

AVON

In Bristol the **ROCK AGAINST THE RICH** gigs are being sponsored by Barton Hill Youth Club. Barton Hill is just one of the areas in Bristol where the working class are under attack. Our hospitals are being closed and our communities being destroyed. House prices are being forced up by greedy developers, who make more profit out of selling luxury houses to the **RICH** and their yuppie offspring, than providing low cost, low rent homes for the working class and the homeless. In Bristol, the planned Metro will run through our areas but will be lined by expensive flats while the Urban Development Corporation will create a dockside paradise for the **RICH**,

(as in the London Docklands) with us forced into deteriorating estates on the outside of the city where they don't have to look at us. Barton Hill is fighting back, it's only the start. Let's all **ROCK AGAINST THE RICH!**

Exeter Labour Council have all taken to wearing blue ties recently. They were already identical to the Tories anyway. They've welcomed rising house prices in the area as a sign of so-called prosperity. The reality is homes for the **RICH**, rising rents, and a dramatic increase in homelessness in south Devon for the rest of us. A terraced house in Sidmouth costs £80,000, unthinkable even 6 months ago, and unaffordable by local people.

The alternative of squatting is being attacked by a united front of the police, the courts, and the Labour council. Some people are even having to build make-shift shelters in the woods. The same council is also financially promoting the bicentennial of William of Orange, with support of local Orange Lodges and the NF. Local groups including Exeter Anti-Fascist Action are resisting the planned "celebrations", and money from **ROCK AGAINST THE RICH** will be going to these groups. Remember, nazis and racists are friends of the **RICH** and so must be our enemies. For more info. contact: Exeter AFA, Box 176, The Flying Post, 1 Parliament Street, Exeter.

