Dear Comrade,

Thank you for your letter of the 30th. We shall be very pleased to have you publish our address in D.A. in the hope of making a local contact. It has always been our aim to help scrape together a new group of the S.W.F. but we are rather uncertain as

to the procedure of making over objects and principles known to the public of a comparatively strange town. Johns' last "brainwave" was that we should rise at the crack of dawn to affix bright yellow sticky-backs to shop windows, front doors, lamp posts, etc. I feel, rather strongly, that the carrying-out of this idea would result in our becoming notorious rather than popular. (assuming that we would get some result, of course). However, I have written to

the London H.Q. of the National Secular Society, asking for the names and addresses of subscribers to "The Freethinker" in this area, as I have detected quite a lot of common sense in the conversations of freethinkers. I think it would be fairly easy to talk a freethinker into becoming a syndicalist.

If you have three or four spare copies of the next issue of D.A. would you send them here, please?

With best wishes,

Yours Fraternally,

V. J. Greig.

P.S. Enclosed P.O. for 4/- -  
for extra copies of D.A  
and the rest to go in
