Dear Fellow Worker,

I understand you are working in the Port of London, & are a militant in the struggles in which all of us, and the Portworkers in particular, are involved. I enclose a copy of the last issue of our organ "Direct Action" which should give you some idea of what we are doing, and <sup>we</sup> will send you a copy of the November issue when it comes out. If ever you need any help in any militant rank- and file activity, let us know, whenever the occasion arises. We have a duplicator, for instance, and we will of course help in any other way we can. Also if you wish to contribute an article to our paper concerning conditions in the Docks, particularly factual information about the "unofficial" movement, (which we think should be published as ~~much~~ <sup>widely</sup> as possible), we shall be glad to publish it. If you like I'll call on you so we could discuss the possibility of any future activity & co-operation.

yours fraternally  
Peter Green.
