AN EVERYDAY STORY OF TV TERRORISM

WAR OF THE WORLDS - PART 2 : THE ALIENS TAKE OVER SHOCK !!

Savages

A LOT of people these days blame football for the unseemly behaviour of young people. This is not the case. So-called pop music is the root of all the trouble.

If you inadvertently catch a glimpse of this barbaric behaviour on television, you will witness half-baked imbeciles screaming and prancing about like demented savages.

THERE are too many moaners and do-gooders in this world today, and the words "don't do that" seem to be the limit of their vocabulary.

My wife and I are 80 years of age and are deeply thankful that we have well exceeded our allotted span. We do not moan or dictate to others because we realise that every new day is a bonus to our lives.

We have survived two world wars, several strikes, seen the means test,

parish relief and soup kitchens come and go, but we are still here.

We were reared on pigs' trotters, scrag end of mutton, ox-tails, tripe and onions, fish and chips, eggs and home-made bread... but my mother was a genius in producing a feast out of anything edible.

So please stop moaning. Mind your own business, enjoy life to the full and remember that nobody owes you a living.

HEAVY DUTY PAPER WEIGHT

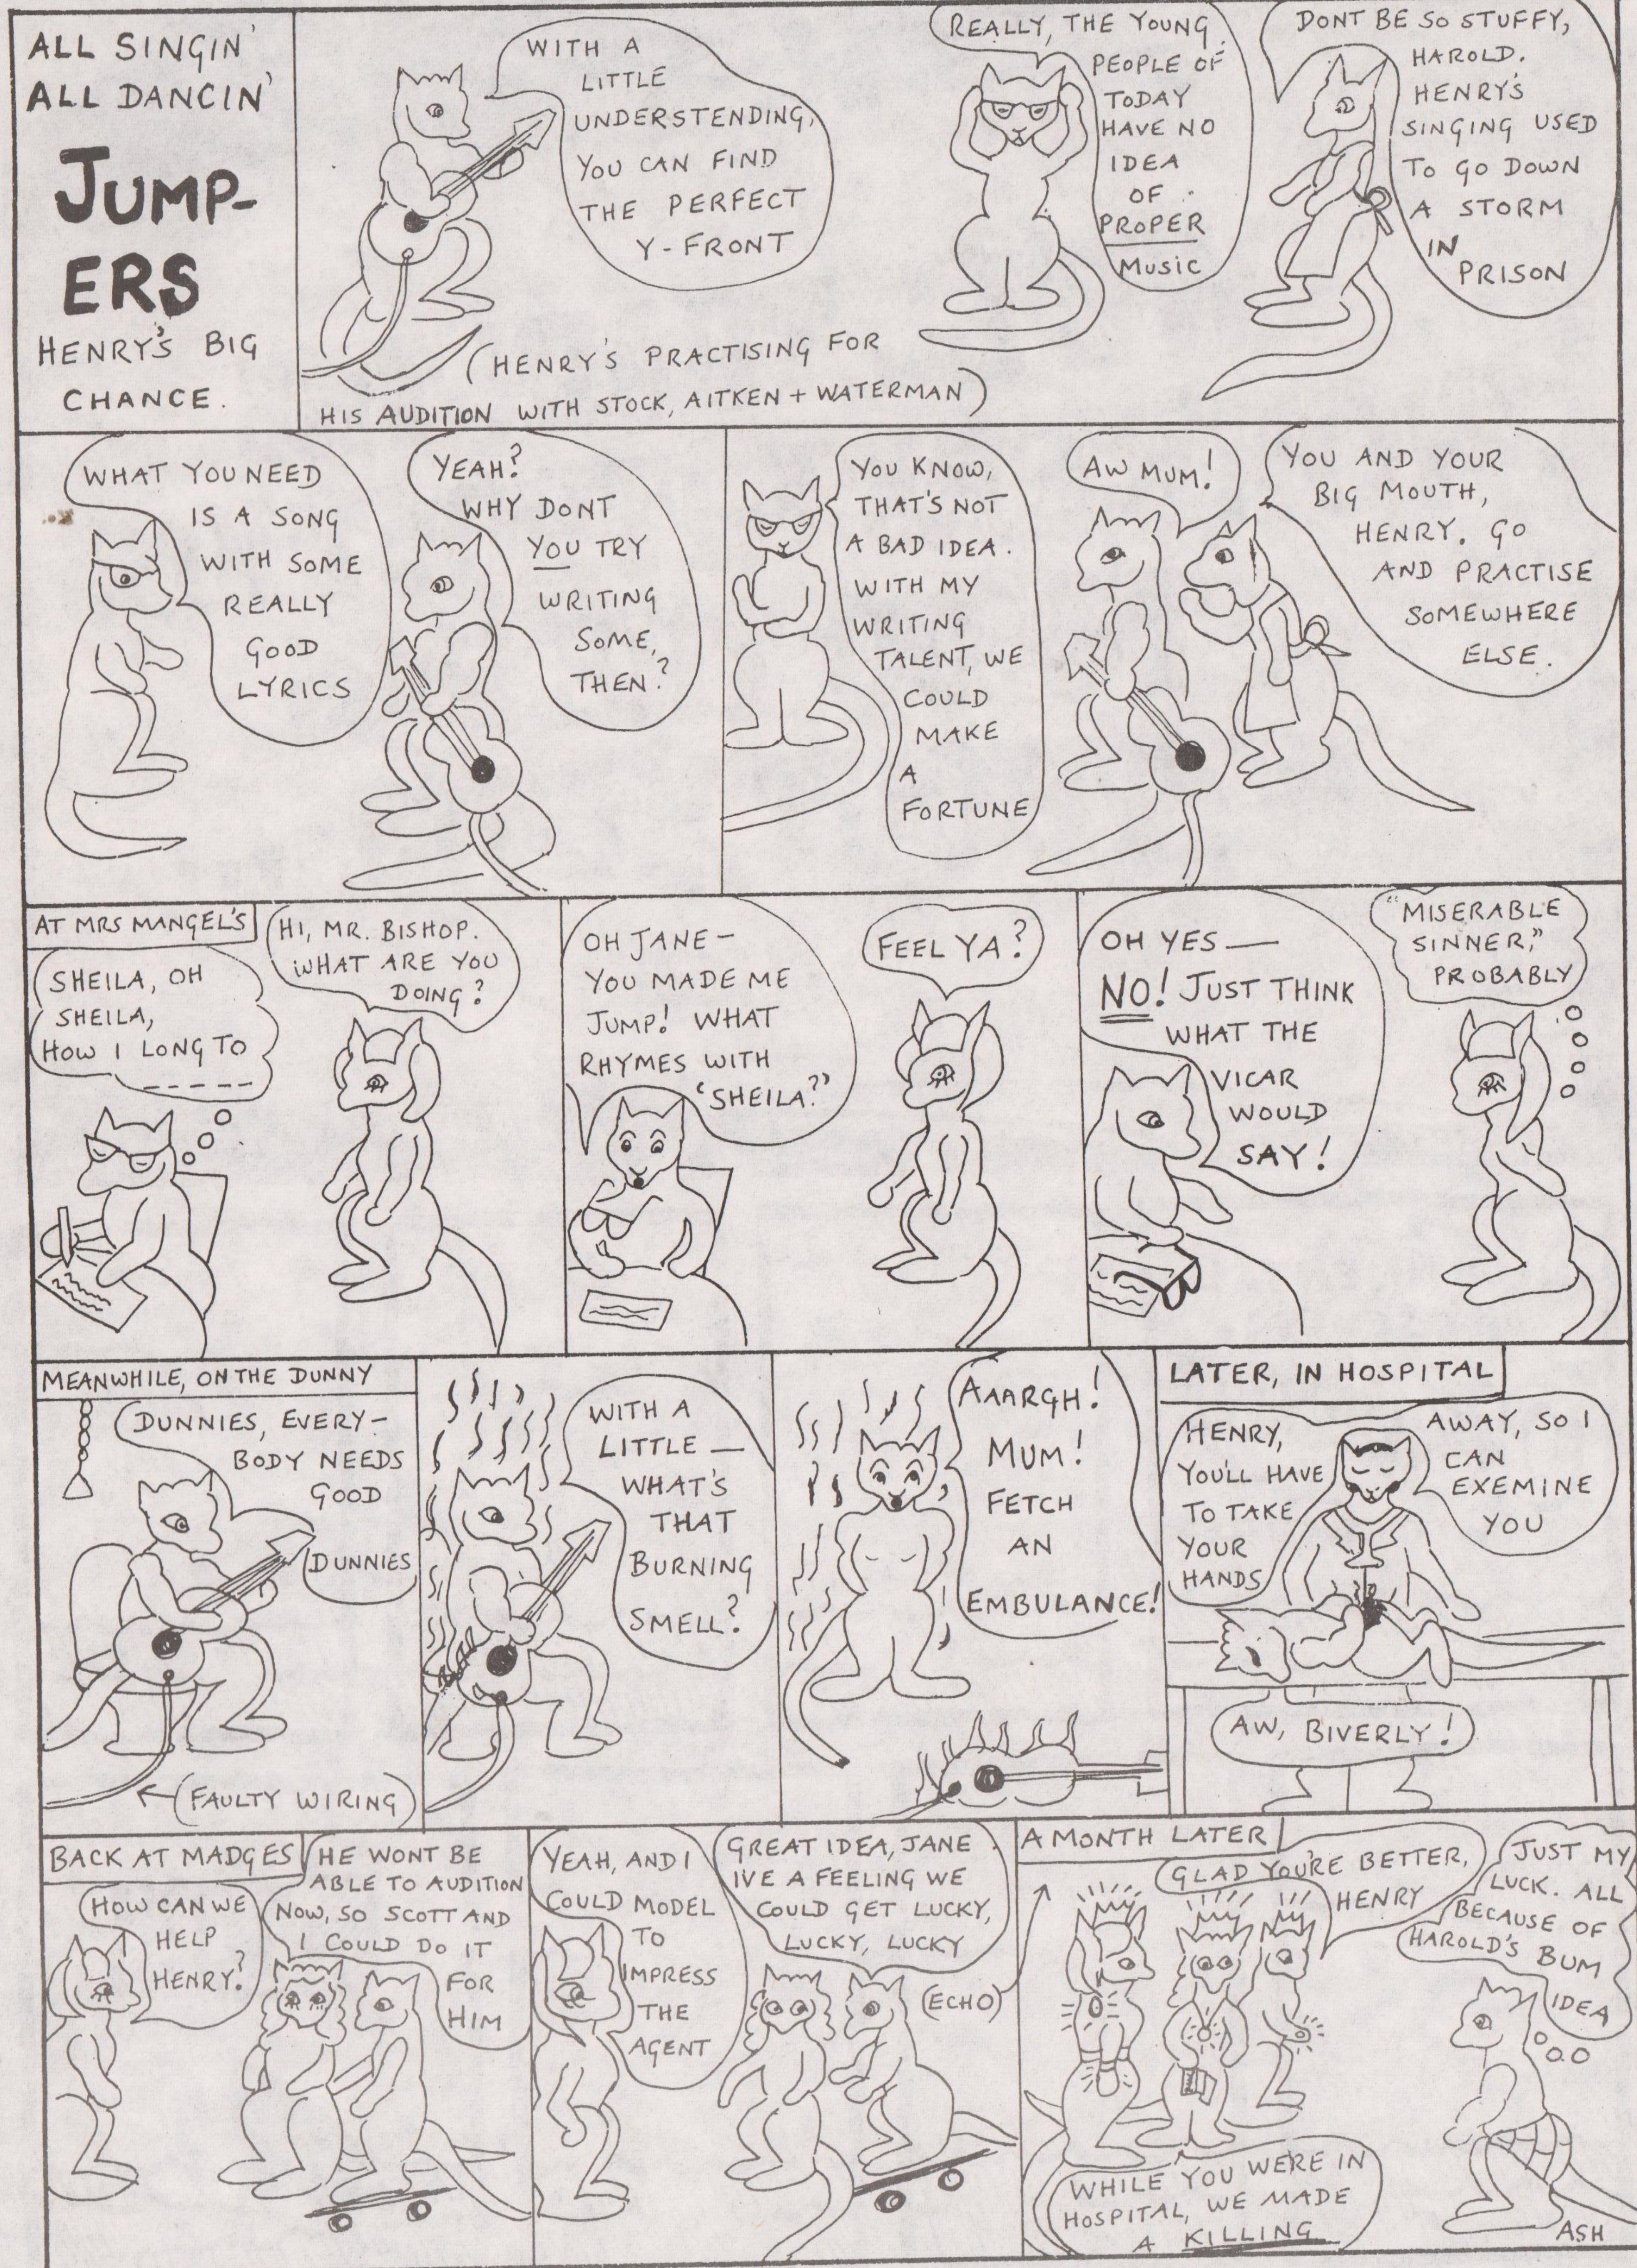

WHY is it when I purchase cooked meats from reputable food shops in Nottingham I am charged for layers of paper that are not removed when weighed.

