

15, Parliament Hill,
N.W.3.

May 16th, 1945

Dear Steve,

The Group was pleased to hear that you have become the proud father of a budding anarchist and hastens to offer you and your wife their heartiest congratulations.

No doubt by now you will have seen Direct Action (and be glad that your suggestion for the title won through) and we hope you liked it. Please let us have suggestions and comments, and above all contributions on any subject you think of interest. Especially an article on the lines of your Soldiers' Parliament would be just the stuff we want.

We are sorry that you have not been along to the last few meetings as matters of some importance were dealt with. We need not emphasise that organisational discipline, as you would be the first to admit, does necessitate members attending and taking an active part in all the decisions that are taken. No doubt family affairs have been largely responsible for your absence and we hope that you will now be able to attend regularly in future.

Hoping to see you shortly,

yours fraternally,
