Dear Comrade,

Thank you for your letter.

I regret that I was unable to remain in London owing to the difficulty I had in obtaining suitable work.

I have now found work in Worthing and have joined my fiancé (who is a freethinker) I went with him to a meeting of freethinkers and I was amazed at the air of general apathy which hung over the proceedings. It would be quite hopeless to try to persuade them that one cannot hope to ignore politics and politicians.

I enclose a P.O. for 5/- and also

my card.

Whilst I was in London, I tried hard to find some trace of the S.W.F. and/or its' work, but I have to admit that I failed. I stood in pouring rain in Hyde Park and I went to the Garibaldi but...

I am still itching with excess energy and I'm hoping to hear that there are some anarchist-minded people in Worthing. If you say there are none, it is quite obvious to me that I shall have to find some, because, I really cannot tolerate Tories.

Have we had any new members join the S.W.F. recently? I have a horrible feeling that the answer will be 'no'.

Best wishes from, J. Vickery.

Please send me a copy of  
The Libertarian and Prometheus  
and "General Strike."

Thank you.

Wickery
