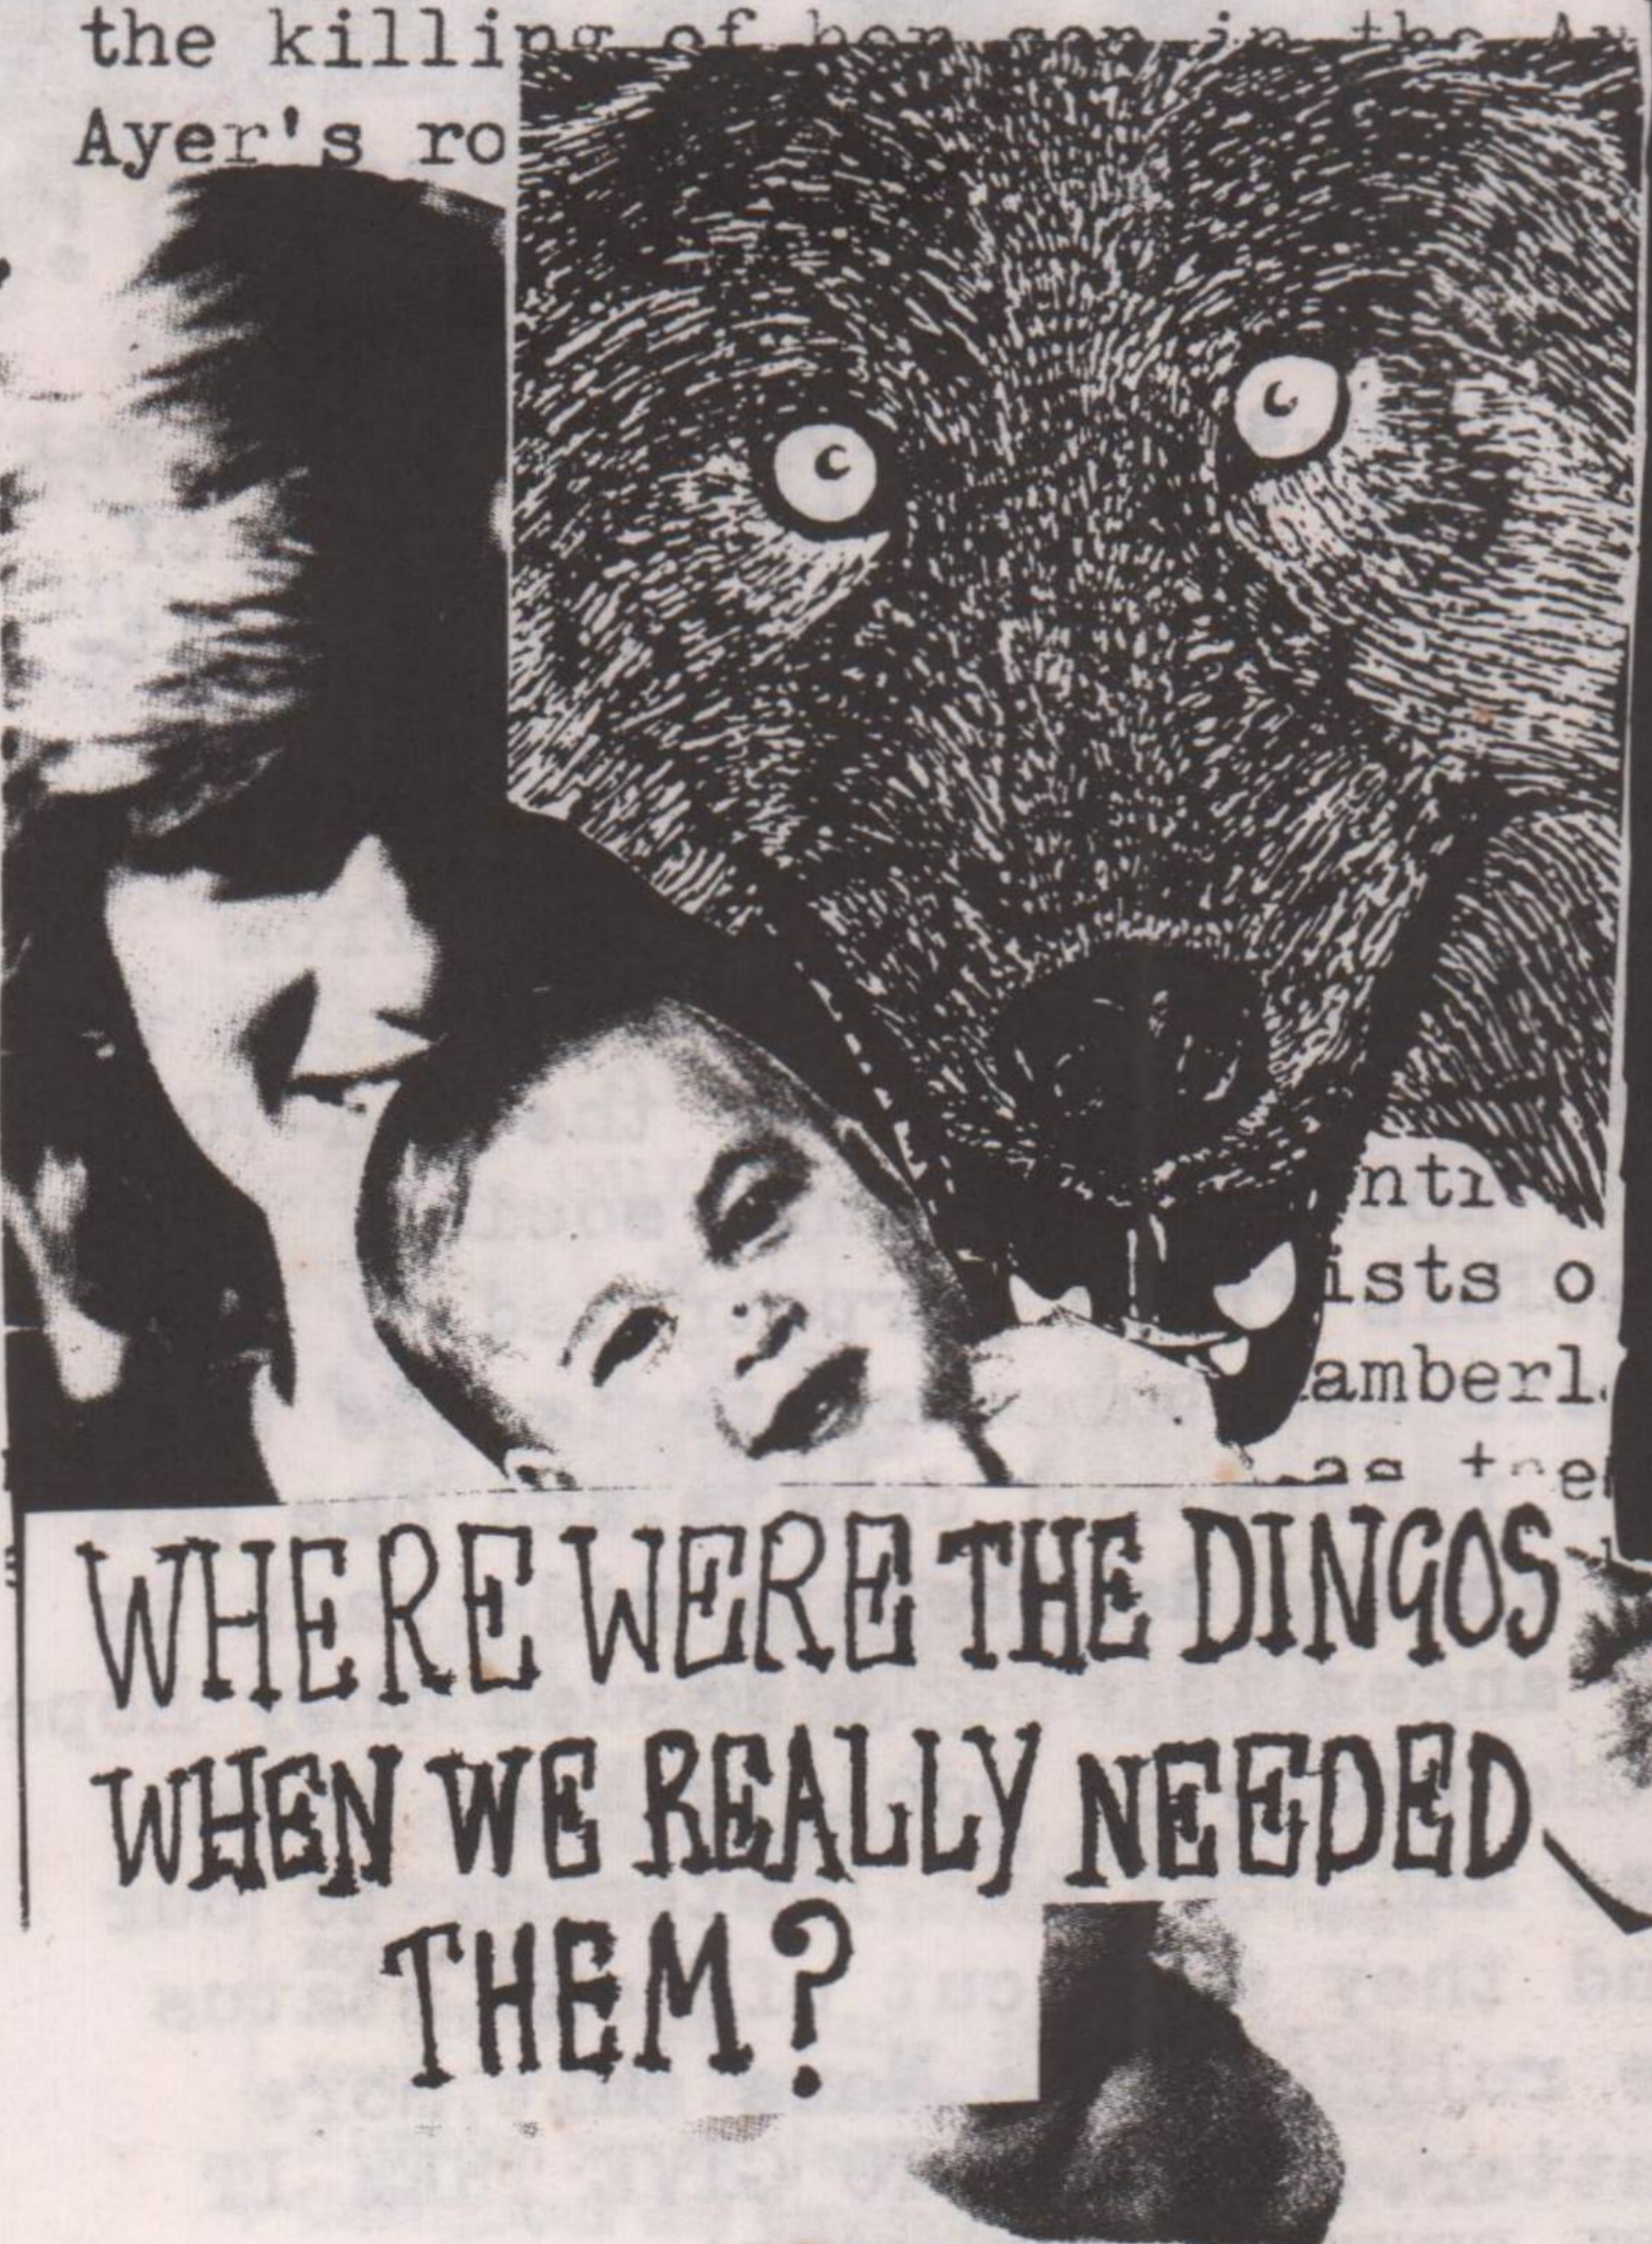

So you can go and write some more moneyspinners about other pressing social problems and see if your middle class pals like them. We don't. You'd better be quick about it as well, your time is running out.
