Who *could* you vote for?

-Local bulletin of the ACF-

Not a Politician anyway!

Politicians eh? liars-cheats- crooks!

You can't blame one lot or the other- look at the damage the Lib-Dems did in Tower Hamlets; the disgrace of Shirley Porter in Westminster and the disaster of Labour in Hackney.

Corruption

From top to bottom politics stinks of corruption- from covering up for a paedophile social worker- to cash for questions: they all sell our interests down the river.

Contempt

The contempt "lefty" MPs (like Sedgemore) have for us was demonstrated when they voted themselves tens of thousands a year extra while we are expected to work longer hours for less reward.

Bastards

Some politicians didn't start out as bastards- really meant to change the world -but time and again workers have found that the political system does not allow change to happen.

BEFORE

AFTER

Sucked In

Our earnest world savers become disillusioned, , corrupted and sucked in.

Greedy

We all know that our planet is getting bled dry by greedy bastards grabbing the worlds resources from their city office. **How do we vote them out?**

Failure

We need to admit that the working class experiment with democracy has been a failure for us. We have not *voted out* exploitation and poverty and we never will.

Rethink

Time for a rethink. Time for a new way to organise- not for votes but for action.

Resistance

Only through active resistance to capitalism will we learn how to defeat it.

If you are interested in Anarchist Communism or have positive ideas about how to fight back in your community or work place come to our public meetings (see listings) or contact the address on back page.

Job Seekers Allowance- DON'T LET IT WORK!

We are no longer *unemployed* we are *job-seekers*. Like changing Windscale to Sellafield-sounds nice- people don't worry about it.

JSA- a load of hassle for no good reason. First they'll make us apply for loads of jobs and work part time for part benefit. *Sticking you up the first dead end available!*

Then some sort of course: skills training- fair enough if there is any thing worthwhile but the last one I went on was a farce- *a day spent on how to use a shovel...*
Restart Courses.

Its a workers world

**But its a bosses system;
Workers are the wealth creators**

"Write down all your good points on a piece of paper and read them every night"- that's the kind of crap they hit people with. They say you are too messed up to get a job rather than its capitalism that's too crap to provide for our needs. **Pressure** every time we sign on - and all that bullshit of dole clerks telling you to get a hair cut or change your attitude-No wonder

they want **bandit shields!** This JSA is going to hurt- **They can cut you off so easy now-** People are going to go hungry- **We need to stop this crap working.** Picking fights with dole workers won't help you as an individual or us all as a class. We need to **organise** our anger and find common ground with the poor saps working for the dole..

FIGHTING BACK

The only time we have any success is when we get together and make it impossible to work their plans- like the poll tax. Like then our friends North of the border have made a **quick start at fighting back:** In Edinburgh they've given dole clerks who bully people *"three strikes and your out"* First they get a warning: then their photograph is fly postered in the area.

Reported three times and they get a visit from a gang of angry claimants and given a **written warning** and a **bollocking in the office-** They get most upset... Let them know: **Don't mess with us and we won't mess with you!** **Bully us and...**

ANARCHIST COMMUNIST FEDERATION

The ACF is a free association of people who agree to some common aims and principles. We are not a *party* and do not want power for our organisation. We believe that the world should be organised for the good of all and not for the greed of some. We believe that only the direct action of the organised working class will change the World.

The ACF organises at a grass roots level to join the fight to protect wages, conditions and benefits and to defend and advance workers freedom. We also produce books and pamphlets on revolutionary theory and history. Our perspectives are laid out in our pamphlet "As we see it" and our magazine "Organise!" If you have questions about Anarchism or the work of the ACF please write to the address below.
