Dear Ken,

Enclosed is copy of a new venture "Forward". Perhaps you could review it in "D.A." and give it some publicity over there. This issue is completely cleared out and if further issues go as well as this it should be a success. Don't mind too much the stuff on the back called "Our Aims", the content of the articles is what counts & I think that it is pretty good.

Sean went back to London

two weeks ago, I expect that he has contacted you by now, his address is J. Murray, 68 Hamilton Rd, London N.W. 11, phone M5A ~~5386~~ <sup>away</sup> 5386. You were right about his itchy feet, they are too damned itchy.

Thanks for your letter, it was very sickening to read the gruesome details of our comrades Granados + Helgado. With respect to their deaths, I think they have hammered a number of nails in advance in Franco's coffin + the lousy regime he represents.

Our friend the seaman who met me over here with Sean some months ago called on me on Tuesday while he was home on holidays for a few days. He is a tremendous character.

Incidentally, the D.A. cor. "Sparko" is home in Dublin — for good.  
Fraternally, Dave.
