Dear Guy,

I believe we have previously sent you a copy of the enclosed pamphlet, which we set by hand and printed ourselves. You will, I expect, have realised that we had to suspend publication of "D.A." for the time-honoured reason -- lack of funds. The number of people willing to support -- let alone take part in -- revolutionary work is strictly limited these days, or so it seems. But I don't need to tell you that... If you could possibly find a corner for the enclosed notice in the December "Word", we should be most grateful.

And if you take a few copies for your shop, we shall be delighted to send them along.

With the hope that you are keeping well,
Every good wish,

P.s. Can you let me have the address of the present secretary or literature secretary of the Workers' Open Forum, please?