Recently I purchased some cooked ox tongue. At home I was astonished to find a layer underslice the same size as the meat. The bottom layer had three slices of paper, the top layer two and the rest each had one layer dividing the remainder of the slices.

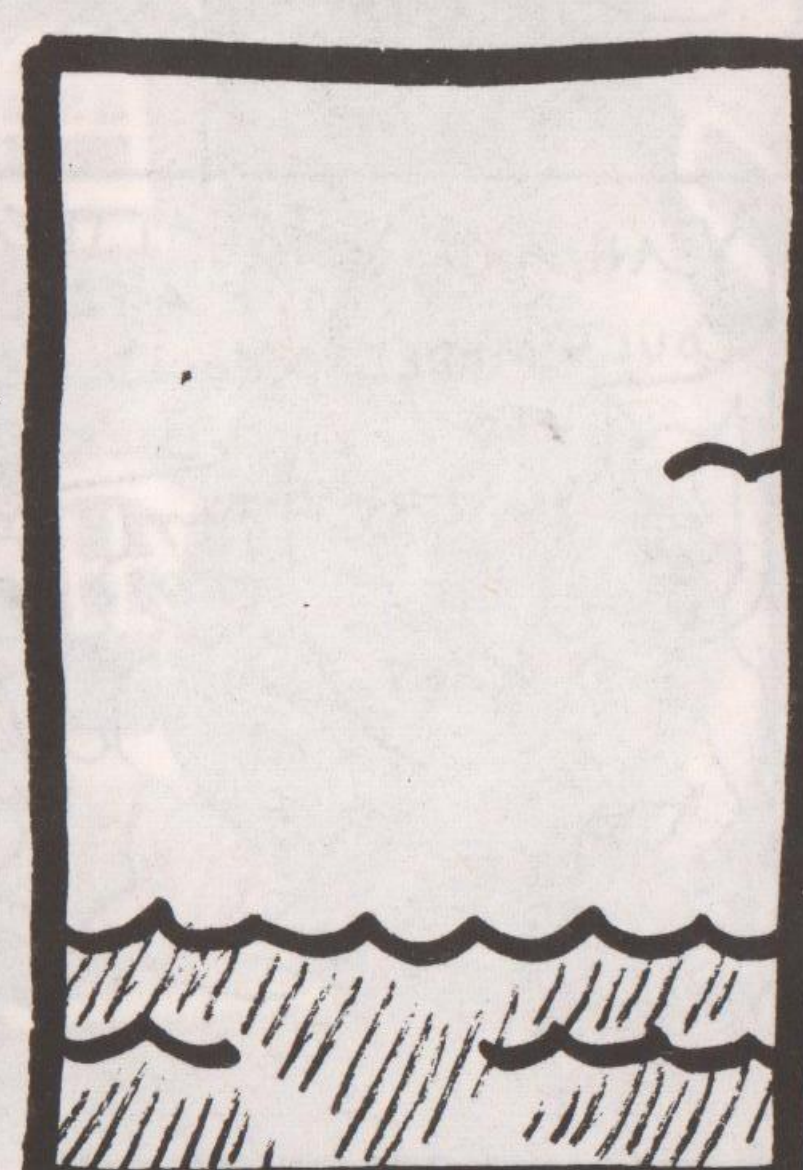