DEVON

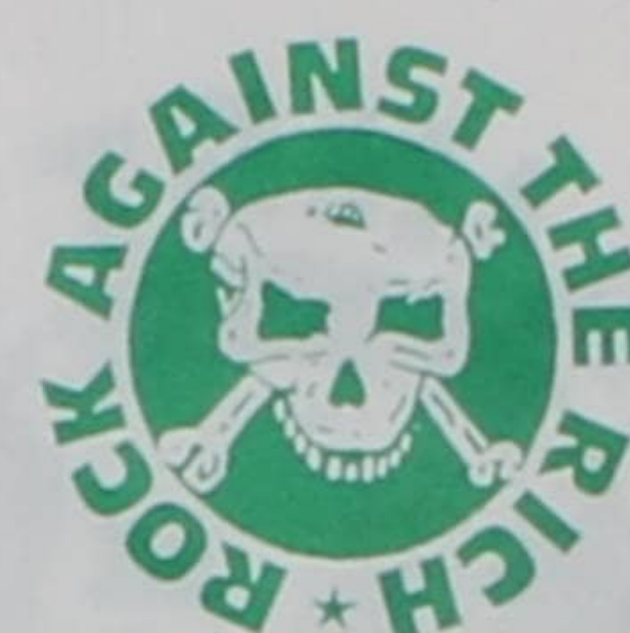

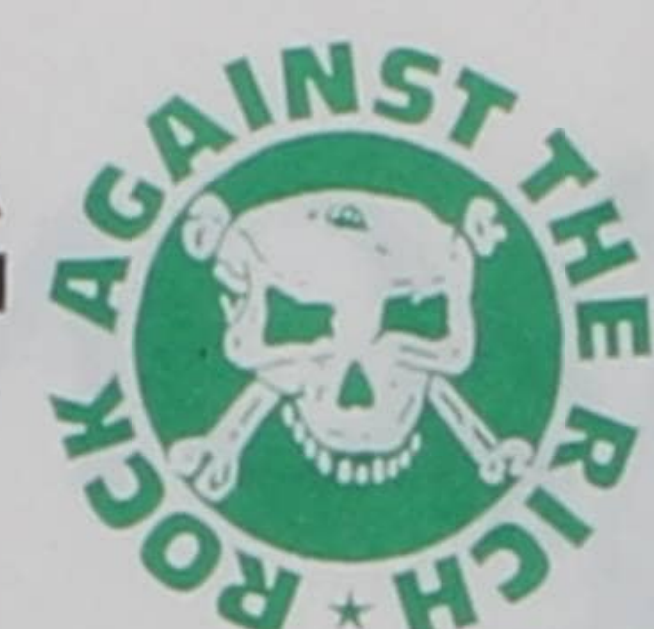

Dorset is also suffering from the excess spending power the **RICH** seem to have acquired in the 1980's. Marina developments, despite very strong local opposition, are well underway, in Swanage for instance. While in the north of the county resistance to huge luxury housing developments is developing in the shape of the Wessex Freedom Force. Although Dorset has always been seen as the home of the **RICH** this has only been because the county's working class have been kept quiet with threats to their jobs if the tourist industry is undermined. Well it is now, by the **RICH**, who are kicking out the ordinary holiday makers and moving in, in their place, to luxury holiday

DORSET

homes, and grabbing a weekends sailing. If it carries on the Tourist industry will disappear and huge unemployment will result. We may not agree with the methods of the Wessex Freedom Force, but we must agree with the message -

KICK THE RICH OUT OF DORSET!

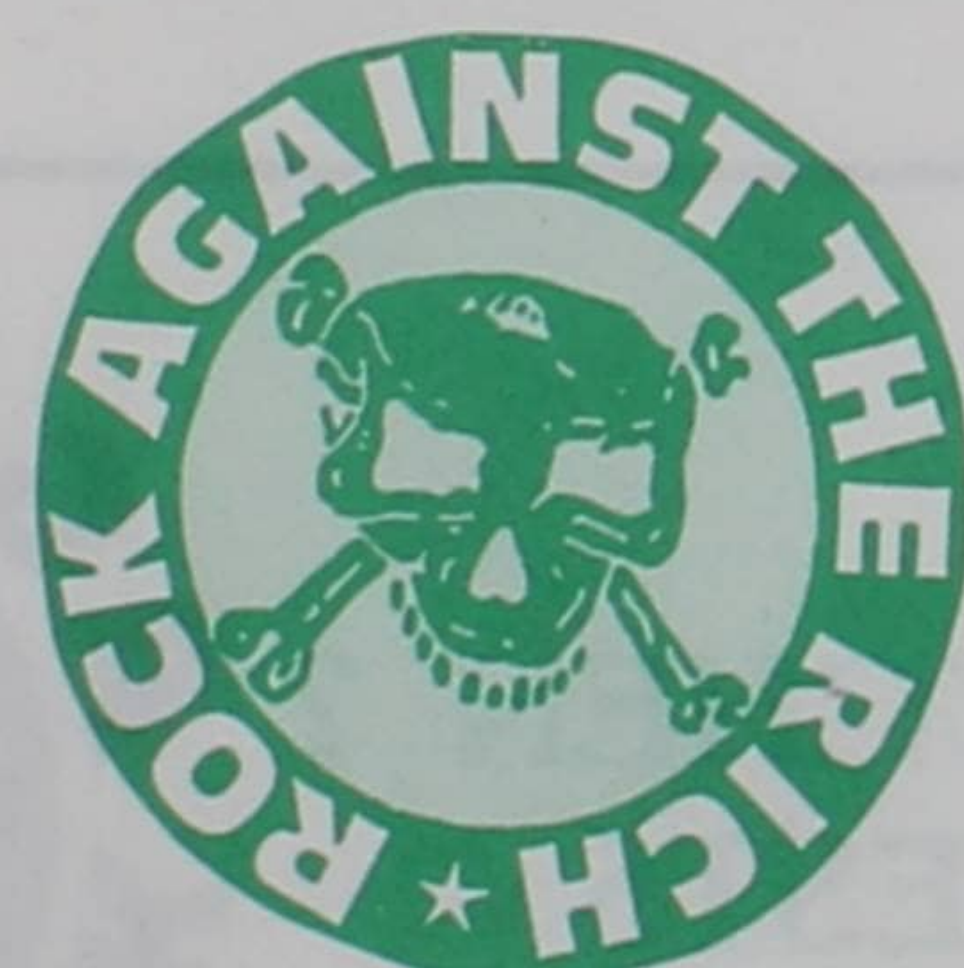

HAMP-SHIRE

Not long ago, Southampton was a thriving port employing thousands, whose families also lived and worked around the docks. Now much of the docks has disappeared and thousands of dockers have been made redundant. In their place are shooting up luxury shopping centres, and exclusive housing complexes catering for the **SUPER RICH**. The economy of the city no longer relies on trading ships from around the world, but on yuppie yachting weekends. These provide no work for local people, but increase house prices and living costs, so as to make it impossible to live in the city centre if you are working class. More so called development is planned despite huge resentment. Pirellis, the only major

employer left in the city is selling up and moving and developers supported by the Labour Council are planning to build yet another housing/shopping complex only the **RICH** can afford to use. Pirelli workers are already resisting, **ROCK AGAINST THE RICH** is supporting them. The time to fight back is now - lets **KICK THE RICH OUT** of our docks.

