Dear Friend,

a few days ago amongst some literature I received from "Freedom Bookshop," was the Jan-Feb, Copy of "World Labour News," which interested me very much. At one Period several years ago, I read "Direct Action" frequently, as I sympathise with many of the views advocated by the S.W.F. Through sickness (lung disability through East Universal Carvelp) & other troubles, shown up through the ~~Economic~~ Economic System of this Psycho Jungle we know as Capitalism; I have been out of Circulation as regards the Politico World, & Class struggle in general. As I am unemployable through being Physically Unfit, therefore Unprofitable, I have lots of Spare time to use up, I therefore spend a lot of it in reading. Most of my lit, Comes from the Public Library, as this is the only Place as yet that is still free. I also Peruse all the Phony rebel weeklies in the reading room. They have them all on the Shelves

PTO.

2/ But the authentic Anti-Capitalist Periodicals.
'New Statesman', 'Tribune', 'Spectator', 'Peace News',
The Soviet Patriot (known here as the Daily Worker)
Socialist Leader, Etc Etc — are all there

The only Syndicalist, or Anarchist Journals that
get on the shelves are the few I leave there
myself. Well as I said I have not had chance
for a long period of keeping up to date with the
class struggle from the Militant Anarchist Point of
View, therefore was wondering if you had any old back
issues of the 'World Labour News', kicking around
your office doing nothing useful; you could
let me have — Also I would like to order
the Pamphlet's "How Labour Governed, 45-51"
also, "Ethics & American Unionism"

by Sam Weiner —

Plus a current copy of the "Industrial Worker",
for which I am Enclose P.O. for same —
Hoping you can forward me this literature in the
near future — Yours Cordially; M. Flanagan —
