

Mr. W.C. Hall,  
371 Coldharbour Lane,  
Brixton, London S.W.9.

15th January, 1952.

Dear Sir & Brother,

Your address has been given to us by Bro. Albert G. of the Industrial Rights Movement, which we support. We publish a monthly bulletin, DIRECT ACTION, and should be interested to publish a report of the present dispute in the next issue, from the point of view of the men concerned. One of the main functions of our paper is to act as a forum for workers engaged in the industrial struggle, such means of expression being denied them by the capitalist-controlled national Press. We feel it most important that such an account of the meter men's dispute should appear, in view of the obvious lies printed in the Press. We should be grateful to receive such an account from you - or your committee - and should also be very pleased to meet you at any place convenient to you if you would prefer to discuss the matter personally. In the latter event, however, could you please arrange an evening meeting, as all our members are wage slaves during the day.

With best wishes for success in your struggle,

Yours fraternally,

Secretary.
