London, W.9.

July 2nd 1953

Dear Comrade,

Received your letter of 19th June, for which many thanks. Please find receipt for your 5/- subs enclosed.

If you would please enclose your membership card whenever paying in a subscription, the amount can be entered, and thus provide an additional check on our accounts.

The July issue of DA has now been printed, and you should shortly be receiving it.

As you suggest, it probably was Julian Pilling who you conversed with in Hyde Park. I was also there. Until you mentioned this in your letter we had not placed you, and had wondered where you had got hold of Direct Action.

Do not get too disheartened over any slowness of progress in propogating syndicalism; we are all up against great difficulties, yet still our movement continues to grow, very slowly perhaps but on a solid basis. Remember that our organisation is still very young.

Regarding your comment on the number on your membership card; Yes, our membership is as small as that.

Your remarks ~~on~~ the Spanish Question are noted. This problem has concerned our movement for some time.

It appears to many of us now that there is some feeling for unity among many of the Spanish comrades, and that this would strengthened, and agreement brought nearer, if the IWMA tried to provide a basis for reconciliation,, where previously such efforts would have been frustrated by an unreadiness to get together.

Please let us have any comments on the July issue of Direct Action; friendly and constructive criticism is the best encouragement we can have to improve it.

Also we are always glad to consider material for publication, especially of course news items of Syndicalist or libertarian interest, from localities where we have no correspondents.

Hoping to hear from you again,

Best wishes,

Fraternally,

32, LATHOM RD., EAST HAM, E.
