The Secretary,
C.B.C.O.
6, Endsleigh St.,
London, W.C.1.

26th August 1953

Dear Sir,

Received your letter of 14th August for which many thanks.

It is not our policy to insert commercial advertisements in 'Direct Action'; we do, however, seek to aid activities which have objects in common with our organisation's aims, and in accordance with our principles.

In accordance with this, we have decided to insert a free display notice in the next issue of our paper, as near as possible to the form of your intended display advertisement.

We would stress, however, that 'Direct Action' is regularly produced at a financial loss, and we would welcome any contribution you may be able to offer; it is largely through the help of members and sympathisers that our journal is able to continue publication.

Dealing with a completely different matter, could you please send us any press statements which the Central Board may issue, from time to time, as the readers of 'Direct Action' would obviously be a public particularly interested in the questions with which the Board deals.

With best wishes,

Yours Fraternaly,

Peter Green

Secretary, National Committee