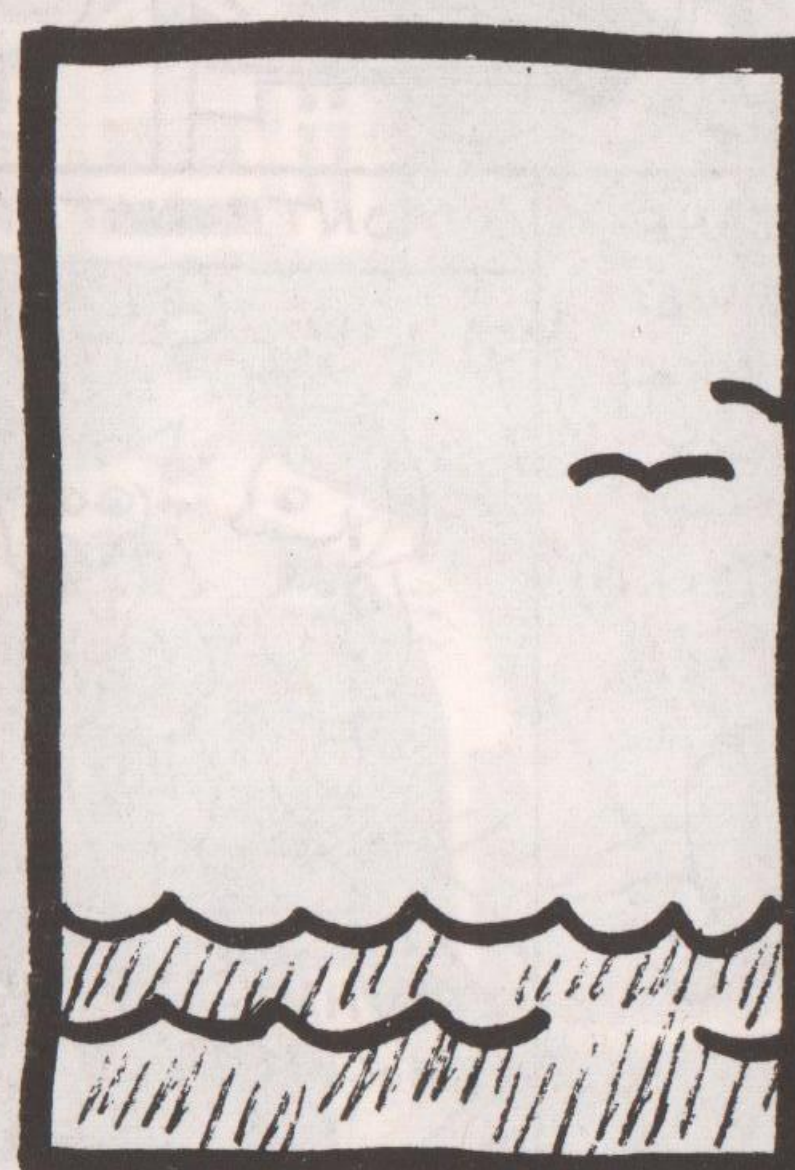

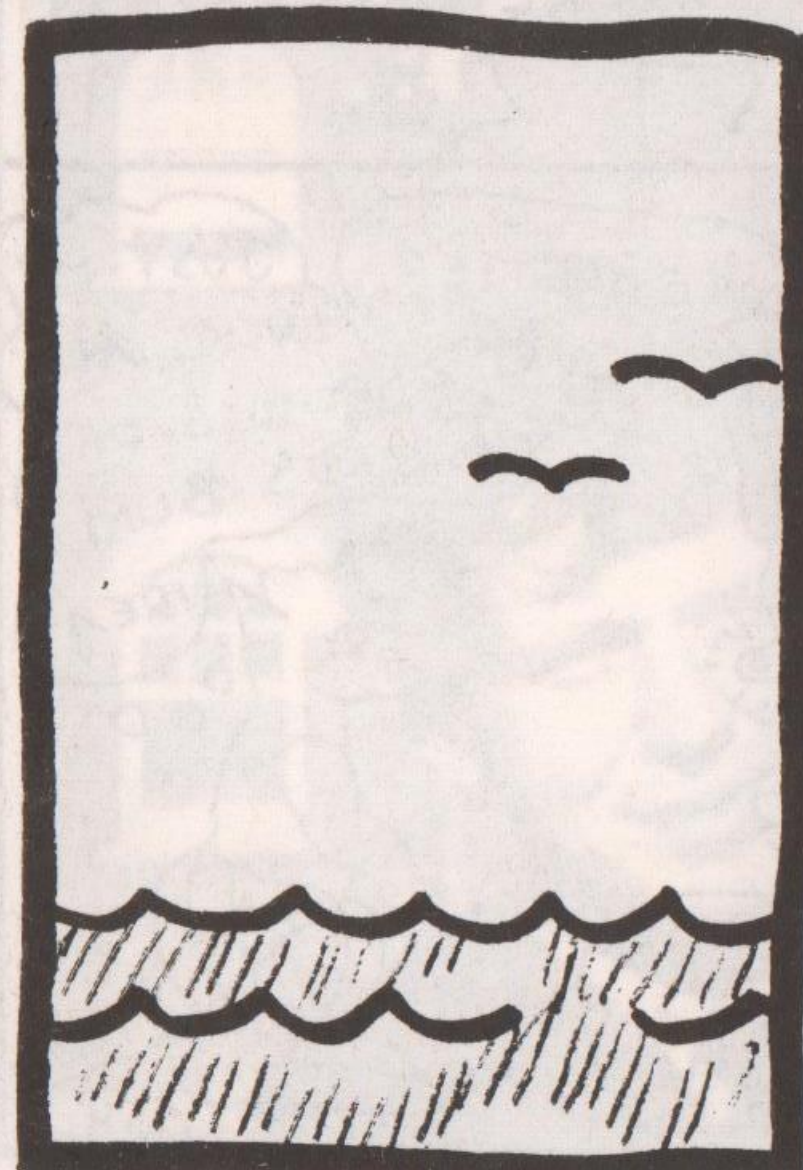

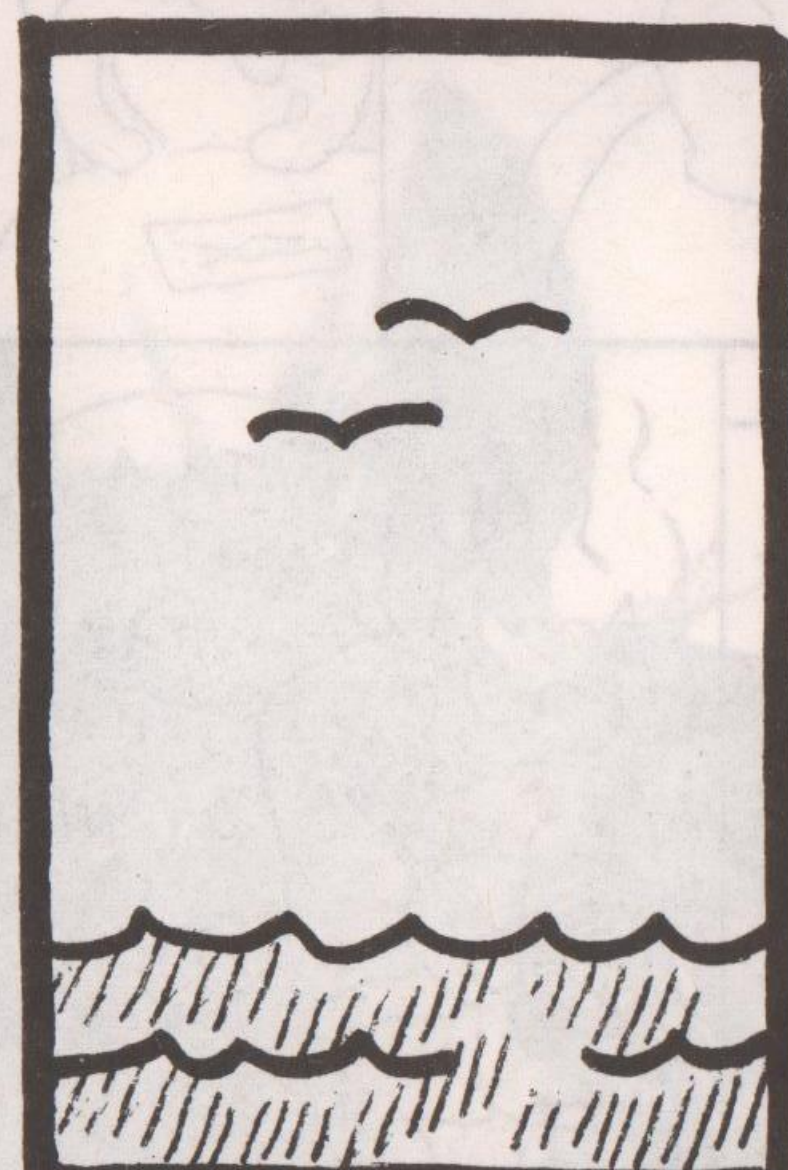

