Dear Ken,

Thanks for the letter, pamphlets and January issue of
a D.A. I am pleased to see the change of title, which as you
say, is very expressive of our aims. I hope you manage to
locate in new premises and have a successful conference in March.
I am again in contact with the Calgary group but they have
difficulty with English whilst I have no Spanish and very little
French. When I move to Red Deer this fall I will be in a
better position to get down and see them as Red Deer is half way
between Here and Calgary, just under a hundred miles either way.
University is turning out quite interesting the work is not to
hard but time consuming. I hav'nt made any converts but at
least I am spreading the word ~~around~~ around a bit.

All the best,

Bill