Sussex has always been the haven of the **RICH**, when they are outside London. The yuppies of yesteryear have always found the Brighton coastline ripe for investment in any period of boom, going back to the 18th century, when all the European royal families bought homes there or built palaces! Now a new wave of the wealthy are rushing south from London to sample the sea air and exploit the rich pickings to be found there. Development in the so called Green Belt has led

SUSSEX

to increased house prices on a par with the disgustingly high rates in London. Resentment, as in other places in the country is taking the form of the "rural riot", making the point that the **RICH** aren't safe anywhere from us - in the cities or the countryside. Major development is going on in Brighton too, with of course the inevitable marina. Rumoured to be under the control of gangsters (more **RICH** scum who happen to work outside the law) it could become the centre of large scale smuggling. Bad news for the people of Brighton as this kind of yuppie doesn't use the police to rule by fear and intimidation, they do it themselves. Stop the Marina - Stop the Crooks - **ROCK AGAINST THE RICH.**

violence

This time the BIG decider! Once and for all let's fight it out. Not just rich against poor but everyone; race against race, sex against sex, creed against creed age against youth, each against all. A fight to the finish, instead of poultry little skirmishes let's have a final bloodbath. THE WORLD IS WAITING AS A PRIZE FOR THE WINNERS (if there's anyone left!)

We're fed up with highbrow ideologies and theories, when it all boils down they are all just complicated ways of stating the obvious **WHAT THE WORLD NEEDS NOW IS A BLOODY GOOD KICKING!** We don't need clever bastards to tell us that do we?

And if you haven't got the bottle to kill your natural enemy (anyone else) then top yourself it's all your worth

Why leave it at a good kicking?

Ha, ha, tough shit mate, too trusting!

"Total war is the command of the hour, noone shall shirk the task." - Joseph Goebbels.

I'VE KILLED A THOUSAND, I'LL KILL A THOUSAND MORE

"Why should we care what happens after we're dead? Why should we care that there is no younger generation to succeed us?" Valerie Solanas

Hey, hey, here's some good old boys about to show their utter contempt for everyone (including each other we hope) but don't be discouraged by lack of weaponry, even though these comrades have an excellent display!

JAMES HUBERTY: no criminal record.

He finished them off there and then! What can we say? If he was still alive we'd buy him a pint. James Oliver Huberty, Class War salutes you.

"Helter skelter is all the wars there's ever been piled on top of each other." - Sadie Klutz

Remember, what you lack in hardware you can make up for in blind hatred. It's amazing what can come to hand, and most of the human race still walks around **TOTALLY** unarmed, naively unaware of the violence they deserve to have visited upon them, think!

The horror, two miles from the California-Mexico border, stunned the city of San Diego yesterday. "I'm numb," said the mayor, Mr Roger Hedgecock.

"Because Craig is Craig so the streets shall be filled with Craig (death)." - Charles Manson

One of the first to enter the restaurant after the 90-minute seige, he gave a vivid account of the carnage:

"A couple with a child in between them. A very young girl and a parent on the floor next to her. A man in his 20s or 30s. An older woman slumped in a booth. Two teenage boys in T-shirts and shorts with their dinners still half-eaten on the table.

"I have a churning stomach. It looked like a war zone."

"There's a dead bourgeois (rich bastard) for every one of my fingers." - Ravachol

"We just finished our hamburgers and were opening our dessert of apple turnovers when the man with the weapons shouted 'Everybody down,'"

THAT'LL TEACH THEM TO EAT MEAT!

Meat means Massacre!

"War is the continuation of policy by other means." - Clausewitz

"The state of nature sees everyone at war with everyone." - Thomas Hobbes

6 children, 3 teenagers and 12 adults