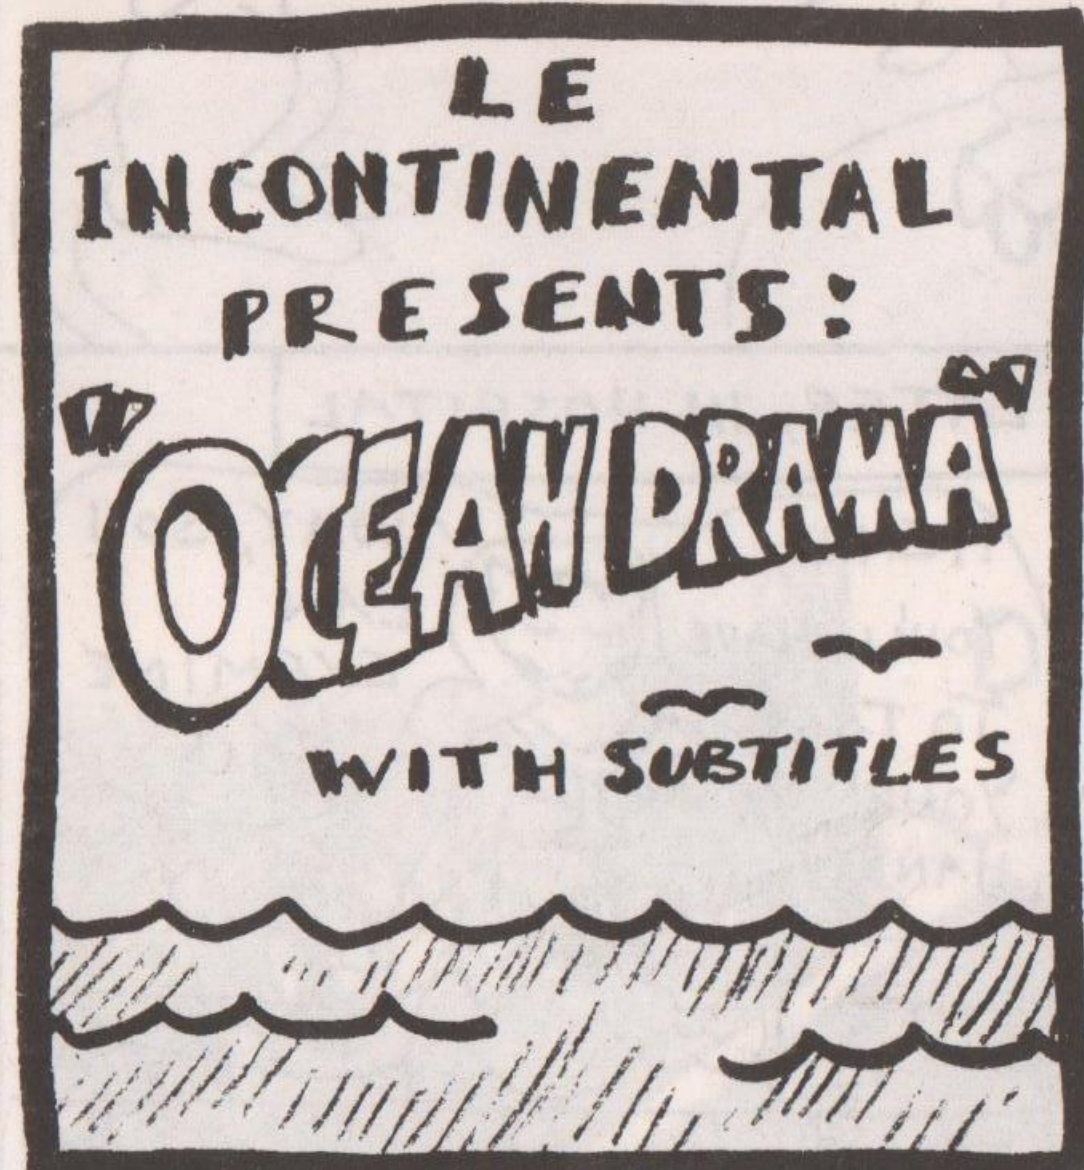

Now I don't eat paper — it's not good for my digestion. So why am I charged for something I've never ordered!
